Three Things They Want.
Mussolini Reminds You.
Attractive Industry.
The Obstetrical Frog.

—By ARTHUR BRISBANE—

THE IMPORTANT nations are gathered in London, and three things are in their minds concerning this country.

First, how to get rid of the war debts, in a nice way that will seem like doing Uncle Sam a favor and make him seem a worse Shylock than ever if he objects.

Second, how to regulate Uncle Sam's dollar for him, that it may not become too cheap, and make it easy for the outside world to buy goods here.

Third, how to tear down this country's tariff wall, and obtain free markets for foreign goods produced by cheap labor based on a lower standard of living.

Europe has a low opinion of American common sense and statesmanship. If she carries out her present plans, she will have established the soundness of that opinion.

MUSSOLINI, friendly to the United States, decided on a memorable occasion in connection with the Chicago's "Century of Progress Exposition." For a year and a half his air force has been training a fleet of ninety-six huge hydroplanes for a Rome-to-Chicago flight across the Atlantic. The best twenty-five of the ninety-six have been chosen, and soon they will land on Lake Michigan, beside the exposition buildings, with Gen. Balbo, head of Italy's air force, in command.

THIS IS A friendly visit, and the coming of the great birds, through air, twenty-five of them in regular flight formation, will be a marvelous achievement and a useful lesson.

If twenty-five planes can come now, thanks to Italy's advanced flying, twenty-five hundred planes will be able to come, soon, across either ocean. Suppose they did come, bringing bombs and deadly gas, instead of friendly messages. What could our odds and ends of flying defense, hastily summoned, do to protect our cities? Nothing. The damage would be done, cities and populations destroyed, or the ultimatum accepted, within six hours.

EXPERIMENTS by London's air force prove that nothing can protect a great city from air attack, but adequate preparation could prevent such attack. There would be no attack on the United States if this country would truthfully say to other nations:

"Attack is far from our thought, defense is close to it. We have, ready for instant use, planes, dirigibles, cruisers, submarines, air bombs and poison gas, able to destroy the shipping and cities of any nation on earth. So keep away. Or if you doubt this statement, come and see."

ONE HUNDRED THOUSAND young Russians, fourteen to thirty years of age, all trained athletes, and all workers in government-owned factories and mills, paraded before Stalin, carrying tennis rackets, oars, footballs and flags.

Charles Fourier, whose genius and foresight will one day be recognized, predicted that labor would be made attractive to workers, and the greatest problems solved. Kings had given flags, music, decorations, monuments to their fighters because they wanted GOOD fighters.

No music or flags for ditch diggers. They had to dig or starve.

FOURIER predicted an era of "attractive industry" in which hard labor would be made pleasant and the workers' existence happy. The late Albert Brisbane wrote about it, in Horace Greeley's New York Tribune, more than 90 years ago, and paid Greeley advertising rates for space used in the Tribune.

If Stalin should change Fourier's theory to reality he might surprise the outside world.

MEANWHILE, he claims for Russia first place in the world for production of agricultural machines, tractors, peat; second place in the world's production of pig iron, and a place second to America only in all branches of production; a good record for a nation that has been financially boycotted by other countries.

The future belongs to any nation, or its employers that can make hard work attractive, abandoning theory that a hard job, plus a glass of beer or gin, is enough.

MOTHERS with children hanging to their skirts, as they move about their work, will be interested in small frogs recently imported by New York's Museum of Natural History. Their Latin name ends with *obstetricans* bestowed upon them, because the male animal is an expert obstetrican, or "mid-wife." He assists the female when she lays her eggs, fastened like beads to long gelatinous strings.

THESE STRINGS of eggs the male frog winds around his legs, making himself responsible for their hatching and welfare while the mother frog hops off to a puddle, all her worries ended. Father frog knows that the eggs must be kept damp and cool, finds a shady nook under a rock, near a pool, moistens the eggs when necessary, until, after three weeks, they are ready to hatch. Then he drops them in the water, where many pollywogs soon reward him with grateful stares.

Soon he is once more sounding his "sweet little call like a tinkle-bell," to attract his mate.

NO JOB, ILL WIFE LEAPS TO DEATH

'Always Loved You' She Pens Husband In Farewell Note

The young woman who plunged to her death from the Manchester Bridge last night was identified today as Mrs. Bertha Young, 26.

Her husband, Norris Young, of 1034 Grand avenue, made the identicfiation at the morgue after reporting the disappearance of his wife to North Side police.

Young has long been unemployed, and Mrs. Young was staying with friends in Western avenue and working in Dormont. Recently she became ill, and lost her job when forced to go to a hospital for treatment.

She wrote her sister, Mrs. Cavanaugh, of Toronto, O., asking permission to go there to recouperate. The answer came yesterday. According to Young, it said the Cavanaughs were hard pressed, had lost their store, and could not take her now.

PENS FAREWELL NOTE

On the back of the envelope, Mrs. Young wrote this note to her husband:

"After receiving a letter like this, there isn't anything else to do. I've loved you in life—I'll continue to love you in death. My lover forever.
"BERTHA."

Mrs. Young left the note at her Western avenue address and then visited her husband at his home. As she was leaving, she said:

"If you don't see me again, remember I always loved you."

Young told her not to talk like that, and she masked her intentions by saying:

"Well, I might become ill again on the street."

Andrew Pudia, of 1244 Reedsdale street, was the only witness of the death leap.

PLUNGES INTO RIVER

He saw the woman remove a dark blue coat, climb to the bridge rail, and throw herself into the river.

Puida's cries attracted residents of the houseboat colony nearby, and soon a half dozen men in skiffs were rowing about the scene of the plunge.

Chester Forsythe, occupant of a houseboat at ixteenth street, and Herman Schafly, of 112½ Saginaw street, pulled the body from the water. Two police patrol crews worked more than three hours in an effort to resuscitate the victim, but in vain.

Police at first said the body bore a "Y" branded into one arm, but an examination at the morgue proved the "brand" was only a slight scratch.

CONSTABLE BARED AS 'FIXER'

Trial of Monaca Club Alleged Owners Postponed.

The "fixer" who approached members of the jury panel which was to try the case against the alleged owners of the Monaca Club today was revealed as a constable who operated under an alias.

The Sun-Telegraph turned up this revelation in an investigation which apparently was setting the pace for the probe begun by the District Attorney's office.

WENT TO HOMES

The Sun-Telegraph's informant was Ed Springert, Ben Avon iceman, who said that he had accompanied "Mr. Brown" to the homes of three prospective jurors last Sunday and introduced him around.

Springert halted alongside his ice truck in Ben Avon today to tell the story without hesitation.

At first he identified the "fixer" as Mr. Brown. Then voluntarily he explained that the "fixer" had adopted this name, that he was a constable (not in Ben Avon) whom Springer had known for years.

In fact, Springert added, he had delivered ice to the "Brown" home until "Brown" had installed an electric refrigerator.

Today, when District Attorney Andrew T. Park was asked the correct identity of "Brown," he replied:

"You would like to have his name for publication and I would like to have it for prosecution."

INQUIRY PUSHED

Park said his investigation was going forward.

Springert said he had taken "Brown" to the homes of three

U.S. ANSWERS BRITAIN'S PART-PAYMENT PLEA; HULL TALKS TARIFF

HINT SURPRISE DEAL
New Agreement on 'Token' Installment to Be Revealed Tonight

LONDON, June 14.—(AP.)—A report that President Roosevelt had agreed to call a debt conference in Washington circulated today among French representatives at the World Economic Conference.

The debt conference, it was said, probably will be announced in the House of Commons tonight by Chancellor of the Exchequer Neville Chamberlain in connection with his statement regarding the proposed "token" payment on the British debt installment of $75,950,000 due the United States tomorrow.

Negotiations with the various debtors will be separate, it was said, with Ambassador Sir Ronald Lindsay representing Great Britain.

The French were considering whether to pay the $19,000,000 war debt interest defaulted last December in order that they might qualify for the negotiations.

LONDON, June 14.—(INS.)—Britain's payment toward the $75,950,000 debt installment due the United States will be only slightly more than £1,000,000

(Continued on Page Four, Col. One.)

SECRETARY SPEAKS
Ignores Debt Controversy, Urges Tariff Truce and Money Stabilization

LONDON, June 14.—(AP.)—Ignoring critics who have bitterly assailed the American currency and war debt policies, Secretary of State Cordell Hull called upon the World Economic Conference today to stand against economic nationalism by all-nation participation in the American proposed tariff truce.

Presenting the eagerly-awaited American views of the conference, Hull did not so much as mention the war debts, which have constituted the main target of attack against America.

It had been thought in some conference quarters that he could not ignore them because they had been given such great emphasis by the spokesmen for other nations.

3-POINT PROGRAM

Three points were stressed by the chief of the American delegation:

He called for removal of "all excesses in the structure of trade barriers."

He urged the conference to face the "vexed problem of a permanent international monetary standard and lay down the proper function of the metals, gold and silver, in the operations of such standard in the future."

He emphasized the "necessity of taking measures for the removal of restrictions upon foreign exchange dealings," saying that this might "involve balance sheet reorganization of certain countries."

His address was receeived with many marks of approval among foreign delegates. Members of the British delegation indicated that they were pleased.

The thing which, perhaps, drew the most general comment, was the fact that the reserved American Secretary of State played his cards close to his chest all the time and gave no concrete indication of the American proposals

(Continued on Page Six, Col. One.)

HERRON DENIES RACKET RULE

Mayor John S. Herron disclaimed any connection with racketeers in an address today before the Businessmen's Association, of the East North Side. He said:

"We have no connection with those who live by their wits and I am not going to permit anyone to say that gangsters control the city. Certain conditions have developed in the last few years, but I will never admit that vice runs rampant."

Hutton Denies Aimee Seeks Paris Divorce

LOS ANGELES, June 14.—(INS.)—Vigorous denial was entered today by David Hutton to reports that his famous wife, Aimee Semple McPherson Hutton, was in Paris for the purpose of seeking a divorce. He declared:

"Bosh. Just another one of those things that have no foundation."

Mercury Nose-Dives To 45, City Shivers

Pittsburgh shivered today as the mercury dipped to 45, equal to the low record for this date established in 1875. The low mark was recorded at 6 and 7 a. m.

Marie and Ileana Menaced by Mob Of Austrian Nazis

MOEDLING, Austria, June 14.—(INS.)—Shouting "Hail Hitler! Down with the Hapsburgs!" a mob of Austrian Nazis menaced Dowager Queen Marie of Rumania, Princess Ileana and her husband, Archduke Anton, at his villa today.

The Nazis, numbering hundreds, marched here during the night from Vienna to stage their demonstration, which capped three days of violence throughout the nation.

Military police with fixed bayonets charged the Nazis, dispersing them. Many were arrested.

PICTURE ON PAGE 2

Horace Taft, Long Dry, Out for Repeal

HARTFORD, Conn., June 14.—(AP.)—Horace D. Taft, brother of the late President Taft and for years a supporter of prohibition, in a letter made public last night urged Connecticut to vote for ratification of the repeal.

The head of the Taft School wrote that he had become convinced he was mistaken in supporting prohibition.

Urge 'Radio Priest' As Parley Adviser

WASHINGTON, June 14.—(INS.)—President Roosevelt today was urged by a large number of members of Congress to appoint the Rev. Charles E. Coughlan, the "radio priest" of Detroit, as an adviser to the American delegation at the current London Economic Conference.

Seventy-five House members and 10 Senators have thus far signed a petition asking the appointment.

REPEALISTS WIN 4 TO 1 IN MASS.

BOSTON, June 14.—(AP.)—Massahusetts stood in the repeal column today—the eleventh consecutive state to go on record in favor of repeal of the Eighteenth Amendment.

It was a sweeping victory, with the repealists piling up a margin of 4 to 1 in the state at large and a ratio of 10 to 1 in Boston.

Three pledged delegates were chosen from each of the 15 Massachusetts Congressional districts at yesterday's election. The vote cast for the repeal-pledged delegates totaled 441,195. Those pledged to vote retention of the prohibition amendment polled 98,884 votes.

Not a single "dry" delegate was elected to the constitutional convention which will act on repeal of prohibition in the near future.

Joseph B. Ely today summoned the constitutional convention to ratify the proposed new amendment to the federal constitution to replace the Eighteenth Amendment for Monday, June 26.

Sledge Hammer, Jazz Band Fail To Oust Tenant

A jazz band played until 2 a. m. for the sole purpose of driving a mother and son from their apartment, and when that failed, a sledge hammer wielder was employed, the woman and her son testified in North Side Police Court today.

George Leininger, 45, of 2005 Straubs lane, was fined $10 or 10 in jail for swinging the sledge for an hour in the apartment above that of Mrs. Louise Sylvan, 48, and her son, Fred, 27.

Leininger testified he was employed by Samuel Donaldson, one of the apartment owners.

Donaldson paid the man's fine. He said the Sylvans were in arrears in their rent, and he had been unable to persuade them to move from the apartment in North Lincoln avenue.

The Sylvans said they had no money.

Senate Moves For Showdown On Vets' Issue

BULLETIN.

WASHINGTON, June 14.—(AP.)—The Senate today adouted an administration perfecting amendment to the House veterans' compromise to take care of Spanish-American War veterans over 55 years of age.

WASHINGTON, June 14.—(AP.)—A motion that the Senate accept the House-administration veterans' relief compromise with an amendment providing for pensions for Spanish-American War veterans as proposed by President Roosevelt was put before the Senate today by Senator Byrnes (Dem.), of South Carolina, an administration spokesman.

Byrnes' motion brought to a clear-cut issue the impending fight between the President and the Senate over liberalizing the effects of the economy law's reductions in benefits to former soldiers.

MONTHLY PENSION

As presented by Byrnes, the amendment to the House administration compromise would provide that Spanish-American War veterans 55 years or older, or 50 per cent disabled, should be paid a pension of at least $15 a month.

This would, in substance, pro-

(Continued on Page Two, Col. Four.)

FIGHT ON DEBTS TIES CONGRESS

WASHINGTON, June 14.—(INS.)—The fight to prevent adjournment of Congress while a European bloc of nations is seeking debt cancellation of reduction at London, spread to the House today.

Representative McFadden (Rep.), of Pennsylvania, declared it was the "duty" of Congress to remain in session.

McFadden said:

"Congress should remain in session while this conference is dealing with debts and economics. It is the most serious condition the people of the United States have ever faced. There is no demand for adjournment except from the administration."

McFadden assailed some of the American advisers, including Prof. O. W. Sprague, treasury consultant, and James P. Warburg. The latter he declared, is "A 100 per cent cancelationaist." He added:

"It was for the purpos of dealing with debts that this conference was called."

Representative Byrns, of Tennessee, Democratic leader, interrupted to say that President Roosevelt yesterday called attention to the fact that only Congress can change the debt settlement.

Shots Fly as Bandits Flee With Circus Cash

PHILADELPHIA, June 14.—(AP.)—Three robbers today invaded the quarters of the Hagenbeck-Wallace Circus, forced from an automobile three employes going to a bank, and escaped with more than $5,000.

Leaping from behind a car in the Pennsylvania Railroad yard in Upper Darby, they disarmed the three circus men, drove their automobile to the dead end of a lane and then roared back through the gathering crowd of circus employes.

Robbers and circus hands exchanged shots, but apparently no one was hit. The automobile later was found abandoned.

The circus men, Walter Rairden, George Cutshaw and Gerald Mooney, said they had no opportunity to draw their own pistols.

Vanishing into the heavy traffic on the West Chester pike, the robbers were last seen entering Philadelphia.

KDKA Baby Blimp Runs Away From Home

KDKA is looking for a baby blimp, according to officials.

Yesterday morning, the small gas bag, carrying an antenna for experiments being conducted at the Saxonburg station, broke loose from its moorings.

When last seen it was headed in a south-easterly direction. Low clouds prevented attendants from following its flight.

The blimp is painted a bright silver with KDKA painted on it in blue letters.

'NEW DEAL' IN BANKING LOOMS AS REFORM TAKES SHAPE

GLASS PROGRAM MAY ALTER U. S. FINANCE

Roosevelt Signature Pledged; Curb Put On Private Banks

WASHINGTON, June 14.—(AP.)—Radical revision of the country's banking methods after years of agitation to correct conditions leading to bank failures and contributing to financial booms and crashes, will begin to take shape immediately.

Senator Carter Glass' bank reform act, possibly the greatest piece of permanent legislation enacted by any recent Congress, is today becoming law. President Roosevelt's signature had been promised, and he had called it "the best piece of banking legislation since the reserve board act."

In the flurry of getting the act through Congress, its main provisions has been obscured by the one insuring people's checking and savings deposits, but its far-reaching arms may alter the course of American finance.

HITS PRIVATE BANKS

Under it, private banks such as the recently investigated J. P. Morgan & Co., will have to quit taking deposits or stop floating securities.

All national banks must separate themselves completely within one year from their securities corporations. Among the best-known are such as the National City Bank, of New York, and its National City Company, which figured extensively in Senate investigation, but hundreds of banks all over the country have such affiliates.

The Federal Reserve System, greatest single channel for massing credit, is now given the power to shut off this stream of money from members lending it to assist market speculation. That will keep the public's billions from being lent to brokers for financing margin operations in a booming market.

The Reserve Board is given the power to remove from its member banks, no matter where or how small, officials whose policies are illegal or even regarded as "unsound."

CHECKS INTEREST

The practice, fostered by sharp competition, of paying interest on checking accounts is stopped. Reserve member banks may no longer make loans to their officers. National banks may operate branches in states which permit their own banks to do so, reducing an advantage held by non-national institutions and allowing branch-maintaining institutions to enter the national fold.

Again curbing the power of the private bankers, directors or partners of these must get off the boards of all commercial banks. Only the other day it was shown that the Morgan firm's partners alone were directors in 15 banks with total assets just under four billion dollars.

The deposit insurance provision will protect customers of all banks deemed sound, from January, 1934, until 1936. After that only reserve member banks will have the privilege, a provision that is expected to bring state banks generally into the closely regulated system.

Prof. Piccard Sails; 'Going to See Fair'

HAVRE, France, June 14.—(INS.)—Prof. Auguste Piccard, Swiss scientist famed for his stratosphere ascensions, departed for the United States today aboard the Champlain. He said:

"I am going to see the Chicago Fair. I do not contemplate any balloon ascensions in the near future."

Pittsburghers Lose Income Tax Appeal

WASHINGTON, June 14.—(AP.)—The board of tax appeals yesterday upheld the commissioner of internal revenue in his contention that Mary E. W. S. Horner and Vaughan Horner of Pittsburgh were deficient by about $12,000 in their 1927 income tax. The case involved stock sales.

Coal Workers Split Over Union Tieups

WASHINGTON, Pa., June 14.—(AP.)—Three hundred and fifty employes of the Lincoln Gas Coal Company, of Lincoln Hills, are divided whether to join a "company union" or the United Mine Workers.

Going Out After It! -:- -:- By QUIN HALL

RICH BABY PIVOT FOR LEGAL FIGHT

DALLAS, Tex., June 14.—(AP.)—The guardianship of Hugh Bradford Jenkins, "million dollar baby," grandson of the late Mayor T. L. Bradford, of Dallas, will be brought before the District Federal Court here tomorrow for determination.

The Aetna Life Insurance Company filed suit against Leonard Bradford, Dallas, the boy's uncle, appointed legal guardian in Texas, and his father, Hugh Johnston Jenkins, Louisville, Ky., appointed legal guardian in Kentucky, to prevent either suing for collection of a $10,000 policy taken out by Mayor Bradford in favor of his grandson.

The money has been placed in the registry of the court pending outcome of the suit.

Mayor Bradford was guardian of the boy until his death.

PAROLE MOTHER ON RUM CHARGE

Mrs. Goldie Lerner, 45, of 2135 Wylie avenue, arraigned in Federal Court on a liquor charge today for the fourth time, was given a suspended jail sentence of one year, paroled for 18 months and fined $200.

She pleaded guilty to selling whisky last October. Her counsel, asking leniency, told Judge R. M. Gibson she was the mother of 14 children, nine of whom are dead. Judge Gibson warned her that further violations would send her to jail.

Grove City College Gives Rainey Degree

WASHINGTON, June 14.—(AP.)—Speaker Rainey has changed his plans about going to his home at Carrollton, Ill., and is expected to return to Washington late today, to be here for the remainder of the extra session.

Word was received at his office today that he had stopped at Grove City, Pa., to receive an honorary degree from Grove City College, and that he would return to Washington.

Mitchell Trial Witness Accused by Attorney

NEW YORK, June 14.—(AP.)—U. S. Attorney George Z. Medalie today accused Hugh B. Baker, former president of the National City Company, of trying to make his testimony conform to that of Charles E. Mitchell, on trial charged with income tax evasion.

Cross-examining Baker, a defense witness, Medalie asked him if it was not true that Mitchell had outlined to him in advance an action whereby the directors of the company on December 30, 1929, passed a resolution stating that $1,860,000 paid from a management fund to 11 officers in July, that year, was an advance to be paid back by them out of future earnings of the fund.

Baker said he could not remember whether it was Mitchell who out-lined the plan to him.

Reading from a stenographic report of Baker's before-trial examination by Thomas E. Dewey, assistant Federal attorney, Medalie indicated that Baker in his reply at that time had said definitely that Mitchell outlined the plan to him.

As he continued to press Baker for a more definite answer, Max D. Steuer, defense attorney, objected. Medalie said:

"The government contends that this witness is trying as far as he can to make his present testimony conform with the statements made by the defendant when he was a witness."

Apparently unruffled, Baker insisted that, although the transcript had quoted him as replying "yes" when asked by Dewey if Mitchell had outlined the plan to him, he was not now certain whether it was Mitchell or some one else.

PRINCE HIT HER, SINGER SAYS

LOS ANGELES, June 14.—(AP.)—The princely house of Mdivani has run afoul of marital difficulties for the second time in five days.

Prince David Mdivani, of tiny Georgia, now a part of the Russian Soviet Republic, was sued Friday for divorce by Mae Murray, petulant-lipped film actress.

Today his brother, Serge, was scheduled to be made defendant in a suit for separate maintenance by Mary McCormic, the opera singer. Her attorney announced last night that papers for the action had been prepared for presentation in Superior Court.

Miss McCormic charges cruelty; Miss Murray, unreasonable jealousy.

Among the opera singer's allegations, said the attorney, is one that last October Prince Serge struck her with his fist and blackened one of her eyes. Another charges that he locked her in her room to prevent her from keeping social engagements.

Heiress to Marry Alexis on June 21

PARIS, June 14.—(INS.)—Miss Barbara Hutton, American heiress, informed International News Service this afternoon that the civil ceremony uniting her in marriage with Prince Alexis Mdivani will be performed one week from today.

The church ceremony will follow on June 22.

Justice Cardozo Lauds 'Brain Trust'

CHICAGO, June 14.—(INS.)—The professoriat, or "brain trust," which President Roosevelt has enlisted at Washington has the commendation of Associate Justice Benjamin N. Cardozo, of the United States Supreme Court. He said in addressing the University of Chicago alumni last night:

"The professors have come into their own."

He did not mention the professoriat directly, however.

French Speed Pilots Sail for New York

HAVRE, France, June 14.—(AP.)—Paul Codos and Aime Rossi, French speed pilots, sailed for New York today aboard the Champlain with an airplane in which they plan to make a distance flight from Detroit to Europe. They hope to set a new straight line distance record.

Vet Post to Seek Record at Camp

The Trees-Carlisle Post No. 166, Veterans of Foreign Wars, plans the largest Western Pennsylvania delegation at the encampment of the Pennsylvania Department, according to D. W. Blakeslee, publicity director. The encampment opens in Allentown Thursday.

SENATORS FOR VET SHOWDOWN

(Continued From Page One.)

vide by law the promise contained in a letter from President Roosevelt to the House Democratic steering committee to take care of this class of veterans by regulation.

Immediately as Byrnes made his motion, Senator Steiwer (Rep.), of Oregon, co-author with Senator Cutting (Rep.), of New Mexico, of a substitute for the House-administration compromise, gave notice he would seek to have the substitute adopted.

After a parliamentary tangle over precedence of amendments, the chair ruled Byrnes' new proposal should be voted on first to perfect the House compromise and then a vote on the Cutting-Steiwer substitute would be in order.

CLEAR-CUT ISSUE

This would make a clear-cut issue between the new compromise and the substitute provided the perfecting amendment was agreed to.

Administration forces were hopeful that by the specific provision for Spanish-American War veterans, they could take away from the CuttinfiSteiwer substitute sufficient votes to beat it.

Otherwise they were inclined to concede that a stiff and doubtful fight was in store, with prospects of the substitute winning senatorial approval and forcing a deadlock with the House and Chief Executive.

President Roosevelt has advised his leaders he would veto a veterans' relief provision more liberal than the House compromise, estimated to cost about $100,000,000.

Estimates of the cost of the Steiwer-Cutting substitute ranged from $120,000,000 to $140,000,000.

'Carpet Bag' Rule For Hawaii Charged

WASHINGTON, June 14.—(INS.)—The Roosevelt administration was accused today by Senator Vandenberg Rep.), of Michigan, of attempting to set up "carpet bag rule" in Hawaii and the District of Columbia.

Opposing the House bill authorizing the President to appoint a governor of Hawaii from the United States mainland, Vandenberg asserted:

"This is an attempt to resurrect carpet-bag rule in the United States and inflict an external government on the Hawaiian people."

Vandenberg also criticized President Roosevelt's new banking program.

Pointing out that "this administration believes in unified command" in nearly everything, Vandenberg said President Roosevelt had neglected to bring about such command in the banking field. There, he added, it is needed more than anywhere else.

WASHINGTON, June 14.—(AP.)—The House today adopted a partial conference report on the $3,600,000,000 deficiency appropriation bill. It now goes to the Senate.

GRILL WITNESS IN CAVANAUGH TAX TRIAL

Ex-Assessor Backs 'Juggling' Charge Under Quiz

Through a severe grilling Fred A. Wolf, former tax assessor, maintained his allegations of assessment juggling in Homestead in cases against a group of politicians in Criminal Court today.

Counsel for the defense asked Wolf if he had any animosity against Burgess John Cavanaugh, who with C. J. McBride, former member of the Tax Revision Board; William Dee, subordinate assessor; Jesse Honse, president of Homestead Council; Martin Delaney, a councilman, and Port Eckles, a superintendent of Homestead schools, is on trial.

Despite objections by the state, Attorney Louis Little had Wolf say that Mrs. Cavanaugh, wife of the defendant, had him discharged from a job with a furniture company.

CHANGES TESTIMONY

During cross-examination, Wolf changed the date of the meeting in Homestead council chamber at which he said all defendants were present. He had fixed the date as July 28, 1931, in direct testimony and on cross-examination said it was July 29.

When asked if he would say that Supt. Eckles was present, he replied that all six were there. He brought out that assessments were raised and then reduced, claiming Cavanaugh's assessment was raised $500, and later reduced $1,000.

This afternoon W. F. Windhorst, county investigator, who made the information was to be the first witness.

JURY LOCKED UP

The jury was locked up last night by Judge W. Heber Dithrich, after charges of an alleged attempt to "fix" the jury had thrown the court into a turmoil. One juror, A. R. Sunberg, of Duquesne, originally selected, was challenged and another placed in his seat before the jury was sworn.

Wolf was on the witness stand all day yesterday, reccunting details of alleged changes made in the tax assessments at the direction of Cavanaugh and the others. Assistant District Attorney Earl R. Adair turned him over to Attorneys William H. Coleman and Louis Little for cross-examination late in the afternoon.

DENIES JOB OFFER

Wolf denied he had been offered his job back in the assessor's office if he would testify against Cavanaugh and McBride. He also denied there had been complaints against his as assessor because of changes in the assessments.

TRIAL DELAYED

Court adjourned for the day before cross-examination had developed far.

In the meantime, District Attorney Andrew T. Park let it be known that the trial of James E. Routley, former assistant chief clerk to the County Commissioners; C. C. Benz, John J. Gallagher, C. W. Doherty and Patrick J. Swift, charged with conspiracy to cheat the county by having their cars filled with county-purchased gasoline, would be delayed in starting until Adair finished prosecuting the Homestead case.

Adair was assigned by Park to try both cases.

LOAN AGENCIES SEPARATE

Separate agencies throughout the country and not the Home Loan Bank will handle the business of the Home Owners Loan Corporation, authorized in legislation signed by President Roosevelt. Ralph H. Richardson, executive vice president of the Home Loan Bank in Pittsburgh, explained today.

The Home Loan Bank will continue in its separate scope along lines of dealing with building and loan associations, savings banks and insurance companies, holders of mortgages on homes.

Illinois Appeals Lake Diversion Case

WASHINGTON, June 14.—(AP.)—Illinois, through Attorney General Otto Kerner, asked the Supreme Court today to reconsider its recent decision in the Lake Michigan diversion cases. The decision ordered Illinois to furnish such financial assistance as might be needed by the Chicago sanitary district in complying with the court's order.

Desertion Wins Woman Divorce

Mrs. Ruth A. Morgan, 22, of 309 Beltzhoover avenue, was granted a divorce today by Judge A. B. Reid from Chester M. Morgan, of East Burgess street, on the ground of desertion.

apparently like some others, not knowing when he is well off.

PROFESSOR EAGLETON, of New York University, wants "the right to declare war taken from nations." He would have "a community of countries" reserve to itself the right of war.

You might just as well suggest taking from dogs the right to bite. You must first change them from dogs to something different and first change nations of this era to collections of civilized human beings before you can end war.

FEDERAL AIDE HERE IN VOTE FRAUD QUIZ

Justice Department Expert, Prosecutor Hold Parley

A government representative from Washington conferred today with prosecutors in the special grand jury investigation of election fraud charges involving two seats in Congress.

Harry Barger, attorney in the Department of Justice, who is said to be an expert in drawing indictments, held a conference with Special Prosecutor Earl F. Reed and Assistant U. S. Attorney James I. Marsh.

Barger said he expected to be here only one day, but it was believed he would return later. There was no inkling of what the conferees discussed.

There was reliable reports that efforts had been made to "coach" witnesses subpenaed to appear before the grand jury. The reports had it that certain persons would be brought in for questioning concerning the alleged "coaching."

Witnesses from the Second District, Third Ward, appeared before the grand jury today. The district ballot box also was produced for examination.

The inquiry involves the election of congressmen in the Thirteenth and Thirty-second Congressional districts. Mrs. Anne E. Felix, Democrat, is contesting the election of Michael J. Muldowney, Republican, in the latter district. Twing Brooks, Democrat, defeated Edmund F Erk, Republican, in the Thirtieth.

KIDNAPING LAID TO SUITOR

Claiming she was kidnaped and beaten by her sweetheart and another man, Josephine Young, 23, of 715 Moravian way, testified in North Side Police Court today against the two men. The girl said she was taken out in the country at the point of a gun, beaten, and returned to the home of a friend.

Joseph Barone, 27, of 1620 Fifth avenue, the sweetheart, and Dan Balik, 26, New Alexandria, Pa., told Magistrate Raymond E. Schneider the girl was beaten because she stole $25 from Balik. All three were held over for further investigation.

Police said they found more than 80 pints of liquor in the girl's apartment. She testified it belonged to Barone.

RAILS TO SEEK NEW PAY CUT

NEW YORK, June 14.—(AP.)—Dow, Jones & Co. said today that the railroads had decided to seek an additional 12½ per cent wage cut and that notices to this effect would be sent tomorrow to the four principal railway brotherhoods.

The proposed cut would be additional to the 10 per cent reduction from the basic rates under which the railway empioyes are now working.

The four leading brotherhoods are the engineers, firemen, trainmen and conductors.

It is expected that notices of the reduction will be sent to other groups later.

CLEVELAND, June 14.—(AP.)—David B. Robertson, president of the Brotherhood of Locomotive Firemen and Enginemen, today said any further wage reduction by the railroads "cannot be justified" and that his Brotherhood would "decline to grant" any further decrease.

20,000 Workers Get 10 Pct. Increase

AKRON, O., June 14.—(AP.)—A 10 per cent wage increase for 20,000 persons—from office boys to executives—was announced by the Goodyear Tire and Rubber Company today.

General Tire and Rubber Company employes will receive a 10 per cent increase in pay effective June 15, it was announced today by C. J. Jahnt, vice president.

Wellsburg Votes For Sunday Movies

WELLSBURG, W. Va., June 14.—Sunday movies were approved and Republicans elected to every office in a city election held here yesterday.

C. F. McClumphy was elected to his fourth term of mayor; Bernie Hahn, chief of police, and Walter Lewis, collector and treasurer.

East End Woman Set Afire at Stove

Leaping into bed, Mrs. Mary Van Drew, 77, of 709 College avenue, East End, smothered flames that enveloped her today, but too late to prevent serious burns. She was taken to the Homeopathic Hospital.

Mrs. Van Drew's clothing caught fire at an open stove, police said.

Menaced by Nazis

PRINCESS ILEANA

Rumania's Princess Ileana, the wife of the Archduke Anton, of Habsburg, with her husband and mother, Dowager Queen Marie, of Rumania, menaced by a Nazi mob at the Archduke's villa at Moedling, Austria.

AKRON PROBERS WARN NAVY

WASHINGTON, June 14.—(AP.)—The Akron Congressional investigating committee plans to supplement its original report on the airship disaster to "warn" the Navy against following its "same mistaken policy" with the U. S. S. Macon regarding commanding personnel.

The supplemental matter is expected to be added to the original report, and the full report is to be introduced in both houses late today.

Meanwhile, Senator King (Dem.), of Utah, was putting the finishing touches to a minority report in which he concurs in part and disagrees in part with the findings of the eight of the 10 members of the committee. King said:

"I'm going to file a minority report to show its folly."

MACON SAFE; SOARING HOME

AKRON, O., June 14.—(INS.)—Assurance that the U. S. S. Macon was flying without difficulty on her 48-hour endurance test hop was received here today in a wireless message to Rear Admiral George Day, chief of the Naval Board of Inspection and Survey.

The message, which indicated that reports of a damaged rudder were groundless, said:

"Flight very successful to date."

DETROIT, June 14.—(AP.)—The dirigible Macon, homeward bound for her hangar at Akron, O., after a 48-hour training cruise, passed over Detroit this afternoon.

Firemen at Fete, Blaze Sweeps Town

McPHERSON, Kan., June 14.—(AP.)—Fire which broke out while only two firemen were in the city was controlled early today after it had swept a section of the Main street business district and destroyed or damaged nine buildings.

The damage was estimated by insurance men at between $300,000 and $400,000. Absent members of the fire department were at Wichita attending a firemen's convention.

Roosevelt Gets LL.D. From Catholic 'U'

WASHINGTON, June 14.—(AP.)—President Roosevelt motored out to Catholic University today to receive a doctor of laws degree at the annual commencement exercises.

Cardinal Hayes of New York delivered the commencement address. Archbishop Curley of Baltimore spoke a greeting to the President.

MONACA CLUB 'FIXER' PROVES CONSTABLE

Informant Went With Officer to Homes Of Jurors

(Continued From Page One.)

prospective jurors who might have been called to try the Three Toms—Tom Coyne, brother of Senator James J. Coyne; Tom (Goose) Goslin, South Side figure, and Tom Dolan, all accused as proprietors of the Monaca Club, which operated in Oakland until Judge Frank P. Patterson called in the State Police.

This trial, scheduled for today, was postponed until Tuesday by Judge Samuel H. Gardner on the plea of defense counsel that "inflammatory newspaper articles" would prevent a fair trial. The District Attorney agreed to the postponement and Judge Gardner said any more such articles would be basis for an indefinite postponement.

Springert said that the visits to the home of not two, as previously reported, but three jurors in Ohio Township was made last Sunday in "Brown's" car. The iceman continued:

"We went to Frank Ward's home and talked with Bill Ward, his brother, and 'Brown' said he was going to fix me up with a good job this winter."

Springert said "Brown" had mentioned several times to him that he was "for Cohen," as Springert pronounced it.

The home of Mrs. Herman Schuler, Sr., off Lowrie Run road, also was visited.

Then the home of a "Mrs. Sheffel" on the Mt. Nebo road. Mrs. "Sheffel" had been called for jury duty, but an injury prevented her probable appearance, Springert said. At this home "Brown" talked with her brother-in-law, Bill Winter, Springert added.

AGREE ON STORIES

Both Springert and the Schuler family agreed substantially on the account of "Brown's" visit there.

Springert said that when they reached the home only Herman Schuler, Sr., was present, the rest of the family being at church. "Brown" talked with the elder Schuler, who is a basketmaker.

Leaving the farm, they met Mrs. Herman Schuler, Sr., who had been called for jury duty; her son, and her daughter-in-law.

Mrs. Schuler, Jr., a county committeewoman, told the story of the visit today:

"Their car was blocking the road so this neighbor (Springert) got out and introduced this man called Brown, although I don't believe that's his right name.

"This neighbor mentioned the case coming up next week in court and he said they would take care of us for a good job or any favors. I said to him, 'Oh, yeah? Are they taking care of you?' And he said, yes.

"When we got to our house we found out they had been to see my father-in-law and I didn't know till then they meant the Monaca case."

Mrs. Schuler said District Attorney Park had questioned her yesterday at her home. Springert, who lives within a few hundred yards of the Schulers, said he had not been visited or questioned.

THE WEATHER

Local Forecast.

Fair and continued cool tonight. Thursday, fair and warmer. Lowest temperature tonight between 45 and 50 degrees.

City Ready to 'Evict' Saddle Horses at Oval

Five saddle horses are to be evicted before July 1 from the city-owned stables on Schenley Oval.

The stables, rented to the Schenley Matinee Club by the city, are to be limited to housing only trotting horses which take part in the matinees on the Oval.

David G. McDonald, superintendent of city horses, expects to get the order from the city law department within a few days. The action follows a threatened injunction by O. W. McLain, owner of the Oakland Riding Academy, who maintains that a horse hostelry on city-owned property competes unfairly with his business.

It was explained at the stables on the Oval that three of the saddle horses kept there are owned by C. F. Arrott, one by Eugene De Lucia and A. J. Pascoe.

James Berry, employe at the stables said:

"The saddle horses are kept there by members of the Matinee Club, and the owners pay their way."

SLEUTHS SEEK SECRETS IN DIARY OF SLAIN STANFORD WIFE

NOVELIST FINDS FRIENDS LOYAL TO LAMSON

Innocence and Guilt Debated as Police Pile Up Evidence

(Editor's Note: Following is the second of a series dealing with the background of charges against David Lamson, handsome Stanford University Press executive, who will face a preliminary hearing tomorrow on the accusation that he murdered his pretty wife, Mrs. Allene Thorpe Lamson, in the bathtub of their campus home.)

By ELENORE MEHERIN
(Author of "Chickie" and Other Popular Novels.)
International News Service.

JAN JOSE, Cal., June 14.—Hhe was out there raking the bonfire, a smile on his face. The sun beat down on his bare, sinewy back. The neighbors thought:

"What a fine, gallant fellow David Lamson is!"

They were glad he was cleaning up all that tangle of weeds.

Now and then he glanced at the roses climbing over his gay little house. There it nestled in the cloistered street among the homes of professors and students. They are nearly all old, quiet places settled in deep, homey gardens. They exhale repose with their perfume.

WAVES TO NEIGHBOR

Here, that lilting May morning two weeks ago, in the gaze of any one who looked, worked David Lamson. He waved to a neighbor. He sauntered to the fence and resting on his elbows, chatted with a friend.

All this while did David Lamson know what the sunny walls of his home were hiding?

Perhaps David Lamson has told the simple truth. Perhaps he was in the garden from 6 until 9 and never dreamed that a frightful end had come to his lovely wife until he passed the bathroom and saw that crimson pool of blood; saw that white, lifeless hand dangling over the tub and all her long glorious hair falling in confusion.

Certainly some of the details cited against him can be explained. For instance—his bathrobe is blood-stained; his slippers were found near the tub. But is it so incredible that Allene Lamson herself may have worn them? It is a common enough incident among wives.

The blood on the french doors and in the yard could have been tracked there by the distracted neighbors.

And very easily could a man, maddened by the sight of his wife lying dead and her blood everywhere, lose thought of himself and clasp her body to him. He would not stop to think that the spattering might count against him.

There are always strange circumstances that menace the innocent. In the beginning, when the terrible crime smote Stanford speechless with shock, no one would believe that David Lamson might be charged as a murderer. It simply could not be—this fine, delightful fellow—beloved on the campus, honored member of half a dozen scholastic and honor fraternities, loyal friend, devoted husband, happy father.

MRS. HOOVER A FRIEND

Why, look at his friends! Mrs. Herbert Hoover, wife of the former President, designed his house. Ray Lyman Wilbur, president of the university, and Mrs. Wilbur attended his pretty wedding. Everyone liked and everyone trusted him.

As well accuse your own brother of the brutal crime. Dave Lamson could not have done the fearful thing.

He is in jail now. In a few days he will appear in court to answer for the death of his young, attractive wife.

She is in her coffin, robed in her wedding silks.

The defense asserts:

"His story is entirely convincing. No one can doubt it."

The prosecution says:

"We have a perfect case against him."

They have delved deep into Allene Lamson's life. They have opened her books, read her diary, rifled her belongings. They look for a motive. All the little sacred things that, living, she would have kept within herself, have been revealed.

But there is no X-ray that can photograph the mind of David Lamson for its truth. He sits alone and silent in that torture chamber, where the insupportable memories weigh. Guilty or innocent, how terrible must be their load—the recurring sound of her voice—the flutter of her hand.

He hasn't broken under it. Does this mean innocence? Or is it the insensibility of guilt?

Sills' Widow Weds N. Y. Broker Today

LOS ANGELES, June 14.—(AP.) Doris Kenyon, stage and screen actress and widow of Milton Sills, film actor, will become the bride this afternoon of Arthur Hopkins, New York real estate broker.

The ceremony will be performed by the Rev. Ernest Holmes, dean of the Institute of Religious Science, in the garden of Miss Kenyon's Brentwood home.

Dwellings Crack As Ground Settles

Settling of the ground under homes in Richfield street, Overbrook Terrace, has caused large cracks in several dwellings and in gardens, according to residents of the district. An abandoned coal mine is located under the properties.

Veterans of America's Wars on Parade Downtown Today to Honor the Boys of '63

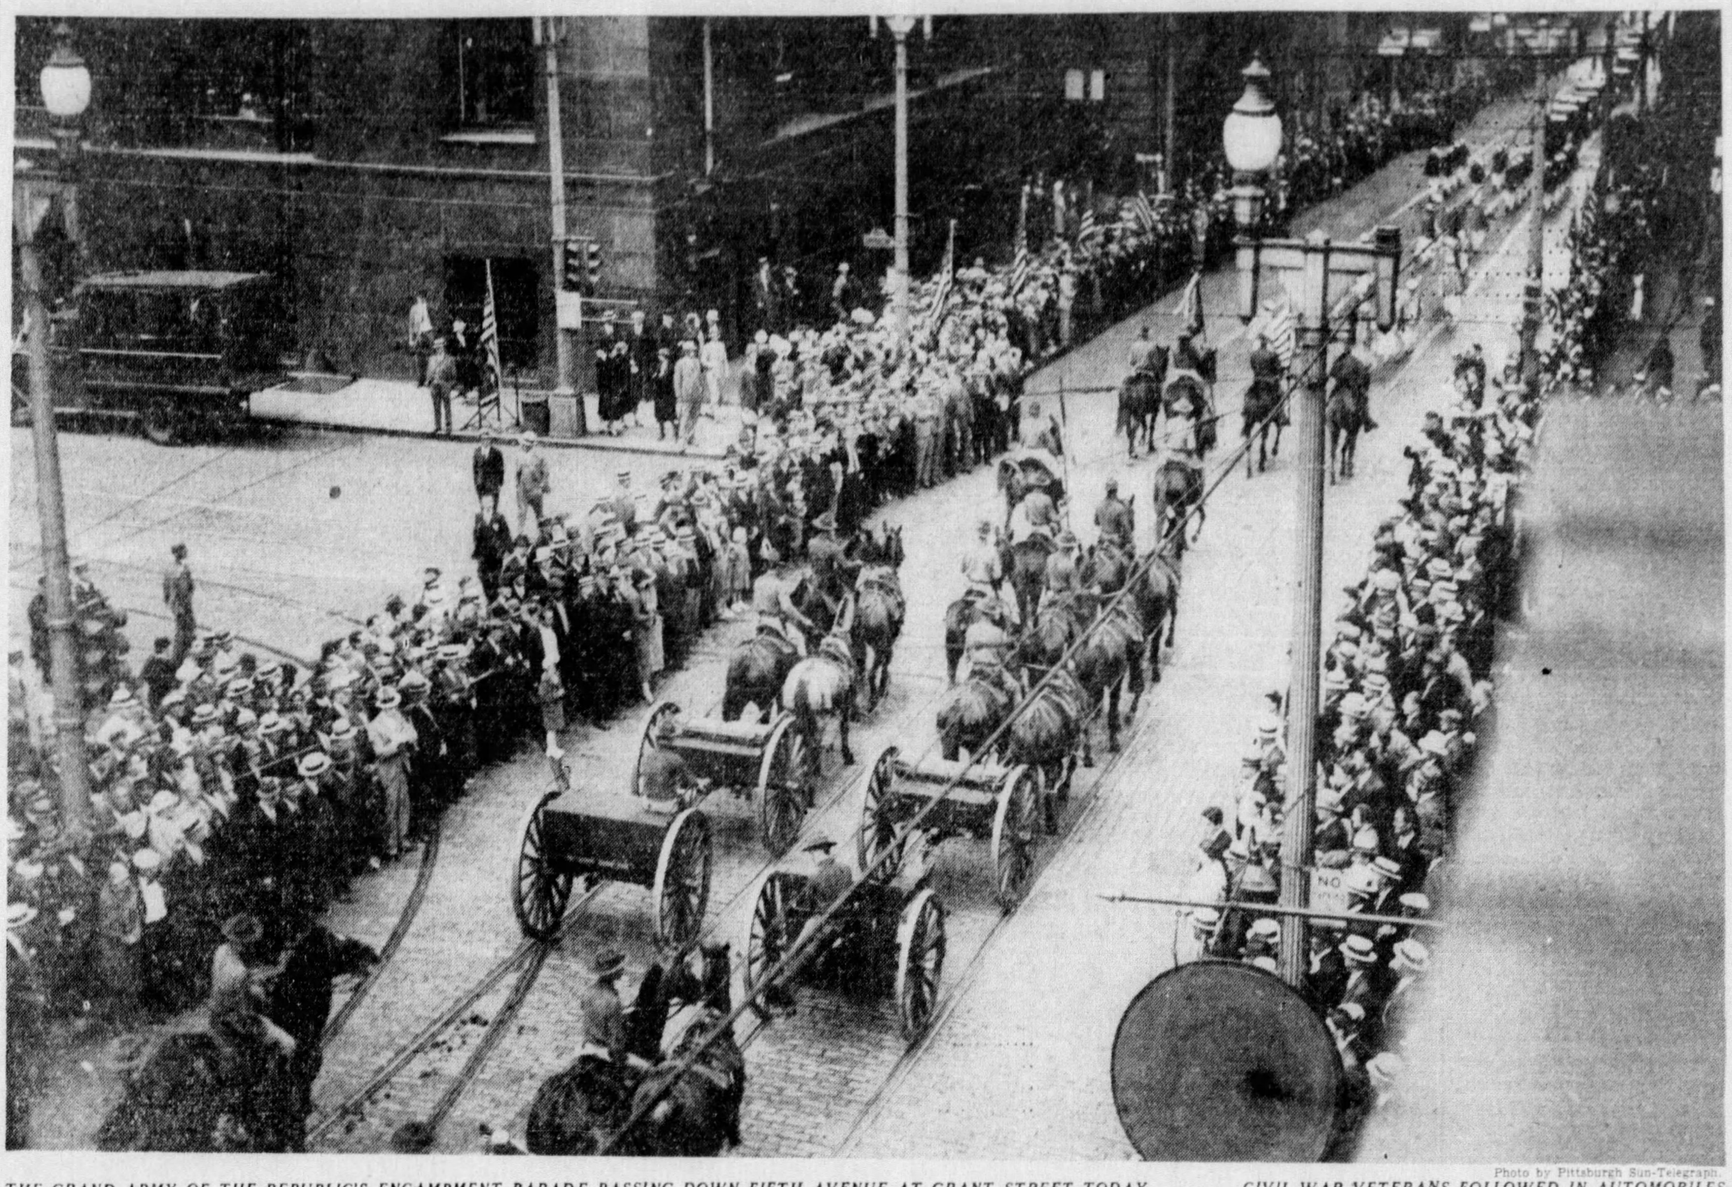

Photo by Pittsburgh Sun-Telegraph.

THE GRAND ARMY OF THE REPUBLIC'S ENCAMPMENT PARADE PASSING DOWN FIFTH AVENUE AT GRANT STREET TODAY .....CIVIL WAR VETERANS FOLLOWED IN AUTOMOBILES

BOYS IN BLUE PARADE HERE

The Boys in Blue were on parade again today.

As a tribute to the memory of the flag and to those who laid down their lives in '61, almost 100 veterans featured their sixty-seventh annual state encampment here with a march through the downtown section.

Forming at the Courthouse, the procession traversed Fifth avenue to Liberty and thence to Second avenue, where it disbanded.

Groups of men and women affiliated with the G. A. R. also paraded.

Mayor John S. Herron officially welcomed the G. A. R. to the city. The annual campfire was scheduled for tonight at Memorial Hall.

BRISBANE GOES ON AIR JUNE 25

NEW YORK, June 14.—(Universal)—Arthur Brisbane, nationally famous editorial writer of the Hearst newspapers, will succeed Will Rogers on a sponsored program over WJZ'S coast-to-coast network, with a series of weekly talks, beginning Sunday, June 25, at 9 p. m., the NBC announces.

Brisbane will pattern his radio talks after his newspaper articles. At each broadcast he will discuss the events of the current week informally, pointing out significant developments in national and world affairs and commenting upon them.

Though he has spoken on the radio on many special occasions, this is the first time he has been heard in a regular series over a national network.

Green Her Snare

MARY DORNE

Miss Dorne, actress-wife of Playwright Eugene Walter, revealed today as a police prisoner for 48 hours until she recovered her memory. During a lapse, police say, she indiscriminately gathered green objects in stores.

'Bluebeard', on Trial, Faces Firing Squad

SPEZIA, Italy, June 14.—(AP.)—Pleading guilty to murdering three women, Cesare Serviatti, known as the "Bluebeard of Italy," went on trial today in a packed court.

Several hundred police and soldiers guarded the courtroom inside and outside as a throng of people struggled to enter to witness a trial they are certain will send Serviatti to the firing squad.

Serviatti, who is 47 years old, sat in a cage to the right of the judges' bench. Alongside him on a wooden bench sat his wife, Angela, charged with complicity in his last murder.

Four well-known lawyers, Cassinelli, Bellincioni, Sotgiu and Toracco, sat near them for their defense. In accordance with Italian procedure, which permits the allegedly injured party in a criminal case to have special legal representation, two additional lawyers, Bianchi and Sotis, appeared for the families of two of the women, Pasqua Bartolini and Paolina Gorietti.

The family of Beatrice Margarucci, 50, who lived in Long Branch, N. J., for some year, also was represented by Sotis. Miss Margarucci left a brother living in New York.

The presiding judge opened the proceedings by reading the indictment against Serviatti and his wife. The indictment said that Serviatti lured his women victims into giving him their savings, and then killed them; that he cut up the bodies of two of his victims and threw the pieces into the Tiber at Rome. In the Gorietti case he distributed parts of the body in three suitcases which he sent from Pisa to Rome and Naples, the indictment charged.

'MISSING' WIFE IN LOCKUP

LOS ANGELES, June 14.—(AP.)—The story behind the disappearance of Mary Dorne, stage and screen actress, was revealed today by police who say she was in jail 48 hours on suspicion of grand theft, but was released after she recovered from a brief lapse of memory.

Miss Dorne, wife of Eugene Walter, playwright, disappeared from downtown Los Angeles Saturday afternoon. She failed to return home in the evening and Walter notified authorities.

She had been in ill health since she underwent a serious operation nearly a year ago.

Authorities say Miss Dorne possessed an uncontrollable desire to pick up anything green, a mental condition resulting from her serious illness. Department store detectives trailed her and took her to jail.

Sunday night she regained her mental faculties. She communicated with Walter, authorities said; the articles were restored to the stores and her release was ordered.

Man Shoots Sister Of Wife and Self

NEW YORK, June 14.—(INS.)—Mrs. Rose Manning, 32, of Laurelton, N. Y., was shot and killed in her home today by her brother-in-law, Arthur Bauer, of Philadelphia, who then shot himself in the head, according to police. Bauer died soon after being taken to the hospital.

Police said Bauer and his wife, Mrs. Manning's sister, had recently separated.

New Ocean Record Made by Bremen

CHERBOURG, France, June 14.—(AP.)—The steamship Bremen, of the North German Lloyd line, today claimed a new record for her recent New York-to-Cherbourg crossing of four days 17 hours 43 minutes, which beat her own previous best mark of four days and 19 hours.

Films Sign Up Baby, Chevalier Co-Star

HOLLYWOOD, Cal., June 14.—(AP.)—Paramount Studios have announced the signing to a seven-year contract of Leroy Weinbrunner, 1-year-old baby who shared honors with Maurice Chevalier in a recent movie.

BAR CONFESSION IN KIDNAPING

BARNSTABLE, Mass., June 14.—(AP.)—The defense in the trial of Kenneth Buck, charged with the kidnaping of Margaret (Peggy) McMath, gained its first advantage today when an alleged second confession was declared inadmissable as evidence.

Kenneth, who, authorities say, has made four confessions of the crime, apparently has decided to fight the case to the last ditch.

Five weeks ago he was a shaken man with bloodshot eyes who trembled when questioned, sobbed when he saw his friends. Later he became violent in his cell in the Barnstable County Jail and was taken to the Bridgewater Hospital for the Criminal Insane in a straightjacket.

Yesterday he sat, impassive, as District Attorney William Crosslet strode before a jury expounding on the "enormity" of the crime with which he is charged.

FINDS DEATH IN LEAP

AN ARTIST'S DRAWING OF MRS. BERTHA YOUNG, A SUICIDE

Comely Mrs. Young, just 26, who ended her first week out of a hospital with a death leap from the Manchester Bridge, Police were told she was despondent over finances and ill health, her husband's enforced idleness, her own lack of work. This is a Sun-Telegraph drawing.

Snow Babies Healthiest, Scientist Declares

MILWAUKEE, June 14.—(AP.)—The winter months are lucky months to be born, and this is the verdict of a scientist studying birth records, not a fortune-teller gazinfi into a crystal.

Children born in winter are healthiest apparently because their mothers receive the benefit of spring and summer sunshine while the babies are undergoing development before birth, Dr. Lee Bivings, of Atlanta, Ga., told the American Medical Association today.

He found that the birth rate for Negro infants born in Atlanta during 1930, 1931 and 1932 was higher during the winter season. He also found that babies born in 193[illegible] weighed more on the average than those of 1932, probably because there was more sunshine in 1931.

Along the same line he said that babies born in Los Angeles, St. Petersburg, Fla., and Atlanta weighed more than those in Iowa City, Ia., and New Haven, Conn., northern cities presumably with less sunshine.

SCAN SCRANTON 'SWEATSHOPS'

SHAMOKIN, Pa., June 14.—(AP.)—Its records bulging with data gleaned at a day and night session in Scranton, the special legislative committee investigating alleged sweatshop conditions in Pennsylvania moves into Shamokin today.

The committee heard complaints against at least 10 factories in the Scranton area yesterday, more than a dozen workers telling of being paid inadequate wages and of working under unfavorable conditions.

One employer, Sheldon Pell, of the Pell Di Mauro Company, pants manufacturers, reversing his previous statement, said his firm was in the habit of requiring beginners to work a week without pay.

He admitted that the company, a Pennsylvania corporation, has no paid-in capital. A strike has been in progress at the plant for more than two weeks.

In contrast to the general trend of the testimony, an inspector of the State Department of Labor, R. B. Carling, told the committee as many as half of the complaints investigated by the department were groundless.

Baltimore Doctor Heads Medical Men

MILWAUKEE, June 14.—(INS.)—Dr. Dean Lewis, of Baltimore, today assumed the duties of president of the American Medical Association.

At his installation last night Dr. Lewis traced the development and place of the clinic in medical practice, and warned against abandoning the present American system of medical treatment for a new and untried theory of handling the sick.

Man in Night Shirt Escapes Hospital

Search was being made today for Leo Gallagher, 32, of 405 Fifty-second street, who fled from the West Penn Hospital attired only in a night shirt.

Gallagher, booked at the Forty-third Street Police Station on a disorderly conduct charge, had been sent to the hospital for treatment to a head injury.

Girl Takes Poison Dies in Hospital

The death of Kathleen Davis, 22, of 317 East End avenue, from poison she swallowed last Sunday was reported to the Coroner today. She died this morning in Columbia Hospital.

BAD WEATHER DELAYS FLIGHTS

Associated Press.

Inclement weather today interfered with the progress and the beginning of two outstanding aviation exploits.

Twenty-four Italian seaplanes were delayed in their scheduled takeoff from Orbetello, Italy, for Chicago and intermediate points. The Air Ministry said they would leave as soon as the weather cleared.

Jimmie Mattern, American aviator on a solo flight around the world, returned to Khabarovsk, Siberia, eight hours after leaving that town for his trans-Pacific hop to Alaska.

Capt. J. Errol Boyd and two companions arrived at Fort au Prince, Haiti, from St. Marc, Haita, where they had been forced down on their good will nonstop journey from New York.

In Havana, the Spanish fliers, Capt. Mariano Barberan and Lieut. Joaquin Collar were planning to continue to Mexico City. They arrived in Cuba Sunday after a nonstop crossing from Spain.

Stricken Ill

VIVIAN DUNCAN

Miss Vivian, one of the Duncan isters, stricken with appendicitis, hurried to a New York hospital, thus interrupting here and Rosetta's rehearsal for a revival of their immortal "Topsy and Eva" at the World Fair.

'THE FLEA,' SPY FOR LINCOLN DIES AT 95

Once Stole War Plans From Under Nose Of Gen. Lee

CHICAGO, June 14.—(AP.)—The "Flea" is dead.

The "Flea" was Jason H. Edgerly, a New Englander, who furnished the action for a colorful bit of Civil War history in his role as the personal spy or "field reporter" for President Abraham Lincoln.

He died at his suburban home in Blue Island last night at the age of 95. The recent heat wave that enveloped the Midwest was held partly responsible for his death.

President Lincoln gave Edgerly his nickname of "The Flea" after he had stolen the Confederate army plans for the Willow Creek battle from under the nose of Gen. Robert E. Lee.

Secretary of State Seward was doubtful of the authenticity of Gen. Lee's signature on the plans but Lincoln introduced his spy and was quoted as saying:

"Did you ever try to put your fingers on a flea and find he wasn't there? That's the way with Edgerly; he got these plans and immediately he wasn there."

On one occasion Edgerly escorted President Lincoln on an inspection tour of the Union defenses. He said the President stood boldly on the fortifications when cannon shot fell near. He advised:

"Get down from these, Mr. Lincoln. They have your range."

Lincoln answered:

"Your life is as sweet to you as mine is to me."

Edgerly replied:

"Yes, but yours is more important."

Edgerly was born at Belknap Court, N. H., and once engaged in the shoe manufacturing business at Lynn, Mass. He became acquainted with Lincoln while the latter and Stephen A. Douglas stumped New England for the Presidency.

Broad-shouldered and more than six feet tall, he had a military carriage that first attracted Lincoln's attention. He was with the emancipator a few hours before he was assassinated.

After the war Edgerly went west—to Helena, Mont., Omaha, and Salt Lake City, where he engaged in the transfer business.

ABSOLVE CULT IN DEATHS

EL CENTRO, Cal., June 14.—(INS.)—Shir Singh Santhi, middle-aged Hindu, and his Mexican sweetheart, Amelia Valdez, perished as the result of a suicide pact, and were not killed by the Hindu murder ring that has claimed more than a score of lives in the state recently, Imperial County authorities asserted today.

Rodney Clarke, El Centro undersheriff, announced that it was his belief that the Hindu killed the girl and then himself and that there were no outside influences.

Santhi has lived at his ranch near Holtville, where the bodies were found, for more than a year, said Clarke.

A note was found with the bodies of the Hindu and the pretty young girl. It said that both were "tired of life."

MANVILLE HEIR GREETS CLAIRE

NEW YORK, June 14.—(AP.)—When Claire Windsor arrived from Chicago last night, Thomas F. Manville, Jr., heir to the asbestos millions, was at the station to meet her.

There was a hug and a kiss and then they dashed off together. The actress had nothing to say about the possibility of a wedding. Manville, who has been married three times, said only:

"I'll stand on my record, and you know I have a record for doing things very fast and snappy."

Lloyd Will Film Novel by Kelland

HOLLYWOOD, Cal., June 14.—(AP.)—Harold Lloyd, bespectacled screen comedian, announced today that for the first time in his career he will film a printed story. It is a novel by Clarence Budington Kelland, titled "Cat's Paw" and will be published in serial form in a magazine this summer.

Heretofore Lloyd and his staff have written and developed the stories in which he has been featured.

17 Bullets Fired Into House; 2 Held

WASHINGTON, Pa., June 14.—Accused of firing 17 shots into a Fredericktown home, Sam Dounaduci, 39, and Bruno Terrace, 35, of Fredericktown, are in jail charged with felonious shooting with intent to kill.

Altoona Dancer Saved from Lake

MINNEAPOLIS, June 14.—(AP.)—Miss Ruth Vernon, of Altoona, Pa., and Miss Holly Snipes, of Jacksonville, Fla., dancers with a show troupe were rescued by a life guard in Lake Calhoun yesterday.

ROOSEVELT MAY CALL PARLEY ON DEBTS

(Continued From Page One.)

(approximately $4,100,000), it was understood today.

ROOSEVELT REPLIES

WASHINGTON, June 14.—(AP.)—President Roosevelt's reply to the British war debt note was handed today to an official of the British Embassy.

The answer was prepared by State Department heads after acting Secretary Phillips had discussed the British offer of a partial payment with Mr. Roosevelt last night.

H. W. A. Freese-Pennefather called at the State Department and was given the communication by Phillips. Arrangements were made for simultaneous publication here and in London later in the day.

It was understood that in the response Mr. Roosevelt told Great Britain he could receive the offered part payment only with an explicit understanding that it was to be considered as an installment upon the full amount of $75,950,000 due tomorrow.

EXPECT 'SURPRISE'

Further, persons who believed they knew what the note contained, spoke most confidently of a surprise.

There was basis for a belief that, since Prime Minister MacDonald and spokesmen of other nations had brought the debts into the conference despite their exclusion from the official agenda, the President would express readiness to weigh the postponed payments against the conference's achievements on stabilization of currencies and lowering tariff walls.

This would require agreement on the two issues before the United States would consider any revision of the debts owed by the European powers.

Meanwhile, the President had to keep an eye on the Senate where the anti-cancellationists were taking advantage of the delay in adjournment to fire a few preliminary rounds.

Both Lewis (Dem.), of Illinois, and Robinson (Rep.), of Indiana, yesterday had urged recall of the American delegation from London if the other nations persist on forcing up the debt talk.

The British offer for part payment of tomorrow's installment was kept secret for publication simultaneously with the American reply. It was generally gathered, however, that the offer was for 10 per cent, or $7,500,000. Italy and Rumania intend to pay proportionately on their $13,500,000 and $1,000,000 obligations.

France May Reconsider Default, Pay 'Token'

LONDON, June 14.—(INS.)—Premier Edouard Daladier, who left for Paris early this afternoon without hearing Secretary of State Cordell Hull's speech, intends to consult French political leaders at once.

It was learned he left the conference here to see whether a change in the French attitude of default on foreign debt payments to the United States is not advisable in view of the British offer of partial payment of the sum due tomorrow.

Debt-Stabilization Deal Rumored in London

LONDON, June 14.—(INS.)—Rumors flooded the financial district today that President Roosevelt has demanded and received a definite concession from Britain on the currency stabilization question in exchange for acceptance of a small payment on the foreign debt due tomorrow.

While the rumors could not be confirmed in official sources, financial observers believed such a mutual exchange likely and spurred bear covering of the American dollar on exchange. As a result, the dollar gained 5 cents to the pound at the opening, touching $4.09 as against $4.14½ at yesterday's close.

Best available information indicated President Roosevelt had extracted some sort of assurance from the British to agree to stabilization of currency around $4 to the pound, which would represent a partial victory for the United States as England has long held out for a maximum of $3.75.

SPECULATORS CAUGHT

Speculators who have been selling short in the anticipation of a continued slump were caught heavily by the rise in the dollar and rushed to cover. Their concern was alleviated somewhat when an hour after the opening the dollar lost slightly to $4.10½.

The market is keenly sensitive to rumors. Operators characterize it the "strangest market ever seen in London," and hesitate to predict the future trend.

Financial commentators were intrigued by unconfirmed reports President Roosevelt has commissioned Prof O. M. W. Sprague, former adviser to the Bank of England, to manage the dollar in London and make suitable recommendations whenever necessary.

Since Prof. Sprague has an intimate knowledge of English methods, this would give Mr. Roosevelt a tremendous advantage in currency sparring.

$144,000,000 in Debts Due U. S. Tomorrow

WASHINGTON, June 14.—(AP.)—A total of $144,000,000 in war debts is due this country tomorrow. The amounts individual countries owe are:

	Principal.	Interest.
Great Britain		$75,950,000
France	$21,477,000	19,261,000
Italy	12,300,000	1,245,000
Belgium	4,200,000	2,125,000
Czechoslovakia	1,500,000	
Rumania	1,000,000	
Poland		3,559,000
Estonia		284,322
Finland		14,859
Hungary		28,260
Latvia		118,961
Lithuania	39,705	92,368
Jugoslavia	275,000	

The prospects for payment:

Great Britain and Italy have offered to make partial settlements, the English offer understood to be 10 per cent, or $7,500,000.

France is ready to default as she did on the December 15 payments.

Belgium definitely has decided to default. It also defaulted on December 15.

Rumania apparently will follow the lead of Great Britain and offer partial payment.

Poland, Czechoslovakia and Jugoslavia may follow France in defaulting.

In December Poland obtained a postponement on her payment of principal and defaulted on interest.

The position of the other countries is uncertain.

The total debt payments due for the year ending June 30 is about $268,000,000, of which $98,686,000 was received in December. Great Britain and Italy paid on schedule then, the English paying the bulk.

Merchant's Wife Ill, Leaps to Her Death

PHILADELPHIA, June 14.—(INS.)—Sending her nurse on an errand, Mrs. William A. Wells, 45, wife of a local merchant, leaped to her death today from the thirteenth floor of an apartment house, police reported. She had been ill for several months and only yesterday had returned from a hospital.

The body landed in the street directly in the path of a truck but the driver stopped the vehicle a few inches from the body.

Olive oil does wonders for your skin

—and it's olive oil that makes Palmolive green

WHEN the ancients sought protection for lovely skin, they found it in the natural oils of olive and palm. And in more than 3,000 years, nothing has ever been found to take their place.

It is these beauty oils that give to Palmolive Soap its blandness, its mild, gentle cleansing quality. No other fats go into Palmolive. Its rich lather searches the pores for impurities—and removes them thoroughly but in utter safety to delicate skin.

Palmolive soothes and stimulates, bringing to the skin that freshness, that natural bloom and radiance which makes a woman so appealing.

And it is now so inexpensive that it can be used liberally for bath as well as face . . . for the entire family.

The vial at the right shows the exact amount of olive oil we put into each cake

Over 20,000 experts advise this: Morning and evening: work a rich lather of Palmolive and warm water into the skin of face, throat and shoulders. Rinse—first with warm water, then with cold.

HULL IGNORES DEBT BATTLE, URGES TARIFF TRUCE, MONEY STABILIZATION

(Continued from Page One.)

which will be forthcoming to carry out the general program.

HULL FACES FOES

Hull was the last of the "big five" to address the conference France, Italy, Britain and Japan having preceded him because of delay in the preparation of his address. He faced an assemblage of delegates of whom some had bitterly assailed the American war debt and monetary policies.

The entire American delegation was present to hear their chief speak. Hull was given a tribute of applause by the crowded house as he took the rostrum after an introduction by Prime Minister Ramsay MacDonald. Hull said:

"The world cannot longer go on as it is going on at present. The first and greatest task at the present juncture is the development here in this hall of will and determination on the part of the nations vigorously to advocate this course. Thereafter plans and methods will readily take form."

Hull said he advocated a broad program which would steer a middle course between extreme economic internationalism and extreme economic nationalism.

WARNING TO POWERS

He warned that if any nation wrecked the great conference "with a short-sighted notion that some of its favorite local interests would temporarily profit while thus indefinitely delaying aid for the distress of every country, that nation will merit the execration of mankind."

He pleaded for banishment of "narrow and self-defeating selfishness." He declared:

"The whole panic-ridden world is looking to this conference for leadership."

Referring to depleted treasuries, unemployment and low prices, he said:

"I have absolute faith that the conference has complete ability, power and disposition to move the world, and this it will accomplish if it promulgates a program which, in conjunction with suitable domestic programs everywhere, will restore confidence, employment and full stable prosperity alike in every country."

When Hull ascended to the rostrum a hush fell over the great assemblage. He surveyed his audience and then put on his heavy eyeglasses, with long black cord attached.

As he read he paused between points and drove his arguments home with slight gestures of his extended hand and by giving emphasis with his voice.

M'DONALD FOLLOWS

Prime Minister MacDonald sat in the presidential chair with the printed speech of the Secretary of State before him. He followed every word closely from the manuscript.

Generous applause was given the dignified American Secretary as he concluded, bowed to the assembly and descended from the rostrum.

Twice Hull, apparently carried away with his subject, departed somewhat from his prepared text. The first instance came when he was insisting emphatically and with gestures that the conference develop a will for success.

The second time was when he mentioned the necessity for a permanent international standard of value with gold and silver. At that point he said:

"If I understand correctly that part of the able Chancellor's speech this morning, I am in accord with it."

(Chancellor of the Exchequer Neville Chamberlain of Great Britain was the principal speaker at the morning session.)

Chamberlain Renews Plea For Debt Settlement

By GEORGE R. HOLMES
International News Service.

LONDON, June 14.—Prime Minister J. Ramsay MacDonald's demand for settlement of the debt problem, which served to derail the World Economic Conference from its charted course on the opening day, was re-echoed this afternoon by Neville Chamberlain, chancellor of the exchequer.

Chamberlain said:

"Final settlement of reparations and war debts is not within the scope of this conference, but their final settlement is necessary if there is to be recovery elsewhere."

Chamberlain's speech was listened to with keen interest, as he has been delegated by his government to expound the latest Anglo-American debt settlement, believed to be on the Lausanne "dime-on-the-dollar" basis, before the House of Commons tonight.

The Chancellor received the biggest ovation of the conference when he took the rostrum to outline Britain's hopes and policies. He lengthily recited Britain's financial history since the war and told how London had endeavored to support European currencies but failed because of conditions in Central Europe.

Chamberlain admitted he took a "too hopeful view of things" during the post-war era. He said the real economic situation in recent years had been disguised by the flow of American capital to Europe, which was not compensated by the flow of goods to the United States. This, he said, was a reversal of the old practice of permitting a debtor to pay in goods.

Great Britain, the Chancellor declared, made every effort to maintain the gold standard, but said that, owing to conditions prevailing in 1931, "we were forced to abandon it."

The principal aim of the conference, he said, should be recovery of world prices.

GOLD STANDARD

Chamberlain advocated a return to some international standard of currency, adding that the gold standard was "most generally accepted as best."

The question of a general return to gold, he said, was simply a matter of time. The British delegation, according to the Chancellor, believes that international return to gold is dependent upon the following factors:

1—A rise in the general level of wholesale prices.

2—Ajusiment of factors which caused a breakdown in the gold standard, such as reparations, foreign debts and exchange restrictions.

3—Administration of the gold standard in such a manner as to prevent wide fluctuation in the price of gold.

Conference eagerly awaited adjournment of the American Congress so momentous announcement can be made of a foreign debt settlement on the Lausanne basis of a dime to a dollar.

Every London newspaper informed its readers this morning that Chancellor of the Exchequer Chamberlain was restrained from making the announcement last night only by the fact Congress is still sitting.

Nineteen nations have signified their adherence to the international tariff truce proposed by President Roosevelt, Prime Minister MacDonald told the conference today.

MacDonald urged that the remaining nations accept the truce by Saturday to permit official announcement of unanimous agreement.

Hull Speech Highlights

Associated Press.

Outstanding phrases from the speech of Secretary Hull today at the World Economic Conference in London:

The whole panic-ridden world is looking to this conference for leadership with a program of basic relief.

The success or failure of this conference will mean the success or failure of statesmanship everywhere.

If we are to succeed, narrow and self-defeating selfishness must be banished.

Has not the time come for governments to cease erecting trade barriers with their excesses, rank discriminations, and hate-breeding reprisals and relations?

This conference should proclaim that economic nationalism as imposed upon the various nations is a discredited policy.

The world can not longer go on as it is going at present. A successful meeting of this conference, in my judgment, is the key to widespread business recovery.

Let this conference, therefore, proceed to the herculean task of promoting and establishing economic peace, which is the fundamental basis of all peace.

RUSSIAN HINTS BUYING SPREE AT PARLEY

LONDON, June 14.—(AP.)—A proposal for a world pact of economic non-aggression, looking toward the abolition of all weapons of economic warfare, was made at the World Economic Conference today by Maxim Litvinoff, commissar for foreign affairs of Soviet Russia.

M. Litvinoff's proposal urged simultaneous suspension in all countries of all legislation or administrative measures of economic warfare. A Soviet resolution which will be submitted to the conference will contain a concrete measure to this effect.

'WILLING' TO BUY

Trade experts of many nations looked alert as M. Litvinoff reeled off a string of figures representing the amount of goods Soviet Russia is willing to buy abroad. But interest relaxed when he failed to suggest any change in Russian plans for obtaining credits in countries where the Soviet government would buy goods.

Litvinoff said that "lengthened credits, normal conditions for Soviet exports and other favorable conditions," were necessary. Then, he continued, the Soviet government would place orders abroad amounting to vast sums.

He declared that the U. S. S. R. could absorb in the near future $200,000,000 in ferrous metals, $100,000,000 in raw materials for the textile, leather and rubber industries, and $400,000,000 in machinery, including $100,000,000 in railroad equipment.

AGRICULTURAL GOODS

He estimated the needs of the country in agricultural goods at $35,000,000, including breed stock, and said the nation could use $50,000,000 in such commodities as tea, coffee, cocoa and herring and $50,000,000 in new ships.

The foreign commissar pointed out that these figures represented 25 to 66 per cent of the existing world stocks of some metals. He said that Russia could absorb the whole world's surplus of consumers' goods, a third of the world's output of machinery, and all of last year's output of ships.

Reppert Attending Pure Water Parley

Chief City Engineer Charles M. Repport is to represent the city in Cincinnati today in a conference of officials of the tri-state district on stream pollution.

PARLEY CHEERS DOLLFUSS, HITLER FOE

By EDWARD L. DEUSS
International News Service.

LONDON, June 14.—A crisis arising from German-Austrian antipathy was narrowly averted in the world economic conference today when Chancellor Engelbert Dollfuss, of Austria, received a tremendous ovation as he arose to address the delegates.

So hearty was the applause accorded the diminutive fighting chancellor, whose government is waging a bitter battle against Hitlerism, that conference officials feared the German delegates might take offense and walk out on the parley.

Despite these fears, which were particularly expressed by Prime Minister MacDonald, chairman of the conference, the Germans sat stolidly in their seats, scarcely seeming to hear or heed the storm of approbation for the Austrian representative.

So pleased was Dollfuss with his reception that he postponed his departure for Vienna until tomorrow. He had previously planned to rush back by plane immediately upon completion of his speech to deal with the grave political situation in his country.

Dollfuss was highly incensed when informed by telephone from Berlin of the arrest by German police of Dr. Alvin Wasserbaeck, press attache of the Austrian legation to the Reich.

Dollfuss was summoned from his bed early this morning to talk by telephone with Wasserbaeck, who said the Berlin police were outside his door, even as they spoke.

The Austrian Premier, whose government is staging a finish fight with the Austrian Nazis, who demand union with Germany under the leadership of the Reich Chancellor, Adolf Hitler, advised Wasserbaeck to surrender voluntarily, thus placing responsibility for his detention squarely upon the shoulders of the German authorities.

The speech of the Austrian chancellor was brief. He declared each nation must put its own house in order before international stability is possible. After suggesting the conference create machinery for bringing debtors and creditors together, thus aiding in solution of the international debt problem, he closed with a plea for co-operation between governments.

Germans Arrest, Deport Austrian Legation Attache

BERLIN, June 14.—(AP.)—Dr. Erwin Wasserbaeck, chief of the press department in the Austrian Legation here, was expelled from Germany today a few hours after he had been arrested in retaliation for the arrest in Vienna of Theodore Habicht, a German, who was the adviser of the Austrian Nazi party.

Monsignor Cesare Orsenigo, the papal nuncio, was expected to file a formal protest on behalf of the diplomatic corps, of which he is the dean, on the grounds that Dr. Wasserbaeck's detention violated the principle of diplomatic immunity.

Dr. Wasserbaeck, a Catholic priest, was sleeping when police knocked on his door and informed him that he was to be arrested by orders of Prussian Premier Goering.

THE BEST PLACE TO SHOP, AFTER ALL

WHITE

Stages a "Sunshine Corner" Event in Women's Dresses

$10.75

White—the summer classic, the romantic "color" of the ages, the timely thing from the standpoint of fashion and the state of the thermometer—in a smart and widely varied collection of dresses, in women's regular and half sizes.

Snow-white frocks of washable silk crepes, afternoon types with hand-drawn work, with capes and cape-like sleeves. Simple hand-fagoted models, with hip-length jackets, and others with swagger-length coats. White frocks for every hour of the day, which can be worn in perfect bliss with the knowledge that they can be easily laundered.

White and Colors... The Season's First Ranking Fashions

Summer Handbags In a Sale..... $1.45

Linens
Heather Cottons
Novelty Cottons
Silk Crepes

The kind of an opportunity that would ordinarily come only at the end of the season. The manufacturer needed capital to protect himself against the rising cost of fall materials . . . and our ready cash settled the problem to your advantage!

Here are copies of the best couturier styles—bags that fairly breathe smartness and individuality—whose quality you'll recognize on sight.

Looseleaf ring styles, ball frames, gingham frames, softies, pouches, and many new envelope variations . . . in white, and popular summer colors.

... Horne's, Main Floor ...

Enjoy These Cool, Summer

"Sensations"

This little two-way-stretch "Summer Steps," of LASTEX—firm enough to keep your contour smooth and graceful—is almost as light and porous as fish-net, when stretched over your figure. Wear it for sports—wear it under evening frocks . . . it's always comfortable and capable! $5.00.

... Corsets, Second Floor ...

This Season When We

Put Everything Into the Tub

the question of washability is an important consideration.

A washability expert from the Lux Laboratories is here this week to advise on the washing of delicate fabrics of every nature. Her answers are based on laboratory research and experience. Consult with her on washing problems of every nature.

... Horne's, Main Floor ...

350 More...

Pure Silk Frocks

$5.95

Fashion-Thrift believes there is sufficient significance in the fact that more than 500 women and misses eagerly bought frocks of these pure, unadulterated, washable silks, in two previous sales, to warrant tomorrow's event. In fact, we went further this time, and chose our own patterns in the prints and styles in the frocks, to make the group very individual.

There are innumerable clear, dark-and-white combinations, patterns in pastel and soft, subtle colorings, and others bright-colored and snappy. And the models cover every daytime requirement, ranging from simple town types to those with party gaiety.

8 Models for Women—Sizes 38 to 44.
11 Models for Misses—Sizes 14 to 20.

... Horne's, Fashion-Thrift Section, Second Floor ...

A Sale of Our Popular, Exclusive

"Miss Swank" Silk Slips

$1.85

They're those perfect-fitting slips with the non-shifting sides—that sell in our regular stocks at $2.95 . . . offered at a specially low price that cannot possibly be duplicated when our present stock is exhausted—because of the rise in costs since we made this purchase.

- Lace trimmed styles
- Tailored styles with embroidered motifs
- Wrap-around tailored style
- All with deep shadow panels

White and tea rose . . . Sizes 32 to 44.

... Horne's, Second Floor ...

Such Welcome Graduation Gifts!

Silk Gowns and Pajamas

$2.65

Smart Miss Swank gowns with cool net yokes and "sleevelettes"—rich lace yokes—low backs, puff sleeves—and two-piece pajamas in delicate blossom colors, with all sorts of new bodices and necklines. Offered in a special selling at much less than regular price.

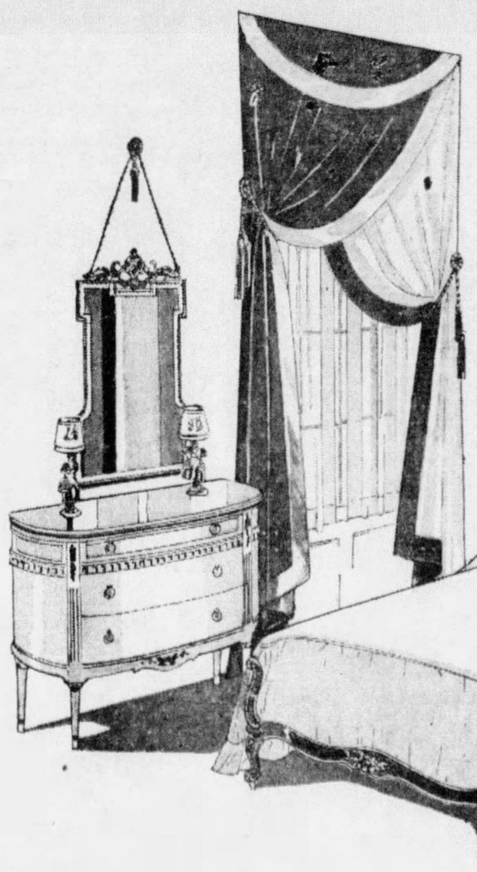
.. Lingerie, Second Floor ..

Maids' Uniforms

$1.35

A grand opportunity to get a season's supply of serviceable, high quality uniforms at worth while savings! Short-sleeve and long-sleeve styles of fine pin-stripe percales, in blue, green and orchid. Sizes 36 to 44.

... Uniform Section, Second Floor ...



Everything Is Included

Curtains, Draperies, Rugs, Lamps, Pictures, Lighting Fixtures—everything in the rooms will be marked 25% off.

Choice of the

Irwin Rooms

25% Off

The dismantling of the Irwin Rooms, preparatory to re-decorating and refurnishing them for fall, is an event quite as interesting and exciting in its way as the opening of the Rooms this spring. They are the work of two of the most famous decorators of America.

The Irwin Rooms were furnished at a time when costs were away below normal, and at 25% off provide values unlikely ever to be equaled again. Despite the quality and beauty of the furnishings, they are distinctly moderately priced.

Convenient Payments Arranged

LOWELL THOMAS HERE -:- News Broadcaster Speaks To Nation Over KDKA -:- BRISBANE GOING ON AIR

Writer Talks From London On Parley

Lowell Thomas, touring Western Pennsylvania in a series of personal appearances, does his regular NBC-WJZ network broadcast from the studios of KDKA for the second time in as many days at 6:45 tonight.

A last minute change put the NBC news broadcaster on the air from KDKA last night. He speaks at Grove City College today and addresses a meeting of the Pittsburgh Chapter, Pennsylvania Motor Truck Association, at Liberty avenue and Thirty-seventh street tonight.

Scheduled to talk tomorrow at a luncheon-meeting of the Pittsburgh Chamber of Commerce, Thomas' daily news resume tomorrow night also will go to the chain via KDKA.

* * *

London Broadcast

Ralph D. Blumenfeld, famed American-born London editor, broadcasts internationally over NBC-WCAE at 9:15 tonight as the first of a distinguished group of guest speakers to be presented by William Hard during the World Economic Conference. His topic: "Realities of the Conference."

* * *

Going on the air with his prize-winning speech, the winner of the annual American Bankers' Association public speaking contest is to be heard over WCAE at 11:15 p. m. The broadcast originates in Chicago scene of this year's competition.

* * *

'Game of Chess'

Marking another step in radio dramatic experiments, "A Game of Chess," Kenneth Sawyer Goodman's classic one-act play, is listed on KDKA at 10 with George Gaul and Milton Herman in the leads. To be followed next week at the same hour by "The Monkey's Paw," the play crowds the gamut of human emotions into the brief interval between the interruption of a Russian nobleman's chess game by a fanatical nihilist and its resumption a few minutes later.

* * *

Flag Day Tributes

Flag Day on tonight's waves brings Judge W. H. Dithrich to the WWSW microphone at 9 during the 28th Division's weekly broadcast, and Pearl M. Cook, patriotic instructor of the Pennsylvania Department, Daughters of Union Veterans of the Civil War, now in annual session here, to KDKA at 6:05.

* * *

With Sartory and Sprague reporting, WWSW broadcasts play-by-play the Pirates-Cards game at St. Louis, beginning at 5. The Corn Cob Pipe Club, weekly WCAE feature, celecelebrates its first network anniversary at 10 p. m. The Brice-Olsen 16-week renewal becomes effective today.

* * *

For the music lovers: Beethoven and Bach recital by Pianist Mischa Levitzki, including the "Apassionata" Sonata in its entirety, WCAE at 10:30 . . . All-Dvorak program by Howard Barlow's Orchestra, with the Largo and Scherzo from the "New World" Symphony as highspots, WJAS at 10:45 . . . Bach and Mozart by Frank Black's String Symphony, KDKA at 7:30.

Globe-Trotting

By LOUIS L. KAUFMAN

Hello, ladies and gentlemen:

This is not Dr. Copeland's department, but in the interest of the Globe-Trotter family we ought to warn against poison ivy. Mrs. Thomas Martin, of Imogene road, suggests this remedy, which she claims is a sure cure: Laundry starch and an equal part of glycerine.

Mrs. Rehm asks me to point out to children the dangers of "hopping" vehicles. The youngsters on warm days cluster at the back of ice trucks, clambering on to get pieces of ice. A fall from one of these caused the death of a little lad in Brookline the other day.

* * *

Fire Chief Rackenstein at No. 51, Lowrie and Freeman streets, holds hose shower parties for the youngsters each day at 4. The sprinkling will continue until school resumes in the fall.

F. A. Cunningham's tip to teamsters is to carry a bucket in the wagon. Stop every three hours at a filling station, fill the bucket and water the horse.

How about the birdies? Don't forget to keep water in the bird baths.

* * *

You probably won't believe it, but Ripley has just enclosed a note about a young lady in Versailles who forgoes two meals a month so the Sun-Telegraph can be included in her budget.

* * *

Zoological note—Arthur Trimble's lizard laid 31 eggs. Arthur lives in Brookline.

* * *

Mr. and Mrs. Michael Koestrich, North Side, celebrated their silver wedding anniversary by going through the ceremony again with their daughter and her bridegroom who were just tying the knot.

'Sodom, Gomorrah' In Air Drama

Dramatizing the Biblical story of Sodom and Gomorrah, "Destruction," this week's American Weekly presentation, will be broadcast over Station WFBG, Altoona, tomorrow at 3 p. m.

The playlet, directed by and featuring Georgia Backus, prominent stage and radio star, is based on an article published in the next issue of the big magazine distributed each Sunday with the Sun-Telegraph.

Noted Editor To Replace Will Rogers

By AIRCASTER

Arthur Brisbane, noted editorial writer whose "Today" column is a daily and Sunday feature of the Sun-Telegraph, has been signed to succeed Will Rogers in the Sunday night Gulf Headliners series over NBC-KDKA beginning June 25.

Announcement was made yesterday in New York by M. H. Aylesworth, president of NBC.

Patterning his radio talks after his daily newspaper column, Mr. Brisbane will discuss in informal manner the events of the current week and significant developments in national and world affairs. The series will be his first regular feature over a nation-wide hookup.

Fred Stone will fill the Sunday night space for one time this week.

* * *

Moore for Wynn?

Wanted—A radio comic, not too good—and not too terrible!

That's what the radio employers of Ed Wynn are crying. Ed steps out of the Tuesday night picture July 7, for a summer vacation.

Somebody who won't overshadow him, nor yet scare off the radio audience, will get the job. At the moment, Victor Moore, stage wag, seems to be elected.

* * *

Leo Routs Vincent

Vincent Lopez was doing nicely in his Chicago hotel spot, until the hotel people, visualizing a rush of guests for the Century of Progress show, decided to open another dancing room, and sent for Leo Reisman to fill it with his band.

Two big name gents thus became rivals for patronage under the same roof. Reisman never had occupied such a spot before.

The old story of the No. 2 man climbing to the place of the No. 1 man was repeated. Lopez leaves the hotel at the end of this week, and Reisman stays.

* * *

Here and There

In the Broadway booking offices they'll tell you that a mouthwash manufacturer will debut shortly and that he will bring John McCormack, the big-shot tenor, to the fore on his first commercial series.

Floyd Gibbons has done such a swell job from the Chicago fair that his program has been extended a full month, up to July 20.

Seals Observing Tennis Night

The Trained Seals set up tonight as Tennis Night on the air, bringing to the WCAE microphone at 6:45 Grant Siverd, veteran local player and coach, and Paul G. Sullivan, secretary of the Pittsburgh Tennis Association, interviewing J. Phillips Davis, P. T. A. president, and a number of star players, Harry Keck, Sun-Telegraph sports editor, is master of ceremonies.

18,000,000 ON RELIEF ROLLS, PARLEY TOLD

U.S. on Way Out, Pinchot Says

WASHINGTON June 14.—(INS.)—The country is "on the way out," Gov. Gifford Pinchot, of Pennsylvania, believes.

He said this in an interview today at the conference of state relief representatives here. The Governor declared:

"The man in the White House has grasped the nettle. I feel very much encouraged over the outlook."

He said there are more than 2,000,000 persons now on Pennsylvania's relief rolls, constituting about one-ninth of the whole national problem.

International News Service.

WASHINGTON, June 14.—Expenditure of Federal funds for relief of the unemployed should be handled by official public bodies instead of by private welfare agencies, Harry L. Hopkins, federal relief administrator, declared today before a meeting of state relief executives.

Eighteen million persons are now on the relief rolls, he said.

The public bodies—state, county and municipal, should dispense the funds under the same responsibility that obtains in disbursement of Federal funds by states for other purposes, Hopkins said.

ASKS CO-OPERATION

He added:

"Hundreds of private agencies scattered throughout the land have freely and generously offered their services in the administration of public funds. It would be a serious handicap to relief work if the abilities and interests of these individuals are lost.

"But I would ask for their co-operation to the extent that these responsible individuals be made public officials, working under the control of public authority, serving in hundreds of cases without pay, but if paid, paid in the same manner as any public servant."

PROGRAM OUTLINED

A program of national unemployment relief was laid by Hopkins before the representatives, who came from every state.

He told them:

1—Who will get relief.

2—How relief will be given.

3—Who will pay for relief.

Relief will go strictly for unemployment, Hopkins said.

Unemployed heads of families are the intended beneficiaries of the $500,000,000 relief fund provided by Congress.

There is a huge problem in relief to transients, Hopkins pointed out. This will be met by special appropriations to the states for this particular use and for no other.

The relief will include food, clothing, shelter, medicine and medical attention.

The relief fund will not be used for payment of widows' pensions, old age pensions or hospital bills.

THOMAS, RADIO AGE, HONORED

With a bagful of "tall stories," Lowell Thomas, NBC newscaster, was in Pittsburgh today as the guest of the Pennsylvania Motor Truck Association.

Following his regular evening broadcast from the studios of KDKA, Mr. Thomas will be the principal speaker of the association in the showrooms of the General Motors Truck Corporation, Liberty avenue and Thirty-seventh street. Earlier in the day he was presented with an honorary degree of doctor of literature at Grove City College, Grove City.

Thursday, Mr. Thomas will be the guest of Edward McCrady, Jr., president of the motor truck association, on a cruise of Pittsburgh's three rivers.

Others speaking at tonight's meeting of the motor truck association will be J. Howard Pew, president of the Sun Oil Company; Pierre Schon, sales engineer of the General Motors Truck Corporation, and W. A. Sutherland, state secretary of the association.

Hugh G. Walsh is secretary of the association.

William H. Sykes Dies in Wheeling

WHEELING, W. Va., June 14.—William Harry Sykes, 61, former resident of Pittsburgh and a brother of Edward C. Sykes, veteran Pittsburgh newspaperman, died at his home here today after being stricken by the heat several days ago.

He was born in Pittsburgh but lived in West Virginia most of his life. Besides his brother, he is survived by a half-brother, Justus Sykes, and a half-sister, Mrs. Mamie Brill, both of Wheeling. Funeral services will be held at 2 p. m. Friday from Bertchey's funeral parlors here.

MEDICAL GROUP HIT FOR STAND ON DOPE

By WINIFRED BLACK
Universal Service.

SAN FRANCISCO, June 13.—That strange thing he knows—this man Anslinger, chief of the Narcotic Bureau of the United States of America.

Every once in a while Mr. Anslinger throws aside for the moment his enigmatic silence and tells us a few interesting facts.

Not surmises, mind you, not vague guesses, but plain, honest, courageous, up-to-the-minute facts.

And Anslinger doesn't seem to be worrying about who will be troubled by these facts.

There is his recent report on the strange attitude of the medical associations, for instance.

In that most astounding report Mr. Anslinger told the world that his agents could point out without much danger of even the faintest contradiction 754 practicing physicians who are narcotic addicts.

The agents stood ready and willing to give the names and addresses of these physicians and I presume their office and home telephones besides.

WHAT WAS DONE

This information was turned over to the medical association, and what was done about it?

Oh, quite a good deal.

Out of the 754 doctors accused of being dope addicts, seven had their licenses revoked.

One doctor was suspended.

Three doctors were put on probation.

Twelve doctors were admonished.

Now isn't that just too trifling for words?

Talk about prompt, efficient, courageous and public spirited action—well, what do you expect?

Some of the "dopy" doctors are rich men, they're men of influence, and good reputation.

What's the use of stirring up trouble for them?

Why bring a scandal on the community, just because some man way down in Washington happens to know that there are dope addicts.

WHOSE BUSINESS?

What's the difference anyhow, as long as they stay out of jail, and take their own dope when they happen to feel like it and pass a little out to their friends once in a while—whose business is that?

You can't treat a doctor in regular practice as you would treat some poor wreck of a dope fiend shivering in a dirty alley somewhere, can you?

Oh, yes, of course, the well-to-do doctor is a good deal more dangerous than the alley dope fiend—he can make a dozen addicts, where the poor human wreck can only help to make one or two.

And who wants to go on the operating table under the hands of a man dazed with dope, even if he is a doctor, and has a nice diploma all curliques and flourishes, for you to see, whenever you ask about it.

We plain everyday human beings may feel rather queer about a dopy doctor, but who are we to criticize the doings and the undoings of great national and state associations?

MANY CONVICTED

Out of those 754 doctors who are known to be dope fiends many of them have been convicted of the habit.

And some of them have made fortunes selling dope to every poor wretch who totters in asking for help.

Good prices they get, too, for that quick little jab of the hypodermic needle.

Every once in a while some poor victim tells a tale of jewels pawned and large sums of money stolen to get "treatment" from one of these fine, licensed physicians.

We Americans are proud of our honest, high-minded, clear-headed, kindly, courageous and conscientious doctors.

They are our best friends, our veritable rocks of refuge in times of sickness and sorrow.

We trust them to the very last drop of blood in our hearts.

We give the lives of those we love into their competent, capable, kindly hands.

But how about the "dope doctors."

What are we going to do about them, gentlemen of the medical associations.

Mr. Anslinger, of the United States Narcotic Bureau, would like to know.

And so would—if you please—some of the plain everyday men and women, in this plain everyday country of ours.

WAN U. S. SENATOR DAVIS

U. S. SENATOR JAMES J. DAVIS LEAVING FEDERAL COURT

A picture that tells its own story of the long illness of Senator Davis, seen by the news camera in New York for the first time since he left South Side Hospital. He pleaded not guilty to a new indictment. This is an International News Photograph Service picture.

Man Who Shared Ford Millions Dies

DETROIT, June 14.—(AP.)—Horace H. Rackham, 73, Detroit multi-millionaire who invested $5,000 in the Ford Motor Co. 30 years ago, died last night following a long illness.

Rackham was an attorney, and a neighbor of the Fords in 1903. He invested $5,000 in the company. In 1919 Rackham sold his Ford stock for $12,500,000.

REPEAL FOUGHT BY PRESBYTERY

Presbyterian ministers today started plans for the election of dry delegates to the state repeal convention.

A resilution urging that the ministers take an active part in the forthcoming campaign was adopted yesterday at a meeting of the Pittsburgh Presbytery in the First Presbyterian Church, Sixth avenue.

Dr. Louis H. Evans, pastor of the Third Presbyterian Church, was named a member of the committee on national missions following the resignation of Dr. Hugh Thomson Kerr, pastor of the Shadyside Presbyterian Church.

Hugh Thomson Kerr, Jr., was confirmed as a candidate for the ministry and Austin B. Hunter and J. Miller Gold as candidates for ordination.

WOMEN FLOCK TO SEE STORE 'PEEP SHOW'

Many a Pittsburgh husband will get a late dinner tonight because his wife spent the afternoon at Gimbels' "Peep Show" in the Intimate Apparel Shop. But he had better not be grouchy about it, or she'll go again tomorrow to see how the well dressed woman keeps "foundationally" cool and comfortable in summer weather.

In the days of the whalebone and bustle, one corset did year-round service. Lucky indeed was madame who could boast a summer and winter garment. But unlucky today is milady who does not have a complete "foundation" wardrobe.

In the "Peepshow" parade are lovely models wearing correct girdles for riding, comfortable garments for golf, sheer cool all-in-ones for evening, two-way stretches for active sports and countless varieties for general wear.

Miss 1933 can thank her lucky stars for modern comfort as she parades side by side with Miss 1902 today and tomorrow in the "Peep Show" procession. Whalebones and laces, pinched waists and high busts, look ridiculously grotesque beside soft, pliable rubberized fabrics that mold and blend the figure into natural curves, and high-necked, stiff-starched nightgowns look hot and uncomfortable beside soft flowing satin and lace creations.

The show is climaxed with a bridal procession, showing the correct foundation garments and accessories for the trousseau.

'Miss Pittsburgh' Judges Named

Two of the three judges who will select "Miss Liberty" and "Miss Pittsburgh" in the studios of station KDKA Friday morning have been chosen

They are Mrs. Martha M. Murdoch, president of the Tuesday Musical Club, and Chester M. Wallace, head of the school of drama at Carnegie Tech. Another prominent Pittsburgher will be chosen before auditions are held. Miss Liberty and Miss Pittsburgh will be main characters in the all-nations Fourth of July celebration.

Zelienople Girl Struck by Trolley

Suffering a possible fracture of the skull and bruises when she was struck by a street car at Murray avenue and Beacon street last night, Ida Sonie, 19, of Zelienople, was taken to Montefiore Hospital.

College Girl Weds Rope Skipping Champion

PUEBLO, Col., June 14.—(AP.)—Recently recovered from a nervous collapse resulting when he established what he claims is a world rope skipping record, Thomas W. Thompson married Miss Florence Broome here today.

Thompson skipped rope 20,010 times. He is a graduate of the University of Chicago. His wife attended the University of Colorado.

LIGHT STREETS BY VAPOR LAMP

SCHENECTADY, N. Y., June 14. — (AP.) — An orange-yellow glow spread over a half mile of highway just outside Schenectady last night when a new kind of street light was turned on, the first radical departure in more than 30 years of arc and incandescent lamps.

The new light is known as the sodium vapor lamp and last night was its American premiere. It glows in but one color, whereas daylight is made up of all colors. The demonstration embodies the result of many years of research by General Electric physicists and engineers in Schenectady, Cleveland and Hoboken, N. J., as well as through similar studies abroad.

$25,000 in Smokers' Luxuries Stolen

NEW YORK, June 14.—(INS.)—A thief with a taste for imported tobacco, expensive pipes and other luxurious smokers' knickknacks, was sought by police today.

Squeezing through two 12-inch square transoms, the intruder ransacked the Fifth avenue branch of a London tobacconist of pipes, jewelry, cigar lighters, clocks and imported smoking mixtures with a total value of $25,000.

Charge Councilman Stole Fence Wire

GREENSBURG, Pa., June 14.—Theft of 3,000 feet of wire from West Leechburg Borough to fence his cow pasture was charged to Councilman Thomas Mozdir during a hearing before Burgess M. B. Martin.

At a stormy session the other night, Council ordered charges filed against Mozdir and billing William Shirley for the use of a borough tractor. Shirley is to be billed for $80, Councilmen said.

Constable Named For Wall Borough

Martin R. Pluter, 35, has been appointed constable for Wall Borough by Judge Samuel H. Gardner, to take the place of George W. Arendas, who resigned April 28 when he began serving a term in the workhouse for extortion in an alleged shakedown case. Harry Gutchell and Jess Hoffman also were candidates for the appointment.

"TRUTH"— A DANGEROUS GAME

COME ON EVERYBODY WE'RE GOING TO PLAY "TRUTH OR CONSEQUENCES"
SOUNDS DANGEROUS. HOW DO YOU PLAY IT ?
THE ONE WHO'S "IT" ASKS YOU A QUESTION. IF YOU DON'T WANT TO ANSWER TRUTHFULLY, YOU PAY A FORFEIT— BUT NO FAIR FIBBING!
I'LL BE "IT" FIRST AND I'M GOING TO ASK YOU WHY YOU HAVEN'T DANCED WITH ME ALL EVENING
WHY...WHY I HAVE. YOU JUST DON'T REMEMBER
LATER— she overheard
DID I HOLD MY BREATH WHEN SHE ASKED BEN THAT !
GOT OUT OF IT RATHER NEATLY, DIDN'T HE ?
MEN REALLY WOULD LIKE HER IF SHE WEREN'T SO CARELESS ABOUT "B.O."
I WAS JUST JOKING— NEVER DREAMT BEN HAD A REASON, AND "B.O." OF ALL THINGS ! I'LL SOON END THAT
HOW DIFFERENT LIFEBUOY IS— HOW DELIGHTFUL TO USE— SUCH MARVELOUS LATHER ! ITS VERY SCENT TELLS ME "B.O." HASN'T A CHANCE
"B.O." GONE— Ben fights for dances now!
RUN ALONG BEN, THIS IS MY DANCE
NOTHING DOING, IT'S MINE !

LIFEBUOY has improved *countless* complexions—it will do the same for *yours!* This purifying toilet soap makes the creamiest lather ever. Gentle, penetrating—it *soaks* out grimed-in dirt. Leaves your skin so fresh and *clean*—it's bound to please the most critical eye!

More danger of "B.O." now

Days are warmer—you're perspiring more. So be *extra* careful about "B.O." (*body odor*). Bathe often with Lifebuoy. Its pleasant, hygienic, quickly-vanishing scent tells you Lifebuoy lather *deodorizes* pores—stops "B.O."

A PRODUCT OF LEVER BROS. CO.

EVANS ESTATE QUIZ ORDERED IN SUIT

A reopening and investigation of the appraisement of the estate of the late T. R. Evans, Diamond Alkali Company magnate, who died in March, 1931, was ordered today by the State Department of Revenue.

The basis for the reopening was said to be the alleged value of the concern's stock, left to Mrs. Evans, 1127 Beechwood boulevard, by her husband.

QUESTION APPRAISAL

The Inheritance Tax Bureau took the estate's value of stock as the taxable value, attaches of the Inheritance Tax Bureau said. 19,029 shares of common stock being appraised at $68.80 a share, for a total of $1,310,717.52. The appraisers were W. E. Jones and William C. Mahan.

That the stock was worth not less than $350 a share was brought out in the bill of complaint. The $350,000 counsel fee suit brought by John M. Freeman, of the law firm of Watson & Freeman, involves the settlement of 22,655 shares of the company's stock.

Joseph N. Mackrell, Register of Wills, advised the state to reopen the appraisement, it was learned. Other stocks listed in the appraisement were 7,000 shares of Diamond Investment Company, valued at $154.37, for a total of $1,080,568.37; 11,724 shares of Diamond Alkali Company preferred series A, valued at $110 and totaling $1,289,640, and 5,982 shares of preferred series B valued at $90 and totaling $538,380. Mrs. Evans was the sole beneficiary of the estate, appraised at over $4,000,000.

During the hearing yesterday, H. J. Booth, secretary of the company; Leonard G. Flaccus, president of both the Diamond Alkali Company and Diamond Investment Company, and William R. Robinson, a director, testified regarding the stock agreement between Howard Evans, a director, and his late brother. Flaccus said Howard Evans told him the stock holdings of the brothers should always be in the same proportion.

Heiress, Divorcee, To Wed Navy Flier

PASADENA, Cal., June 14.—(AP.)—Divorced from Edward Henry Groenendyke, clubman, in Reno the first of the month, Mary Natika Wrenn, Pasadena heiress, announced yesterday she will marry Lieut. Ford Newton Taylor, Jr., a naval flier stationed in Washington.

The marriage, she said, will be this summer.

ERIE TUG FIGHTS GALE 5 HOURS

ERIE, Pa., June 14.—(AP.)—A five-hour battle with waves and wind on storm-tossed Lake Erie is all in the day's work to Capt. C. M. Grant, of Cleveland, master of the steam tug Commodore Perry.

An hour at sea in the season's worst blow and the Perry encountered engine trouble.

The tug cleared for Fairport, O., at noon Tuesday, returning under Coast Guard tow last night.

For more than an hour Capt. Grant blew the distress signal before it was picked up by residents along the shore, five miles distant. Coast Guards set out and with great difficulty got a line to the tug.

Pittsburgh Girl Awarded Degree

Miss Eleanor Higins Yeakel, of Pittsburgh, received her bachelor of arts degree yesterday at Bryn Mawr College, Bryn Mawr, Pa.

EXPLOSION RIPS LATROBE STORE

LATROBE, Pa., June 14.—Police today were investigating an explosion which ripped the store and dwelling of Mrs. T. A. DeBoise, wholesale fruit dealer, last night. Firemen estimated the damage between $8,000 and $10,000.

Mrs. DeBoise and family were absent when the blast occurred. It ripped the two-story brick building. The roof caved in. Firemen expressed the belief that gas caused the blast. With police they were checking today to determine if the explosion might have been caused by something else.

Nazi Brown Shirts Boon to Outfitters

BERLIN.—(INS.)—Brown is all the rage today in Germany for everything from suits to shoes.

The triumph of the Nazi "brown shirts" has given men's outfitters an undreamed-of opportunity. Everywhere they are displaying cloth and leather goods of the color of the hour, coupled with printed exhortations to all good Germans to fall in line.

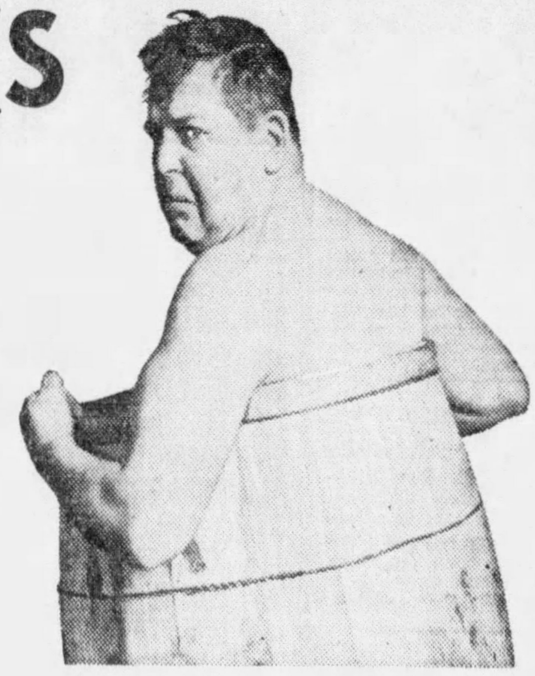
FATHER'S DAY
Sunday, June 18th
Let's Not Forget Good Old Dad!



PERHAPS he's been missing a few things he'd much rather not do without . . . perhaps he's lost his shirt. Maybe its clothing he wants, or perhaps a tire or a set of plugs for the loyal old model '29 . . . or he may have dropped a hint on Mother's Day as to a desired do-dad or necessity. There are a thousand and one things Father would appreciate receiving.
In the Sun-Telegraph there will be found advertisements featuring merchandise which will make acceptable gifts for the occasion.
Let's not forget him—'cause he's a darned good fellow!
The PITTSBURGH SUN-TELEGRAPH

WAGES RISING WITH STEEL SCHEDULES

Steel, the barometer of Pittsburgh's industrial welfare, continued its upward march today, as ingot production rose from 44 to 47 per cent of capacity. Many individual steel concerns in this territory were operating above this average production rate, with men being recalled to the mills with increasing frequency.

As prices for steel scrap at Pittsburgh jumped 50 cents a ton, leaders in the industry conjectured on the effects of the Industrial Control Bill which portends a general wage increase and at least moderate price increases in the near future.

BOOST WAGES

With four Carnegie Steel Company stacks scheduled to be going before the week is up, it was reported that the fifth open hearth furnace has been lighted at the Midland works of the Pittsburgh Crucible Steel Company. Production there is at 50 per cent of capacity, the highest level in the last 14 months.

A marked pickup in production for the Duquesne Steel and Foundry Company's plant at Coraopolis has brought about a 12½ per cent boost in wages for nearly 300 employes, effective Monday, according to company officials. The major part of the company's business advance is coming from the rolling mills.

LAKE SHIPMENTS UP

The extent of the re-awakening in the steel business is indicated by shipments of ore in the Great Lakes, experts point out. During May the shipments totaled 900,534 tons, an increase of 789,708 tons over the same month in 1932.

During the first six months of the season, 825,845 more tons of ore have been transported down the lakes than in a like period of last year.

Volume of water freight from Pittsburgh also has shown such an increase that the American Barge Line expects to send out three more tows from the Pittsburgh harbor this month, it was reported.

BEEBE ON NEW EXPEDITION

ESSINGTON, Pa., June 14.—(AP.)—Bound for the haunts of strange tropical fish, the trim ship Antares sails today for a two-month cruise of the southern Atlantic and Pacific oceans with Dr. William Beebe, distinguished scientist and authority on marine life, aboard.

Dr. Beebe said:

"New species are the least important object of this trip. The study of color changes is more interesting."

It is the third cruise Dr. Beebe, noted authority on birds and marine life, has made with Col. Edwin M. Chance, owner of the Antares.

Accompanying them will be Dr. Beebe's research associate, Miss Gloria Hollister; Mrs. Chance, who sails as supercargo; her two sons, Henry M., Jr., first mate; and Britton, second mate and chief radio operator; Henry's fiance, Miss Susan Sharpless; T. Gardiner Aspinwall, third mate, and others.

Spain Imposes Ban On Exports of Art

MADRID, June 14.—(INS.)—A law providing that ancient Spanish art treasures and antiques be kept in Spain went into effect today.

"No monument or building more than 100 years old can be exported," the law states adding:

"No object having historical or artistic significance can be exported unless the Beaux Arts Bureau permits."

Earthquake Reported In Vicinity of Alaska

WASHINGTON, June 14.—(AP.)—A moderate earthquake, centered about 3,500 miles from Washington and believed to have been in the vicinity of Alaska, was reported today by the Georgetown University seismological observatory.

Woman Completes 62 Ocean Voyages

NEW YORK, June 14—Frau Amalia Schlegel, who is 92, has made 62 crossings of the North Atlantic. Why? To while away the time. She said:

"I am an old woman and I travel alone because I am all alone in this wide, wide world."

Empty Your Gall Bladder

And You'll Feel Like a Billion Dollars!

Sleepless nights, dog-tired days, headaches, pains in all parts of the body—indigestion—gas. Do you suffer from one or all?

And have you tried every medicine under the sun, only to find yourself back where you started?

No wonder, for you, like thousands of others have probably been treating yourself for everything but the right thing. Get at the unsuspected cause—your gall bladder. If sluggish, it won't pour into your small intestines the most important digestive juice necessary for neutralizing gastric acid, quickening digestion and disinfecting the intestinal tract. If this juice doesn't flow freely, then your food sours, putrifies, stomach becomes filled with gas and acidity.

From Germany's greatest chemists comes a simple, pleasant means to make this digestive juice flow freely, and put you on the sunny side of life. Magnesia Oxoids, little white tablets that release pure oxygen. This amazing oxygen—purer than the air you breathe—plus magnesia, gently stimulates the gall bladder, neutralizes burning acidity and sweeps that poison-packed bowel clean.

Take two Oxoids after each meal—and before retiring—drink plenty of water—put your gall bladder to work—and you'll jump out of your skin for joy. Such new health! Such robust vigor! Get Magnesia Oxoids today from your druggist.

All in a Day

By Mark Hellinger

Odds and Ends.

THE GIRL, reports Doug Whitney, lived in Kansas City. She was a cute-looking monkey, and had been badly bitten by the movie bug. She had just about made up her mind to blow the old homestead and hit for Hollywood when she fell in love with a boy.

The boy was a quiet youngster, but his heart became a roller coaster the first time he saw the girl. In short, they were both gone when they hadn't known each other more than a week. Suddenly, without a word to the boy about her plans, the girl hopped a train for the Coast.

In other words, she had made up her mind that her career was more important than her heart, or some such nonsense that always looks good in print but never quite works out in real life. She didn't know a soul in Hollywood, but she felt that true art and beauty would always conquer.

After a few weeks in the land where men are manna, baby face was down to her last few bucks. She had yet to meet her first important person, and it began to look as though a job as a waitress was the next stop. She missed the boy friend more and more, and she finally wrote to him one night because she was horribly lonesome.

What she told him in that letter was strictly a dream. She was under contract to Metro, she said, and every director in the outfit was begging to be allowed to work with her. Photographers and autograph hunters were chasing her all over town, and it looked as though she was going to be one of Hollywood's biggest stars in almost no time.

The boy received the letter and, being very much in love, also went to the Coast, where he had relatives. He phoned her as soon as he was settled in his cousin's home, congratulated her on her success and told her he would see her the following day. She insisted that he come over immediately.

"But I can't, honey," he pleaded. "I just got here and I can't insult my cousin."

"Oh, is that so?" she cried. "So your cousin is more important than I, is he? May I ask who he is?"

The boy's answer was semi-apologetic.

"Carl Laemmle, Jr.," he replied. . . .

* * *

THEN, advises Jay G. Bumberg, there was the motion picture executive who wanted to improve his English. So he kept eating alphabet soup! . . .

* * *

IF you get a letter from Spain one of these mornings and it's a missive that you didn't expect, don't be in a hurry to open it. For, if it's postmarked "Barcelona" and comes in a light blue envelope, it simply means that you are on somebody's sucker list. And it means, too, that the old Spanish prison racket is flourishing once again.

The Spanish prison racket was very popular about 10 years ago, and the boys are now using the same letter they did then. It states briefly and in poor English that the writer is imprisoned in Barcelona and that he has the sum of $360,000 in America. If you will help him to regain a bag that is being held by the Spanish authorities he will later pay off one-third of that sum, or $120,000.

The letter is mysteriously worded and you are asked to reply by immediate cable. No money is requested in this first letter. The touch comes after your willingness to help has been expressed by cable.

If you are sucker enough to grab the bait, your next communication urges haste and speaks of bribing a prison guard. All in all, the trifling sum of $1,000 is urgently needed in order for you to get your $120,000. And if you send your money, of course, that is the end of that.

From the foregoing description you would certainly believe that nobody in modern America would be dumb enough to fall for such an obvious racket. Yet the fact that a number of New York business men have received the letter in question during the past few weeks proves conclusively that the old racket is still paying.

Come to think of it, I guess that—regardless of conditions—the most obvious rackets will always pay. Poor men and women are still paying to have their lyrics put to music. Fortune tellers are still reaping harvests from the ignorant. And no stock is gobbled up more eagerly than a promotion scheme to hunt for sunken gold. . .

WATCHES CLUE TO AIR VICTIMS

CHICAGO, June 14.—(INS.)—Discovery of two blackened watches in the wreckage of the world's fair sight-seeing plane, Northern Light, today brought renewed hope of identifying the last two victims. Nine occupants were burned to death when the amphibian crashed.

One of the watches bore the initials "W. F. F." Serial numbers were being checked to trace the buyers. Both of the unidentified victims were men, one about 40 and the other 20 years old.

Half of the left propeller was still missing today, and authorities were seeking it as a vital piece of evidence.

CITY TO ASSIST FLOOD CONTROL PROPOSAL

City Council has acted to provide financial aid to the Pittsburgh Flood Commission in its efforts to obtain the expenditure of a part of the $3,300,000,000 federal public works appropriation in flood control on the rivers of this district.

Council pledged $3,500 to George S. Davison, president of the commission, and agreed to take the money out of contingent funds if necessary in order that there be no delay.

The legislation appropriating the money will be started through Council Monday. The funds will be used to hire the services of an engineer to represent the Flood Commission in Washington.

Davison declared that he is hopeful that federal funds will be set aside to construct the system of storage reservoirs recommended by the Flood Commission. He said:

"We have been well received in Washington."

The Flood Commission's latest plan includes the construction of 10 storage reservoirs, seven of which are on the tributaries of the Allegheny River and three on the headwaters of the Monongahela. The cost was estimated at $55,000,000.

Government engineers had previously submitted a more costly plan, which would give a higher degree of flood protection, but the Flood Commission has stated that the major portion of the benefits can be obtained for the less expenditure.

The control of the rivers, in addition to saving millions of dollars annually in flood damage, would keep up levels for navigation in periods of drought and improve the condition of water for industrial uses all along the valleys, according to Flood Commission reports.

Husband in Fear Of 100-Pound Mother of 23

YORK, Pa., June 14.—(INS.)—Albert Brown, of Lancaster, stands in dread fear of his wife, Mrs. Rosie A. Brown, a 56-year-old invalid mother of 23 children.

He attested to that information sworn to for the arrest of the woman, specifically charged with surety of the peace. She was under bail today for a hearing before Justice of the Peace W. C. Blessing of Hallam.

The Browns are estranged. When he visited her and tried to affect a reconciliation, she threatened him, he said. The accused woman weighs less than 100 pounds, suffers from a heart condition, she said, and walks with a cane.

CHALLENGES ACCEPTED!

But let's fight with FACTS, not words . . .

The sum of $1,000.00 will be paid by the Richfield Oil Corporation of New York to any one designated, recognized and organized Fund for the Unemployed, or Community Chest, up to and including June 30th, 1933, for each brand of non-premium gasoline competitive in price with Richfield Golden Gasoline, and distributed generally throughout the territory serviced by the Richfield Oil Corporation of New York, that is judged to excel Richfield Golden Gasoline in the aggregate of these listed performance qualities:

Anti-Knocking
Quick-Starting
Acceleration
Maximum Speed
Minimum Rate of Carbon Formation
Gum-Free Properties
Minimum Sulphur Content
Minimum Presence of Acidity
Minimum Corrosive Properties
Economy of Operation

Professor E. H. Hamilton, Head of the Automotive Engineering Department of New York University, in the interests of fair play, has consented to act and is designated as the sole technical judge.

Applications for tests under this challenge must be made on forms prepared for this purpose and will be furnished on request.

COUNTY TO SCAN R. F. C. WORKS PROJECTS

Preliminary estimates of costs and materials for the public works program the county is planning under a $21,000,000 loan from the Reconstruction Finance Corporation will be discussed tomorrow afternoon. The Commissioners, their planning and road engineers and the two special representatives, James Rae and John M. Rice, will meet to discuss the various projects.

Commissioner C. C. McGovern directed Highways Director Thomas O. Hasley and County Planning Engineer E. L. Schmidt to submit at the meeting tomorrow preliminary estimates and plans on each of the dozen projects contemplated. The county already has made a preliminary application for federal aid and the additional information is necessary before a formal application can be received in Washington.

Among the projects included in the program are the Wabash tube and tunnel, the Homestead high level bridge; the Aspinwall bridge, and the extension of Ohio River boulevard to the Beaver County line.

Divorces Granted To Two Husbands

Divorces were granted to Adolph J. Stoll from Mary Stoll, Anna Dailey from James Dailey and to Edward H. Sickenberger from Pearl B. Sickenberger.

Writes 'La-la-la' Song So N. Y. Can Sing It

NEW YORK, June 14.—Edwin Franko Goldman, whose band plays to huge audiences on the Central Park mall, has written a new march, "Cheerio." He hopes the audiences will join in singing it. He said:

"I made it so simple that I believe any audience can remember it at first hearing. The only words in it are La-La-La."

THREE ESTATES DISTRIBUTED

William Alvin Cochran, East End, by his will probated yesterday, disposed of an estate valued at $16,500. He gave his nephew, Harry C. Rankin, $1,000, and then divided his estate into four parts. One-fourth was given to a half brother, Clark J. Cochran; one-fourth to a sister, M. A. Wilson, and the other half to relatives. Harry C. Rankin was named executor.

Bessie Connelly, Millbridge street, left an estate valued at $8,500. The property in Millbridge street was given to her sister, Nora Lynott. Various small bequests were made to relatives. The Washington Trust Company is executor.

Anna M. Gardner, Wilkinsburg, left her $15,500 estate to her son, Charles Gardner, and two daughters, Mrs. Margaret G. Adams and Luella Gardner.

Hit by Auto, Survives Plunge Over Hillside

BROWNSVILLE, Pa., June 14.—Thomas Stewart, 41, escaped serious injury when struck by an automobile and knocked over a 15-foot embankment along the Pittsburgh highway.

HOSPITALS FACE SLASH IN FREE CARE TO SICK

Withdrawal by the state of 30 per cent of its hospital support has forced hospitals of the Pittsburgh district to face a decision as to curtailment of free care of the sick, according to officers and trustees of the Hospital Association of Pennsylvania.

Returning yesterday from a trustees' meeting in Harrisburg at which the reduction was discussed, hospital heads debated the next step which must be taken.

Miss Jessie J. Turnbull, president of the association, who called the Harrisburg meeting, said:

"Withdrawal of 30 per cent of the state's hospital assistance leaves the hospitals powerless. The result will be an additional burden upon the needy. It is regrettable."

Hospitalization of the sick poor for the next six months hangs on a slender thread, it was declared. That length of time will be required before the fate of the $25,000,000 relief bond issue can be determined by voters in November. Hospitals are included to the extent of $2,230,000, receipt of which is problematical, officers said.

Dr. G. Walter Zulauf, superintendent of the Allegheny General Hospital, said:

"It is clear that, instead of being given an earned increase, or even the same as for two years past, hospital appropriations have been cut 30 per cent. It took from June 5 to June 12 to find this out, due to lack of definite information. The reduction forces an ultimate cut in free work of almost one-third. The part which the state has taken away is simply an addition to the deficits which the hospitals now have."

CHESWICK WIFE ASKS DIVORCE

Margaret G. Brink, pretty Cheswick brunette, yesterday asked Judge Ambrose B. Reid for a divorce from Harold A. Brink, whose last known address was 1237 Forbes street.

Mrs. Brink, who testified she and her daughter, Marcia, had been supported largely by her parents, tried to keep her home together and added:

"I wanted Marcia to have a father."

Judge Reid questioned the charge of wilful desertion in the libel, since Mrs. Brink said her husband never told her he intended to leave her. It was shown by others that Brink liked to run around, play cards and frequently was furnished money by his wife's parents. They were married April 14, 1928, and separted in 1930.

Libels in divorce were filed by Elizabeth Hamlin against Arthur D. Hamlin, George Sucevic against Mary Sucevic, Ethel S. Beiswenger against Norman W. Beiswenger, Jordan M. Wright against Grace M. Wright, Everett McKinley Hoak against Sadie B. Hoak and by Melanija Hosak against Joann Hosak.

Scots Monopolize Fight on Borough

Five attorneys, all of Scotch descent, with names beginning with "Mc," figure in the movement to have a section of Wilkins Township between Wilkinsburg and Forest Hills, incorporated as Churchill Borough. They are Roland McCready, attorney for the petitioners; William McDowell and William McNair, representing the exceptants; S. R. McClure, representing Wilkins Township school district, and Malcolm G. McDowell, representing the Wilkins Township commissioners. Judge Samuel H. Gardner appointed Attorney R. R. Elder as a commissioner to take the testimony and report to the court.

Mine Boss Dies At Fayette City

BROWNSVILLE, Pa., June 14.—Thomas J. Branch, 58, superintendent of the Hillman Coal Company's Naomi mine for 16 years, is dead at his home near Fayette City. He leaves his wife and nine children, among whom are: Mrs. John Baldwin and Mrs. Walter McMillen, Bridgeville; Mrs. Fred Moore, Boswell, and Mrs. Edward Schietinger, Mt. Lebanon, Pittsburgh. Funeral services will be held tomorrow.

Makes Turn at 40 But Gets Jail Term

DIGBY, N. S., June 14.—Harold A. Kempton boasted he could take the turn below Bear River Hill at 40 miles an hour. He did, but wrecked his truck, damaged a car, got badly cut and got himself 15 days in jail.

Chicken Minus Toes Traps Coop Robber

NEW PHILADELPHIA, O., June 14.—Earl Heaston's toeless chicken enabled him to identify his stolen fowls from the rank and file at a slaughter house. A neighbor paid a $5 fine and agreed to reimburse Heaston for 16 unrecovered fowls.

BED BUGS

Peterman's Discovery kills at minimum expense. Using special nozzle on can, liquid gets behind baseboards, mouldings, beds, in cracks, etc.—where bed bugs breed. Safe, painless, inexpensive. Guaranteed. Get Peterman's Discovery at your druggist's.

PETERMAN'S DISCOVERY

Council Approves $10,000 for Drugs

An ordinance appropriating $10,000 out of the relief bond funds for medicines and drugs has been affirmed by Finance Committee of City Council. State appropriations which originally covered this expense have been exhausted.

Youngwood School Salaries, Taxes Cut

GREENSBURG, Pa., June 14.—With a 5 per cent cut in all salaries above the minimum and a 3-mill reduction in school taxes, the Youngwood School Board has effected a program of economy for 1933-34.

Rochester Slashes Teachers 20 Per Cent

ROCHESTER, Pa., June 14.—Forbidden a sliding scale reduction by the State Department of Education, the Rochester School Board has made a uniform cut of 20 per cent in salaries of all teachers given contracts.

PRUDENCE PENNY'S Prize Dinner Menu Contest

$100.00 in Cash Awards distributed to housewives every week

HERE ARE THE RULES:

1. For the most satisfying dinner menu for four persons, not to exceed $1.50 in cost, The Pittsburgh Sun-Telegraph will pay $100.00 in cash prizes each week as follows:

1st Prize	$25.00	2 Prizes of	$7.50	each—	$15.00
2nd "	15.00	4 " "	5.00	" —	20.00
3rd "	10.00	5 " "	2.00	" —	10.00
		5 " "	1.00	" —	5.00

A Total of 19 Cash Prizes—$100.00

2. Contestants must give their menus, listing the names of the food products served. After each item state the amount paid for same. You need not include the cost of minor items, such as salt, pepper, sugar, etc.

3. Judges of the dinner menu will be Prudence Penny, Home Economics Editor of The Sun-Telegraph, and her assistants. Contestants agree to accept her decision as final. Menus will be judged on the basis of appetite appeal and economy in buying. In case of ties, duplicate prizes will be awarded.

4. All menus for the first week's contest should be in The Sun-Telegraph office not later than Tuesday, June 20. Winners will be announced the following Friday. You may write your menu on a sheet of plain paper or on the blank supplied here. Anyone may participate, except employes of The Sun-Telegraph and their relatives. Address all entries to the Prudence Penny Prize Dinner Menu Contest, The Sun-Telegraph, Pittsburgh, Pa.

Pinchot May Take Hand In Mayoralty Fight

By MARK SHIELDS

HARRISBURG, June 14.—Gov. Pinchot expects to interest himself in the Republican primary in Pittsburgh and Allegheny County next September. His first concern will be the nomination of Judge Ralph H. Smith for a place on the bench of Common Pleas Court. All of the energies of the Pinchot forces will be directed to that end, the Governor expecting that County Commissioner Charles C. McGovern, Senators W. D. Mansfield and Frank J. Harris and others will exert themselves to the utmost on behalf of Judge Smith.

Mr. Shields

How far beyond that the Governor will go is entirely dependent on the extent to which the elements opposing Mayor John S. Herron and Senator James J. Coyne can get together behind a candidate for the mayorality.

The Governor himself has no open preference now among the various gentlemen mentioned as potential opponents of Herron.

* * *

Administration Ready To Lend Aid Here

But if there can be unity, and if this unity is approved by McGovern and Smith, it is understood on excellent authority that the assistance of the state administration would be thrown into the balance. In this plan the Pinchot strategists are looking ahead to the statewide campaign of 1934.

The Governor realizes, as does every one else, that victory for the Herron-Coyne ticket would place the city government in the state organization corner in the primary campaign for Governor and the United States Senate. This would be an asset to the organization which would be extremely useful to Senator David A. Reed should Mr. Pinchot become a candidate against Reed for the Senate.

If the city offices were in the hands of independents the story would be different. Conceivably a brand of independents might gain control who would not be enthusiastic about Mr. Pinchot, but neither would they be well organized along professional political lines by the time the primary arrives to an extent where they would be damaging to him.

* * *

Witherow's Friends Lean to Reed

Should W. P. Witherow become Mayor, for example, it is reasonable to assume that many of his supporters certainly those among the original Citizens' Committee, would favor Senator Reed rather than Gov. Pinchot. But they would not possess the political practicality requisite to do Mr. Pinchot as much harm as the same power in the hands of Mayor Herron and Senator Coyne.

For all of these reasons, the Governor would like to see the present regime upset. But he will be reluctant to show his hand in the mayorality contest if it is to be a three or four-ringed circus, with the opposition to Mayor Herron diffused.

His especial interest in Judge Smith is natural because it is recognized here that the young jurist is the most direct spokesman of the Governor in Allegheny County. There is prestige involved in the judicial campaign for the Governor as well as for Judge Smith. It would be a sad commentary on the strength of a state administration if its prize candidate should be defeated.

* * *

Fight for Sheriff Important Factor

One possible embarrassment for the Pinchot administration is seen in the Sheriff contest. Sheriff Frank I. Gollmar was appointed by the Governor through the instrumentality of Senator Coyne at a time when the Governor and the Senator were friends. Since the break between the Oakland statesman and the Pike countian the picture has changed, and Gollmar is reckoned as more friendly to the Senator than to the Governor.

Should the independents have a candidate against Gollmar, some one such as Robert K. Cochrane, the Governor might become involved against his old follower.

Judge Smith, it is reliably understood, would support Cochrane in such a contest. That naturally would draw the Pinchot wing into the same camp.

From any standpoint, it is a certainty that the Pinchot administration will have a vital interest in the Pittsburgh mayoralty campaign. The extent to which this interest will be translated into active energetic support of an anti-Herron movement hinges on how far the independent groups can proceed in cementing the differences which exist among themselves at the present time.

$50 in Prizes Weekly for News Tips

Are you alert? Do you wish to make your alertness pay? The Sun-Telegraph is presenting the opportunity. Every week it is offering a total of $50 in prizes for NEWS TIPS telephoned to the News Tip Editor, Grant 6500.

If you know of an accident, of a business merger, of a big building project—that is NEWS. Watch especially for unusual stories about children and animals and for stories that lend themselves to interesting pictures.

For the best exclusive news tip of the week $15.00 will be given, for the second best, $10.00, and for the next 25 best, $1.00 each.

PHONE NEWS TIP EDITOR,

TOOL OF MELLON LAWRENCE JIBE AT COYNE

Democratic Chieftain Explains Failure To Name 'Boss'

Obviously resenting repeated comment on his omission of the name of Senator James J. Coyne from a list of Republicans whose policies he has frequently attacked, David L. Lawrence, Allegheny County Democratic chairman, last night replied to his critics. He spoke before the Democratic City Committee in the William Penn Hotel and said:

"Those honestly seeking an answer to the question of the attitude of the Democratic party toward Senator Coyne could have found it in the record of the seven Allegheny County members of the Legislature who co-operated with me and under my leadership as county chairman, fought Senator Coyne, his party and his legislative measures day after day, week after week, for five months at Harrisburg.

"We are all entitled to form our own opinions as to what constitutes the paramount issues in local and state election campaigns. I still insist that the order of precedence, giving Mellon and Grundy first place, is the proper classification. There are others who do not completely agree with this rating. They insist that Senator Coyne be made the paramount order of the day. Personally, I am of the opinion that inasmuch as Senator Coyne is but the political agent of Mr. Mellon, he should be accorded second place in the ranking of pertinent issues.

"But so far as the Democratic party is concerned, let me say to you with all the emphasis at my command that we will oppose Mellon, Coyne and all candidates sponsored by Mellon and Coyne, and that includes all candidates or factions subservient to the Mellon-Grundy state machine. We will fight them with all the means at our command until the last vote is cast on election day—and afterward.

"There will not be and cannot be any alliance between the Democratic party and such leaders of the Republican party as Mellon, Coyne or Grundy. Our interests are as far apart as the two poles. We have nothing in common, and speaking of the Democratic party in Allegheny County, I guarantee that so far as it lies within my power, there will be no support accorded any candidate for any office who is receiving support from Coyne, Mellon or Grundy, either at the primaries or at the general election."

GRADS TO HEAR MACKRELL

Joseph N. Mackrell will make the commencement address at the Pittsburgh Academy tomorrow night in Carnegie Music Hall. Mr. Mackrell was a member of the class of 1900.

Norman W. Storer, chairman of the board of directors of the academy, with Deans Hennie Munro and J. R. Sullivan, will present diplomas to 72 graduates.

Virgil Wagner will be awarded the University of Pittsburgh scholarship. Other scholastic awards will be made to Anthony Sutton, James H. McCrady, Jr., John D. Culbertson III, and Eleanor Scholl.

PATRIOTIC, CIVIC GROUPS MARK FLAG DAY

Speeches and Parades Pay Tributes to Old Glory on Birthday

Flag Day was celebrated by many fraternal, patriotic and civic organizations throughout the county today.

Speeches, gun salutes, parades and music marked the 156th anniversary of "Old Glory."

The Pittsburgh Chapter, Sons of the American Revolution, opened the day's program on Flagstaff Hill, Schenley Park. A 21-gun salute was fired by the 107th Field Artillery in tribute.

ADDRESS LUNCHEON

Eulogies to the American flag and its defenders were given by Judge Ralph H. Smith and Judge Benjamin Lencher at a patriotic luncheon of the Retail Credit men's Association in the Chamber of Commerce. Judge Smith said:

"The flag is a living symbol of religious liberty, freedom of speech and press, sanctity of person, security of property, equality of opportunity, the right to day in court, freedom from military control, protection in our homes from unreasonable search and seizure and of educational opportunity for all, the rich and poor."

Judge Lencher said:

"Every man and woman, in war or in peace, who lives in terms of sacrifice and not for selfish power, who links his individual aspirations with the social progress of the group, the nation, is a defender of the flag."

BRIGADE TO MARCH

Tonight the Swift Mission Brigade, with its drum and bugle corps of 40 pieces, will parade through the downtown section. The parade will start from the brigade's headquarters, Arch street, North Side, at 8 p. m.

An elaborate community celebration will be staged in McKeesport tonight at the World War Memorial Field. Taking part in the exercises will be McKeesport Elks, Lodge No. 136, the Burt Foster Legion Post, No. 361, McKeesport Turners and the Sloval Gymnastic Sokol Union. Paul H. Griffith, state commander of the American Legion, will be the principal speaker.

ELK CELEBRATIONS

Elks organizations, including Carnegie Lodge, No. 331; Allegheny Lodge, No. 339; Knoxville Lodge, No. 1196, and Sheraden Lodge, No. 949, will sponsor flag celebrations for their respective communities. The Sheraden celebration will be held at Kennywood Park, where the Sheraden school picnic is being held.

Friday night, Etna Elks Lodge, No. 932; Etna Council, Junior Order United American Mechanics, and the veterans' organizations of Etna, Sharpsburg, Aspinwall, Blawnox, Allison Park and Millvale will hold community Flag Day exercises in the Etna Elks' Home. Judge Harry H. Rowand will be the principal speaker.

LEGION TO MEET

The annual field day observance of the Roosevelt Civic Legion, Inc., will be held in the Mayfair Hotel tonight.

Speakers will be David L. Lawrence, county Democratic chairman; Frank Vittor, sculptor; John B. Fortunato, supreme master of the Italian Sons and Daughters of America; Edward O. Tabor, Capt. James J. Firestone and James O. Corbett; Judges Ralph H. Smith, James H. Gray, Sylvester J. Snee, M. A. Musmanno, Benjamin Lencher and Frank A. Piekarski; Representative Henry Ellenbogen, Assistant United States Attorney Raymond D. Evans, Ray Sprigle, county director of property and supplies; Chevalier S. Sunseri and Leo A. Riordan.

The Flag Goes Up!

Clothes, Cash Taken In Two Robberies

Mrs. Frank S. Kaufman, 5715 Woodmont street, reported to city detectives today that her home had been entered late last night and $400 stolen.

Clothing, a radio and trunk valued at $100 was reported stolen from the home of R. A. Kingsley, 14 West Stockton avenue.

West View Adopts Deferred Tax Plan

A deferred tax payment plans was adopted last night by West View Borough. According to the new arrangement, 50 per cent of the taxes will be paid during July and August, 25 per cent in October and the final 25 per cent in December.

Two Sides to Parley, But Only One Buttered

By ARTHUR 'BUGS' BAER

Some cabled addenda from a war correspondent at a peace conference:

On the debt question Europe is hollering, "No quarter? What, not even a lead one?"

There are two sides to every subject. But only one is buttered.

Uncle Sam and Oliver Twist would make an ideal duet. Both of them asked for more. And got less.

London is the seventh conference city. Uncle Sam's money is like the actor's laundry. It was always two towns in back of him.

They're talking cancellation, disarmament, peace, arms equality, reparations, trade reprisals, high barriers, politics, frontiers, economics and finance. That's like a chef specializing on cooking hash.

The United States is like Peary at the North Pole. It has been in the bag so often it might as well learn to sleep in one.

PINCHOT ORDER WILL RULE IN NOTE PROBE

Publicity for Loans To State Officials Not Decided

By MARK SHIELDS

HARRISBURG, June 14.—Officials of the State Banking Department are uncertain whether the results of the inquiry as to notes any member of the Legislative Banking Investigating Committee or Republican State Chairman Edward Martin may have had in closed banks will be revealed tomorrow when the committee meets for the opening of its inquiry.

It is reliably understood that such notes have been discovered, but the Banking Department is not certain of the political effect of their introduction, and will not act without direct orders from Gov. Pinchot. About the department the impression is being spread that William Louis McGee, head of the closed bank department, with offices in Philadelphia, acted on his own initiative in asking administrators of the banks to make a report on notes.

McGEE CRITICISED

Political circles doubt this. The truth seems to be that McGee proceeded without political finesse in writing a letter embodying his demands. He could and should have done it through telephone or verbal orders, if it was to be done at all, is a sentiment held within administration circles.

McGee is being accused of blundering, not in the request itself, but in leaving a written record of it for newspapers to get hold of. There is a bare possibility that McGee may become an early goat of the inquiry, and will be so placed as to appear to have acted entirely on his own initiative.

McGee is expected to be the first witness. He is to be closely questioned as to his motives in asking a report on the notes, according to present plans of the investigators, headed by Senator Harry A. Bell, of Fayette. An effort will be made to place the responsibility on the Governor's office, some Republican organization leaders charging that the move was either an effort to intimidate the committee or to embarrass Gen. Martin.

It is considered significant by organization leaders that only Martin, of the state's Republican regulars, was singled out for inquiry. They point to the feud which has existed between the Pinchot contingent and the state chairman.

McGee, a vigorous fighter, who clashed with a Senate committee in 1925 when he was assisting Dr. Clyde L. King, then secretary of the commonwealth, in the preparation of a state budget, is not inclined to mince words in debate, and a fiery session may be the outcome tomorrow.

Questioning of witnesses, which may include Secretary Gordon, of the Banking Department, probably will be in the hands of Representative Ellwood J. Turner, of Delaware County, a bitter enemy of the Governor.

Inn at Homeville Robbed Once More

For the second time within two weeks thieves broke into the Terrace Inn, Greensprings avenue, Homeville, police reported. Several dollars in change and a radio valued at $68 were stolen in the second visit.

WILL ROGERS SAYS

BEVERLY HILLS, Cal., June 14.
To the Editor, Sun-Telegraph:

Even prime ministers don't get so "big" that they can overlook what they consider an old insult. When Ramsay MacDonald was on the ocean coming over (apparently with all the advantages of a cheap money) why we went off the gold, and he liked to have jumped in the ocean.

Will Rogers

Well, that stuck in his craw, and when we are all ready to be welcomed to the conference (and it was understood beforehand that debts were not to be mentioned), he said, "Ha, ha, my revenge," and remarked as follows: "Debts are not to be mentioned here, and I am not going to mention 'em, outside of just casually hinting that they won't be paid. But outside of that I want you to know that I am not going to say a word about 'em." Yours,

WILL.

GUFFEY SPURNS SENATE RACE

Joseph F. Guffey, informed that the Dauphin County Democratic Committee had urged his candidacy for United States Senator in a drive to wrest control from the Republicans, today reiterated he was "not a candidate for any position, state or national, appointive or elective."

The Dauphin committee also indorsed Warren Van Dyke, Democratic state chairman, according to an Associated Press dispatch, for Governor. Van Dyke was earlier quoted in Philadelphia as saying the next governor of Pennsylvania would be a Democrat.

$25,000 ASKED IN GUFFEY SUIT

NEW YORK, June 14.—(AP.)—Charles H. Fay, attorney and district Republican leader, has filed suit in Supreme Court asking $25,000 for legal services from Joseph F. Guffey, former Democratic national committeeman for Pennsylvania; Joseph P. Tumulty, former secretary to Woodrow Wilson, and William E. Leahy, Washington attorney.

Fay contends he was retained several years ago by Tumulty and Leahy to act for them in New York in connection with an indictment brought against Guffey on a charge of embezzling some $400,000 from the government. Guffey was director of the Bureau of Sales for the alien property custodian.

The indictment lay dormant for some time, and two years ago it was nolle prossed.

BANK OPENING PLAN SENT U. S.

Changes in plans for reorganizing the First National Bank of Wilkinsburg to conform with stipulations of the comptroller of the currency are on their way to Washington, Chief Conservator Martin L. Moore, in charge of the institution, announced today.

He said:

"We have received notification from the comptroller of the currency that if the plans as outlined by him are followed they will be accepted. No acceptance has been received as yet."

WHO DEMANDED THE $400,000? THEY ASK

Kerr Discloses Where Burgoyne's 'Butter in Cooler' Came From

Pittsburgh politicians and bankers today put aside their more weighty problems while they attempted to identify two unnamed men, figuring in the latest politico-banking news.

One was the man, City Controller James P. Kerr said yesterday, who demanded that the city deposit $400,000 in the Pennsylvania Trust Company, in 1931, in addition to $2,400,000 then on deposit and mainly unsecured, lest the bank close.

That man, Kerr said, is a director of the bank. He is a manufacturer who has figured in politics in Allegheny County.

He is said to have told Kerr and City Treasurer Richard W. Thompson that the bank must close unless additional deposits of $400,000 were made.

THREAT OF JAIL

He was turned down. Kerr says James C. Chaplin, then vice president of the Pittsburgh Clearing House, threatened him with jail unless he kept the bank open. But his call resulted in the trust company posting security for the $2,400,000 deposit.

The other man is the one who paid $5,000 so Kerr could start the audit of former City Treasurer Roy D. Schooley's office without too much publicity.

The surprise audit was started, the $5,000 was repaid, and Schooley was indicted on numerous charges with other employes.

Joseph Dilworth and W. P. Witherow of the Citizens' Committee, which was largely responsible for prosecution and deposition of former Mayor Charles H. Kline and Supplies Director Bertram L. Succop, deny the committee paid the money.

THE BIG 'BUTTER' MYSTERY

A problem that has been unsolved nearly two years was solved by Kerr, however, when he declared that the bonds shown him as security for city funds on deposit in the closed Franklin Savings and Trust Company were borrowed for the purpose from the Pennsylvania Trust.

These were the bonds showed him by Arthur G. Burgoyne, Schooley aide, who assured Kerr:

"The butter's in the cooler."

Kerr said he is convinced the bonds, never recovered, were borrowed from the trust company, which had $220,000 in government bonds up as security for the deposit the city had with it.

TRADERS START GOODWILL TOUR

A goodwill bus tour, sponsored by the general publicity committee of the Chamber of Commerce, left today on a trip to West Virginia.

It is the first of four two-day tours to be held to various sections of the tri-state district. Twenty-nine leading Pittsburgh businessmen formed the party touring for the purpose of gaining new business. Walter Rosenbaum was in charge.

Stops on today's tour were being made at Washington, Pa., Waynesburg, Morgantown, Grafton, Clarksburg and Fairmont, where the party will stop for the night. The return trip will be made by way of Wheeling.

MENU CONTEST BRINGS 'SPREE' OF SHOPPING

Never before has Pittsburgh and vicinity had a "shopping spree," just like the one now absorbing the time and attention of housewives. It's all on account of the $100 weekly cash prizes the Sun-Telegraph is offering for the best dinner menus submitted based on the problem in this question:

"Can four persons be served a well-balanced, appetizing dinner menu at a cost not to exceed $1.50?"

Yes, the woman of the home are excited about this contest as never before. One keenly interested housewife called the Contest Editor yesterday and asked:

"Do yoou check up on the prices of foodstuffs quoted in the entries submitted? You see I bought radishes at one cent a bunch and that might look unreasonable to the judges."

PRICES LOW

No, that isn't an unreasonable price. It is a mighty low price, but the fact must be borne in mind that all retail prices for foodstuffs are now at a lower level, although slightly rising, than they have been in a great many years. In fact it is generally agreed that the prices for meats and vegetables are now so low that hundreds of mighty attractive, appetizing dinner menus at a cost of within $1.50 for four persons are going to be the result of this unique and timely contest.

Another woman said:

"I am including an apple pie in my menu. Do I have to give the cost of the apples in my tabulation?"

Yes, the money paid for the apples must go in the list for cash items employed in completing the dinner.

Still another woman said:

"Whether or not I win, the contest is going to get me out of the rut of food buying and the preparation of the daily dinner. I have always tried to be careful and discriminating in my food shopping, but never before has it been brought so vividly to me that shopping, to get the best results, really requires thought and attention. I am mighty anxious to see the prize menus. This contest is going to be a great help to housewives in many ways and I am not surprised that the women are excited about it."

TASK NOT EASY

It isn't going to be an easy task for the judges to make the prize selections and award the $100 in weekly cash prizes for the best dinner menus submitted in the first week's contest. These entries must be mailed or delivered before midnight next Tuesday night, addressed to the Prudence Penny Prize Dinner Menu Contest Editor, Sun-Telegraph, Pittsburgh, Pa.

In another part of today's Sun-Telegraph will be found the rules to be followed and the list of 19 cash prizes starting with $25 as the first prize. Contestants may submit as many menus as they wish and additional entry blanks can be secured at any of the following stores: Triangle Stores, P. H. Butler & Co. Stores, Clover Farm Stores, McCann's, Kroger Stores or Donahoe's.

MINERS TO SEEK NEW DEAL

Means of re-establishing collective bargaining with coal operators under labor provision of the national industrial recovery and control act were to be sought at a meeting of 250 delegates representing 40,000 coal miners in session at the Moose Temple today.

Speakers at the opening session were to be Philip Murray, international vice president of the United Mine Workers; William Hargest, district secretary-treasurer, and John O'Leary, international board member.

Man Getting Drink Falls Into River

Patrons of a restaurant at 438 Penn avenue were excited early today when a man, his clothing wet and muddy, walked in and announced that he had fallen into the river. They called police and the man disappeared.

Later he appeared at Central Police Station and was recognized as an old offender. He said he fell into the river at Stanwix street while attempting to get a drink of water.

Receiver Named For Drug Stores

William J. Hug has been appointed permanent receiver for the Mayflower Drug Stores, Inc., by an order of Common Pleas Court. Bond was fixed at $25,000. Harry A. Larkin and A. B. Charles were named appraisers.

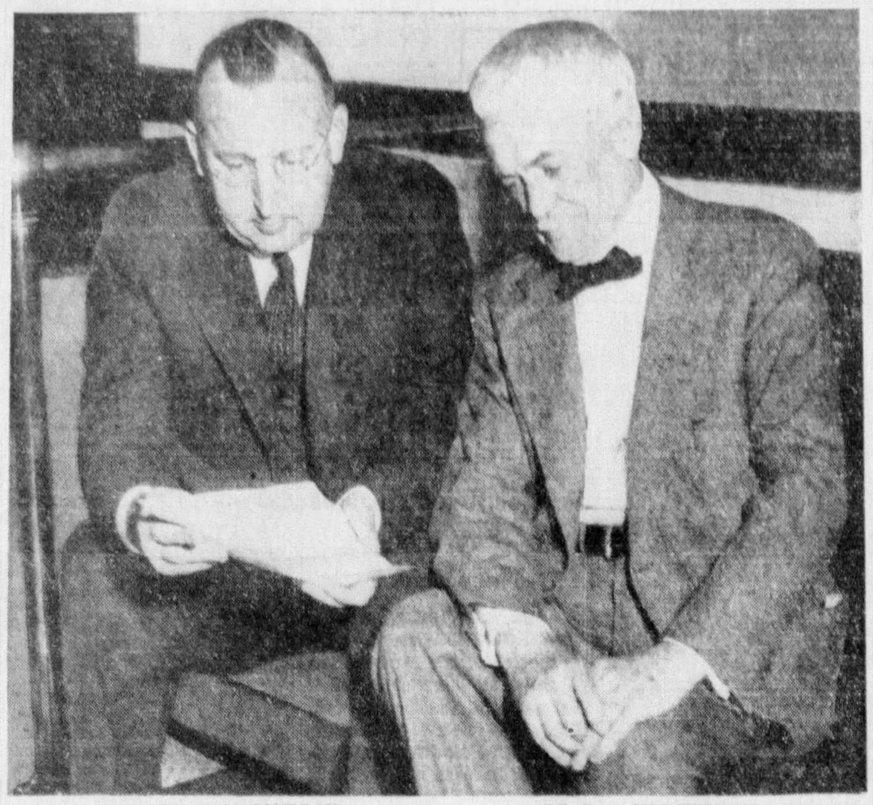
HOSTS FOR CHURCH BIRTHDAY 'PARTY'



THE REV. E. V. CONDRON

The Rev. Mr. Condron, Springdale, chairman of the central local committee, and Dr. Hutchinson, secretary of the American Board of Missions, the general chairman for the Pittsburgh observance of the seventy-fifth anniversary of the founding of the United Presbyterian Church. Delegates will come from many parts of the world. This is a Sun-Telegraph picture.

DR. R. A. HUTCHINSON

Grotto Fish Fry Set for Saturday

Islam Grotto will hold its annual fish fry and sports carnival on Saturday—not Sunday as previously reported — at Turner's Grove, Perrysville.

President of Council Harry A. Little, chairman of the boxing committee, announces a program of eight boxing bouts. The initiation of a class of candidates will be another feature. George S. Youden is general chairman.

Allentown Plant Swept by Flames

ALLENTOWN, June 14.—(AP.)—A fire which swept four buildings of the Lehigh-Bernstein Bedding Company today caused damage estimated by the owners at more than $200,000.

Monroe Freeholder, 50-year-old watchman, trapped on the second floor of one of the buildings, was rescued by firemen but collapsed while being carried down a ladder.

Factory Deaths In Penna. Lower

HARRISBURG, June 14.—(INS.)—Industrial fatalities in Pennsylvania declined from 81 for April to 58 for May while non-fatal accidents increased from 5,534 to 5,803 during the past month, Department of Labor and Industry records showed today.

In comparison with May of last year, deaths dropped 19.4 per cent while non-fatal accidents showed a 13.4 per cent reduction.

POTTERY WORK EXHIBITED AT PEABODY

By PENELOPE REDD

Last night and again today there is an exhibition of pottery by the students of Miss Byrd Neel's classes at Peabody High School.

Miss Redd

"Surely not in vain the substance of the common earth was taken" by a hundred boys and girls to be built into "shapes of all sorts and sizes, great and small," which proclaim the human analogies today that Omar, the poet, found centuries ago.

Barnard Leff, one of Miss Neel's star students, showed some of the tragedies where vases had been built with utmost care only to be destroyed by some fault in firing. He also demonstrated the process of casting a vase, while Ralph Kaminski showed the finishing processes of casting sculpture, and Louie Dean Virgin treadled her home-grown potter's wheel from a converted sewing machine.

Although Miss Neel was disappointed because "the nursery" was filled with ceramics yet to be fired because of a long delay occasioned by an indisposed kiln, to an outsider the exhibition seemed remarkable for students averaging about 16 years.

The students have shown the greatest individuality in solving problems assigned them since no two vases, for example, are similar either in shape or color. Free play of the imagination is best demonstrated in the droll animals which the youngsters evolved from their lumps of mud. Many are the colors in both mat and brilliant glazes running the gamut from the dull surfaced beige preferred by contemporary fashion to the alkali-crackled glazes in the blues and greens favored by ancient Chinese potters.

In the confusion of an exhibition in active progress, it was not possible to identify all of the best work. Students not already mentioned, who contributed exceptional pieces to the Peabody show are Thomas Budd, Frank Walker, William Elliott, Harry Moore, Stephen Sumpter and Burgin Digby.

Baby Injured By Hit-Run Auto

George Suboits, 2, of 1543 East street, suffered bruises when he was struck by a hit-and-run car in Penn avenue, near Eighteenth street, yesterday, police said.

Herman St. Boy Bitten by Dog

Raymond Jacks, 3, of 1359 Herman street, was bitten on the arm by a dog near his home late yesterday. The wound was cauterized at Allegheny General Hospital.

—lagging appetite

There is a reasonable way to correct this condition. Pause and reason. You know that body weakness is frequently the result of a weak blood "picture"—lowering of the red-blood-cells and their hemoglobin—that are so very necessary to strength and vitality.

Then why not try S.S.S.—the proven tonic for decades? Its value has been proved by extensive scientific research and by millions of happy users.

Take S.S.S. and note the way your strength and appetite are restored. Two convenient sizes at all drug stores—the larger size is more economical. Don't permit any one to "switch" you in your determination to restore your red-blood-cells and their hemoglobin content for regaining strength. © The S.S.S. Co.

What does it take TO SATISFY?

Has Chesterfield got it?

A Fair Question and a Fair Answer

For a Cigarette *to Satisfy*—

It must have the right kind of tobaccos.
We honestly believe that the tobaccos used in CHESTERFIELD *cigarettes are of better quality (and hence of better taste) than in any other cigarette at the price.*

It must be made right; uniform, well-filled—
no particles of tobacco getting into your mouth; no hard and soft places.

It must have the right flavor and aroma—
the right amount of aromatic Turkish.

It must reach you just as fresh as if you passed by the factory door.

CHESTERFIELD has what it takes to satisfy. Just try them.

MINE FIRE FUND OPPOSED

The Crafton mine fire has been again brought to the attention of City Council, but a further appropriation to put out the blaze at this time seems doubtful.

The city has already expended $62,000 in fighting the fire, and has yet received only $2,500 from the borough of Crafton, which had promised to pay one-fourth of the cost.

The fire recently broke beyond a ditch dug to control it, but is now for the most part within the borough. Chief City Engineer Charles M. Reppert estimates it will cost $93,000 to cut it off at the present time.

GIRO TO RACE AIRPLANES

An autogiro will race against airplanes for the first time in Pittsburgh July 1, when the 111th Infantry Drum and Bugle Corps opens its two-day air show at Bettis Airport.

Jean Piccard, Pittsburgh girl pilot, will operate the odd-looking machine in the "debutantes' beer derby," the all-woman air race which is to feature the first day of the show.

Five other contestants entered in the race are Helen Richey, Helen McCloskey, Sally Callahan, Helen Ball and Mrs. Rae Trader, piloting regular planes.

Patricia Pitt

That gay whirl of entertainments always preceding a wedding is making time fly for many a June bride-to-be. Betty Marshall, daughter of Judge and Mrs. Elder W. Marshall, of Edgewood, just home from finishing her junior year at Hollins College, Va., is having a delightfully busy time.

She'll marry Gardner Mundy, son of the Harry G. Mundys, of Roanoke, Va., Tuesday, at 5 o'clock in Calvary Episcopal Church.

The Walter Millers are planning a dinner-dance for Saturday evening at the Pittsburgh Field Club honoring Betty and her bridal party. And Monday evening the James H. Bassetts, of Carnegie, will give the rehearsal dinner in their home.

Sunday night the parents of the bridegroom-elect are expected to arrive.

Fashion shows are becoming an epidemic as well as rummage sales. And everyone finds both delightful. The Pittsburgh Field Club women members are going to have a fashion show a week from Thursday, at the club, of course. It will be sandwiched between luncheon and bridge. Daughters of members, I hear, will be the models.

Fashion Display

You know of course that the West Penn Cot Club benefit June 23 at Fox Chapel Country Club will include a fashion show in its attractions, and that, as I mentioned yesterday, the Sewickley Child Health Association will have a bathing beach fashion show Tuesday evening at 8 o'clock at the little Sewickley Creek swimming pool.

A little more news about that rumage sale of rumage sales the Civic Club will conduct tomorrow and Friday in the former Campbell's store, Fifth avenue.

Both Old And New

The unusual thing about this rummage sale is that most of the things on sale are new. There'll be some attic loot, though, to please those looking for antiques.

Mrs. Henry Wittmer, who'll sell furniture bargains, has named her aides—Mrs. Nora Thomas, Mrs. Harry Stockslager, Mrs. E. Seifert, Mrs. Robert Farris, Mrs. William Stieren, Mrs. Ernest Myers, Mrs. D. E. Ferguson, Mrs. E. R. Williams, Mrs. Anna McQ. Collins, Mrs. R. Meyer, Mrs. Ernest McKinley, Miss Anna Fegel and Miss Marie Burnett.

Men's furnishings will be sold, too, under the direction of Mrs. E. K. Coyle. Her co-workers will be Mrs. William P. Epley, Mrs. Ralph H. Sarasin, Mrs. David McCutcheon, Mrs. K. K. Jackson, Mrs. P. H. Dickson, Mrs. J. F. Hunter and Mrs. R. M. Jackson.

Counter For Men

Mrs. Ferdinand Weil, chairman; Mrs. David Craig, Mrs. Frank A. Demms, Mrs. Frederick W. Fraley, Mrs. C. S. B. Ward, Mrs. A. Leo Weil, Jr., Mrs. L. Williams, Mrs. Ralph Watkins and Mrs. J. S. Lanahan will sell books and leather goods.

At the medley booth — sounds fascinating, doesn't it?—Miss Alice Wells will have as her saleswomen Miss Virginia Davis, Miss Josephine Roush, Miss Alice Taylor and Miss Mary Ellen Taylor.

The Junior League went to the Edgeworth Club yesterday for its annual meeting and luncheon. But before the annual meeting, delegates gave their reports of the recent conference in Philadelphia.

Annual Luncheon

Phyllis Totten told about the entertainment of the delegates; Mrs. John E. McKelvy, about the Junior League mazagine and the Scribblers' Club; Helen Leovy, about changes in the Association's policy; and Mary Carroll, about salvage shops.

* * *

Dr. and Mrs. Raymond Elmore Earp have a son, born Saturday at the West Penn Hospital. Mrs. Earp is the former Gretchen Vandervoort Schoonmaker, daughter of Mrs. James M. Schoonmaker, of Sewickley Heights.

Bernice Austin to Give Concert for Sorority

Bernice Austin, pianist, who will return next month to Shanghai to be head again of the music department of the American University there, will give a concert tonight with Robert Eicher, violinist, and Ero Davidson, 'cellist, in the College Club.

The Nu Phi Epsilon, a musical sorority, is sponsoring the concert, and Mrs. John E. Nelson and Mrs. F. F. Rohrer are patronesses.

* * *

Mrs. Cornelius Casey, of Mt. Royal boulevard, Glenshaw, entertained the Keystone Association for Historical Research at a luncheon and garden party yesterday. Mrs. Eugene Gaskill is the re-elected president of the association.

* * *

Election of officers is being held after the program at today's meeting of the Lutheran Women's League in Trinity Lutheran Church, Stockton avenue, North Side. The program includes an address and music.

* * *

Mrs. F. E. Bishop and her daughters, Miss Ellen Jane and Miss Hazel Millicent Bishop, leave today for a two-week visit in Chicago before going to Madison-on-the-Lake for the summer.

* * *

For its radio observance of Flag Day, the State Federation of Pennsylvania Women will present Franklyn Blackstone over KDKA at 3:45 o'clock tomorrow.

* * *

A card party will be held next Wednesday afternoon at Spear's by the Auxiliary to Observatory Post No. 81, American Legion. Mrs. Andrew Frazier is chairman.

* * *

Mrs. William French Banks, who has been wintering in Florida, is the guest this week of Mrs. P. L. Andrews, of the William Penn Hotel. She will leave later for her home in Absecon, N. J.

* * *

With Miss Mary Purdam as the general chairman, the Beaver Junior Woman's Club will have a dance at Greystone Gardens tomorrow evening.

Rockledge Garden Show Attracts Large Crowd

The Rockledge Garden Club flower show which was held yesterday in the Waverly Presbyterian Church attracted large crowds both afternoon and evening. One hundred and six entries were shown, some of the most distinctive being the roses and the miniatures. Among the latter was a tiny china chair and a perfumed Japanese vase holding wee bouquets.

There were several shadow box arrangements that attracted attention also. Formal dinner centerpieces, breakfast, garden, tea and Sunday night supper table arrangements were included, too. Mrs. Elsie McFate showed a miniature rock garden with 14 varieties of cedum.

Among the prize winners were Mrs. C. C. Brinton, Mrs. R. D. Beardsley, Mrs. Alexander P. Lindsay, Mrs. William Christopher Dierks, Mrs. J. G. McAbee, Mrs. S. M. Young, Mrs. F. D. Newbury, Mrs. H. Stanley Rogers, Mrs. S. A. Chalfant, Mrs. F. F. Rohrer, Miss Mary Fisher, Mrs. C. W. Heppenstall, Jr., Mrs. J. S. Foster and Mrs. F. G. Love.

More than 100 members of the club attended the charming buffet luncheon given by Mrs. Lindsay, the former president, in her Briar Cliff road home before the show opened.

Gossipy Chat With Nancy Jane

Eleanor Grier, one of the most faithful of the Stage and Play Society, had a bad cold this spring, but a new favorite dress she wore almost constantly, helped to relieve her depression a bit.

One day while she was visiting her sister, Mrs. Arthur R. Little, her little niece and namesake, Eleanor Grier Little, asked:

"Aunt Eleanor, why do you wear that dress all the time? Are you afraid that if you wore another one it might catch cold, too?"

* * *

Almost any morning if you telephone Mrs. B. F. Jones III, you'll be told that she is working in the garden, famed for its beauty.

* * *

At the West Penn Hospital benefit June 23 at Fox Chapel Country Club, the aides are going to wear peasant costumes of all countries, as well as seeing to it that the beer of all countries is served.

* * *

Playing ball is a favorite diversion of the many little boys to be found frolicking any warm afternoon in the Little Sewickley Creek swimming pool. Their huge ball is of brilliant blue and white rubber.

* * *

Longue Vue Club's swimming pool is being built now—near the tennis courts. It's supposed to be finished within several weeks.

Patricia Pitt's Comment on Pittsburgh Society Happenings

THREE HORSEWOMEN: A SEWICKLEY HUNT TEAM

Photo by Pittsburgh Sun-Telegraph.

MISS ALTHEA ROBINSON MISS BERTHA BROOKS MISS JANET M'KINNEY

THE SEWICKLEY LADIES' HUNT TEAM...PRACTICING FOR THE GYMKHANA SATURDAY AT ALLEGHENY COUNTRY CLUB

Jennie Bruce Married to J. H. Alter

Mrs. George H. Quaill, of Howard street, Bellevue, announces the marriage of her niece, Miss Jennie Bruce, to Jay H. Alter, of Bellevue. The ceremony took place in the home of Mr. and Mrs. John H. Bragdon, of Teece avenue, Bellevue, on Saturday morning at 9:30 o'clock. Officiating was the Rev. Dr. Ralph B. Urmy.

The bride was attended by her niece, Miss Rhoda Jane Bragdon. Dale M. Philipps played the wedding music.

After July 1 Mr. and Mrs. Alter will be at home in Elizabeth avenue, Avalon.

* * *

More than 100 members and guests were present yesterday in Mrs. L. L. Thompson's home, Marlborough avenue, when she entertained the Woman's Auxiliary to the Allegheny County Medical Society at a musicale-tea. The program was by Mrs. Glady's Dove, contralto, who was accompanied by her son, Joseph Dove; Mrs. F. C. Rote, who read a one-act play, "Between Trains," and Charles Schotts, who contributed piano solos.

* * *

Mrs. Carrie G. Zitsman, of Maple Terrace, Mt. Washington, will be hostess tomorrow for the closing meeting of the West End Women's Literary Club. Luncheon will be served at 1 o'clock and will be followed by a surprise program in charge of the program committee.

Bradford Woods Juniors To Give Musicale Sunday

In honor of the seniors and the mothers of the juniors, the Bradford Woods Junior Civic Club will give a musicale tea on Sunday in the home of Miss Margaretta and Miss Dorothy Martin.

Miss Dorothy Martin, as chairman, is being assisted by the social committee, Miss Jane Crumay, Mrs. Raymond A. Marter, Miss Lois Hartman, Miss Kathryn Hannan and Miss Dorothy Dent, and the reception committee which includes Miss Dorothy Morozowicz, Miss Mary Crumay, Mrs. William E. Marter and Miss Anna Mary Scott. Mrs. William J. Martin will pour.

P. T. A. Council Plans To Be Given Tomorrow

Policies for next year will be outlined and the new officers will be introduced at a meeting of the Pittsburgh Council of Parent-Teacher Associations tomorrow afternoon. It will be held, as usual, in the Board of Education Building.

Court Chartiers, C. D. A., Benefit Dance Friday

As a benefit for its priesthood scholarship fund, Court Chartiers No. 508, Catholic Daughters of America, will have a dance and card party in the Knights of Columbus and St. Phillips' School Halls on Friday evening. Miss Kathryn Connell, general chairman, has the assistance of a number of committees.

School Faculty Honors Bride Of June 24

The faculty of Liberty School entertained at a bridge party in the Woman's City Club Friday evening, June 2, in honor of Miss Mary E. Handlon, Miss Handlon, who is the daughter of Mr. and Mrs. W. H. Handlon, of Avondale place, has named June 24 as the date for her marriage to Alexander Maxwell, commissioner of immigration at the port of Philadelphia.

Miss Grace Swan, former director of primary education in Pittsburgh, and Mrs. J. J. Coll presided at the tea table.

Miss Handlon is a member of the faculty of Liberty School.

Literary, Musical Club Will Take Up Study Of South America

By MRS. CHARLES M. BREGG

After its president's day on October 9, the Pittsburgh Literary and Musical Club will take up the year's study of South America, previewing it and discussing Pan-Americanism as an auspicious beginning. Under the title of "Makers of South America," papers will be given on "The Patriot San Martin," "The Rascal Pizarro," "The Much Loved Bolivar," "The Hated Rosas" and "A Cruise Around the Coast."

The fall musicale is set for November 20, then in their order will come programs on "West of the Andes," "Cities West of the Andes" (together with a Christmas social), "Crossing the Natural Barrier," "East of the Andes," "Unusual Cities in Eastern South America," "Southern South America," "The Argentine Republic," "The Two Inland Countries," "Columbia—the Country of Two Seas," "The Guianas and Venezuela—Our Nearest Neighbors."

Each day will, of course, have its customary musical program and there's the spring musicale in March and the June outing to lend variety to the year. Mrs. Ben Graham is president for next season.

Knoxville Library Club Will Meet In Summer

Activities are to be continued through the summer by the Knoxville Library Club Juniors who will have a luncheon on Saturday at Grey Stone Castle, Brownsville road. In July a garden party will be held at the home of Miss Helen Studer.

Mrs. Bernard J. Barth has been re-elected president of the auxiliary and in her official family next season will have Mrs. Henry Oates and Mrs. Harry Solbach, as vice president; Mrs. Krehan Hutton, recording secretary; Mrs. Gordon Scott, corresponding secretary; Mrs. Fred Erskine, treasurer, and Mrs. Robert Hubbard, pianist.

* * *

The Epworthian Players, a dramatic club composed of Epworth League members from 11 South Hills Methodist Episcopal churches, will present "Safty First," a comedy by Sheldon Parmer, as the final production of this season.

Miss Morris

The cast includes Wilda Morris, Edith McWee, June Williams, Marie Seabergh, Clair Miller, John Davis, Gilbert Arnold, Ralph Davis, George Dobbins and H. B. Trautman.

* * *

Vision tests for children 3 and 4 years old have been successfully made, Miss Evelyn M. Carpenter, of the State Council for the Blind, told the Child Health Association at a luncheon meeting in Kaufmann's yesterday. Miss Carpenter, speaking on "Saving Our Children's Eyes," said it is less expensive to save sight than to educate after blindness.

TELL IT TO ELSIE

Follow This Unusual Feature Day by Day

By ELSIE ROBINSON

Man Should Decide for Self When Choosing a Wife

Does he love 'em, or doesn't he love 'em? He dunno! And he wants us to straighten him out.

"Can a fellow love two girls at the same time?" he moans. And then he explains that Lil is so sweet and tells him such grand things about himself, while Mary—

Well, he thinks Mary, maybe, is The One; but then he remembers Lil—and—well—there you are!

So, will we please tell him which one to choose?

Will we?

Dear Elsie Robinson—

You've helped others, so won't you please help me? I don't know what to do.

Three years ago I met Mary. We took a liking to each other right away. I thought the world of her. She was the cutest thing, and I know she loved me. We had intentions of getting married some day, and often talked of it.

Well, as sweet as we were on each other, we never could get along, but were always scrapping and calling each other mean names. Our going together lasted a little over a year, and then we had a quarrel involving the pasts of our families, so we called it quits, and broke away, still loving each other but putting our pride between us.

Then for a year I went out with other girls until I met Lillian. I fell for her right away because she was pretty and had a nice disposition. She loved me and treated me swell, and we got along fine, so I figured she was the girl for me. I am still going with her. I've gone with her for a year and have talked of marriage, and we're secretly engaged.

MET OTHER GIRL

But my family is against her because they all liked Mary so much. They can't see this other girl at all. I ignored all that, but about a month ago I met Mary again. I hadn't seen her for a long time, and we were both glad to see each other. She treated me real nice, and I could see that she still loved me. However, when I left her I didn't think much about our romance, still thinking I was madly in love with Lillian.

Then I met Mary again, and this time it was different. She told me she had heard about Lil, and asked if I loved her and was going to marry her. I changed the subject and didn't let her know. Then she said she still loved me, and would try to get me back if it weren't for Lil, and that she'd wait for me if I wanted her.

She said she had changed, and was sure we could get along together now if we made up. She said she always looks at my picture and thinks of the past. She had me in such a mood that I hated to leave her.

MAKE OWN DECISION

Well, I began thinking about her and comparing her to Lillian, and I find I still love her and want her, but I love Lillian, too, and don't know what to do. Lillian treats me nice and calls me the nicest things, and I know I would be happy with her. But my family doesn't like her. Mary never treated me nice, and called me mean names, but I did love her and do now. Maybe I'm being selfish. I don't know. Please, will you tell me what to do, and and whom I should choose?

BARNEY.

So I'm supposed to pick your wife for you, am I? Nope! Not me, brother! If you can't pick your own wife, without any help from anyone, family included, you don't deserve to have one.

And, as a matter of fact, I don't believe for a minute that you're really in love with either of these girls. You're just flattered by the "nice things" they've both said to you, and you're getting a great bang out of the whole situation.

Cut it out! Grow up! Stand on your own feet. Stop wobbling around. Stop playing one girl off against the other. Stop wavering in your mind, because one of 'em tells you what a Grand Guy you are, and begin to think about whether or not you have anything worth while to offer any girl. If you don't, you'll end up being a Pain-In-The-Neck to yourself and everyone else.

(Copyright, 1933, King Features Synd., Inc.)

Fay King Has Had Big Toothaches, But Still Sticks by 'Em

A FEW FACE-LIFTINGS MY TEETH HAVE GIVEN ME
I MUST ORDER AN OTHER TON OF TOOTHACHE PLASTERS!
NATURE SHOULD HAVE GIVEN US MORE THAN JUST TWO SETS OF TEETH!
FAY KING

By FAY KING

Nobody in this world, I think, has had more toothaches than I have had. Every once in a while I am tempted to have every tooth in my head pulled out and get myself a nice set of non-skid uppers and lowers, and have peace for the rest of my life.

But after having one tooth pulled I always decide to struggle on with the rest while they may last.

It seems to me that we get our second supply of teeth at entirely too early an age. How handy they would come in later on. Teeth have always been my trouble and you get no sympathy for toothache.

The worst part of it is that I can't laugh when I see how comical I look!

Heart of a Wife

Continuation of Love's Reawakening

By ADELE GARRISON

Madge Succeeds in Bribing Tony

At Tony's skeptical demand of "Show me the hundred," an icy breath touched the newly budding hope that had come to me when he had consented to listen to my appeal to cut the knotted thong with which Nick had bound my hands to the fence. With my hands bound, I could not get the $100.

"I can't get it with both hands bound," I whispered. "If you'll just let me have one hand loose, you can hold fast to the other, till I give you the money. And I'll take all of the rope with me. Nick will think I managed to untie it, and you need know nothing about it."

I had thought him slow of comprehension and action, but as I finished he lifted the knife with which he was working at the rope and slashed the thong through, releasing my left hand. At the same time he seized the other in a grip so brutal, so crushing, that I almost shrieked with the pain.

"Get that hundred and be quick about it" he whispered. "If you double-cross me, I'll croak you and tell Nick you were getting away."

I thrust my hand into my dress, and took out the envelope holding the money. He took it, turned his body so that Nick could not see his movements, and with deft movements of his free hand opened the envelop and examined the money with the aid of a tiny pocket flashlight that he also manipulated with one hand. Then with a satisfied grunt, slid both money and flashlight into his pocket, and slashed the other pieces of thong, thrusting all the pieces into my hands.

HURRIES AWAY

"Beat it quick," he growled. "If Nick catches you and you tell him I helped you, I'll croak you with trimmings, if it takes a thousand years."

"I'll never tell him," I quavered, then realizing that he really wished me to get away, I asked breathlessly:

"Which is the best way to go?"

He did not answer for the fraction of a second, then with his hands still fumbling with the rope at his feet, he mumbled.

"Toward Jerry's you fool. He won't go there, or think you dared to."

I thanked Heaven for the bushes that lined the fence, making it possible for me to run along the plowed field next to the fence with only a little stooping of my body. Without another word, I set off in the direction of Jerry's at the fastest pace I dared, slow enough, in all conscience, for I feared stumbling upon the plowed ground, and making some noise that would attract Nick's attention.

SUSPICIOUS SOUNDS

I did not dare to turn my head to see what Nick and Tony were doing, but I had enough faith in Tony's low cunning to believe that he would delay Nick's discovery of my escape as long as possible. What lay before me, I had no idea, did not dare to conjecture. The references to Jerry and his hide-away that Nick and Tony had made, and the glimpse which Ronald had caught of sinister preparations for defense at the gateway to his stronghold, told me that no mercy was to be found there, even if I could enter it. But with the conviction that Tony's reasoning was sound, and that I was traveling in the one direction Nick would not take, I struggled on, determined to get as near as possible to the boundaries of Jerry's domain, and there to wait for an opportunity to get back to Marion and Ronald.

For the first few yards I was so absorbed in the mad primitive impulse to escape that I paid no attention to anything else. Then I wondered if my fevered imagination was at fault, or if there were sounds to the right of me—stealthy sounds as of suppressed breathing and cautious movements along the plowed ground.

I halted my onward flight instantly, stepped aside so that I was farther in the shelter of the bushes with my back against the fence, and waited tensely. There had been no sound as yet from Nick indicating that he had discovered my escape, and I was sure that it was not he who was stalking me.

And then, to my horrified anxiety, Marion's voice said softly:

"Auntie Madge! Oh! Auntie Madge, wait!"

The Beauty Box

By HELEN FOLLETT

A good pack to brighten copper-colored hair is made by mixing three tablespoons of powdered Egyptian henna with hot water and a teaspoon of peroxide. Apply quickly, putting it on at the back first, using a small brush. Let remain on seven minutes. Give a rousing shampoo followed by a lemon rinse.

New quirk is to paint a widow's peak on the brow. The medium used is a mascara that matches the color of the hair. Doubtful if this artifice fools anybody, but we don't know as that matters, if it makes the little sibyls happy. Plucking stray hairs from the border of the forward hairline is another diversion. As if eyebrow torturing were not enough!

With the swimming season looming on the calendar, bathing beauties will find leg fuzzers annoying. A depilatory can be used to banish them. Or, if one wishes, one can bleach the growth by using peroxide to which a few drops of ammonia have been added—two drops of ammonia to one tablespoon of peroxide. Several applications will be necessary.

Correct Manners

By MRS. CORNELIUS BEECKMAN

Mourning

Dear Mrs. Beeckman:

There is a friend of ours who lost her parent. This friend is about 30 years of age.

1—A thinks she should wear her veil six months down over her face, and then wear it thrown back for six months.

B thinks three months is enough to wear a veil over the face.

2—Which is proper . . . a mesh veil with a black border, or a black silk veil with a heavy border?

Who is right, A or B?

READERS

So thoroughly indefinite have become the customs of the wearing of mourning that nowadays each one is left to his or her own decision about what to wear and how long to wear it. All "regulations" for mourning have long since been abandoned, and instead of definite rules we have left only our personal choice in the matter.

About two years ago there seemed to be only one definite rule left . . . that the closest relatives of the deceased wore veils to the funeral. Now even this suggestion has practically been given up. However, again this should be reasonably abided by, and if there is any comfort or convenience to us in wearing a veil, we should wear one.

The same fundamental common sense and reasonableness apply as the answer to all the questions concerning wearing mourning. One seldom sees now the heavy-hearted mourning veils either plain or crepe-bordered, but there is no reason why we shouldn't wear one if we wish. And we should wear it or any other detail of mourning for as long or as short a time as it gives any comfort to our spirit. It is what is in our hearts, what we feel in our spirits, that counts. It is what we wish to do.

Walking Etiquette

Dear Mrs. Beeckman:

1—I would like to know whether a man is supposed to walk in the middle or on the outside when walking with two or more girls?

2—I would also like to know what side of a girl the man is supposed to walk when they are not walking on the street?

M.

1—The man walks on the side of the pavement nearest the curb, when he is walking on the street with two women.

2—The "lady on the right of the gentleman" is the best rule.

How to Keep Well

By DR. ROYAL S. COPELAND

Mumps Is a Serious Affliction

In my mail the other day I had an amusing letter from a young child who was suffering from mumps. "The doctor says I have mumps and that I cannot go to school. Please tell him he is wrong, for I want to go to school."

Dr. Copeland

I was sorry I could not follow instructions of my young correspondent. Mumps is an infectious disease, quickly spread from one child to another. For this reason it is advisable that during the height of the disease the child be kept in bed and away from other children.

"Parotitis" is the medical name for mumps. It means an inflammation and swelling of the saliva-forming gland called the "parotid gland." This is located in the tissues just below the lobe of the ear.

When the gland is infected, the face and neck are swollen. The jaw is stiff, so that talking, chewing and swallowing are difficult and painful.

Contrary to a common notion, the disease may afflict young adults. It is of frequent occurrence among young men between the ages of twenty and thirty. The disease is exceedingly rare in early infancy and beyond the age of forty. As a rule, one attack protects against further attacks, but cases have been reported of second, third and even fourth attacks.

In children, the disease is usually of a mild nature. It is more severe when it afflicts adults. Complications are more prone to occur in adults than in children. Kidney diseases, nervous conditions, sterility, impaired hearing and, in some cases, deafness, have resulted from severe attacks of mumps.

During the illness the mouth should be kept scrupulously clean. Use an alkaline mouth wash at least twice a day. The diet should be light and nutritious and consist mainly of fluids. The danger of complications is greatly lessened if the victim is kept in bed. The disease usually terminates within a week. Quarantine should be maintained for at least two weeks.

Do not look upon mumps as a mild disease, and never wilfully expose a child to this affliction. Mumps, measles, chicken pox, scarlet fever and diphtheria still continue to be serious hazards to the health of our children. Let us protect them by taking the necessary precautions.

(Copyright, 1933, King Features Synd., Inc.)

SUMMER COMES TO TOWN WITH FASCINATING ACCESSORIES

WHEN SUMMER comes to the Colony Restaurant in New York, summer can be authoritatively said to be here. Acceptance of tentative trends can best be measured in this very, very smart place. So we send our eagle-eyed scouts to snoop there, pencils in hand. They come away rewarded with more than lunch.

* * *

WE WERE charmed with the last sheaf of sketches made across the restaurant's snowly table cloths. The clothes are romantic, mid-victorian, definitely picturesque. There's nothing standardized about them. For instance, there was a feminine frothy organdie blouse that had us all in a state of envy. Tiny accordian pleated rows of Val lace marked across it, tightening up at the throat, dog-collar fashion. Modest as a little girl's dress and by the same token thoroughly sophisticated. Very 1900, too, with its longish black cape and naughty black gloves.

* * *

AT THE next table was a modernized Gibson girl. On her carefully coiffed head was a bright red and shiny straw sailor dipped perilously over her nose. So shallow was it that it was held on by a narrow red ribbon in the back. The daisy trimming was cocky. When she got up to leave we saw that she was wearing all red, dotted with almost imperceptible white pin pricks.

* * *

ON HER right is sketched a young girl whose hat turned up all the way round. Close your eyes and you can imagine wide streamers trailing down the back over flying pigtails. This is the sort of thing which happens when all the youngsters take to roller skating on Park avenue. Then there's a cartwheel hat, and you must have at least one, preferably, like this, they should be largely innocent of trimming, relying on their shapes for their success.

* * *

IN THE foyer we saw a girl all in black, from her satin sailor with a little bird demure under the brim, to the hem of her dress. This was high and close at the neck with jeweled clips, had plaits around the hips. Her gloves were simply huge, and, of course, black.

(Copyright, 1933, King Features Syndicate, Inc.)

Household Hints

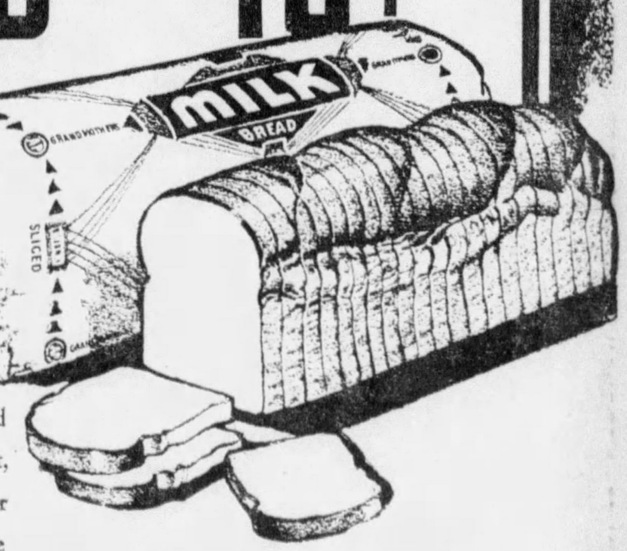
When potatoes do not dry sufficiently to mash, a little baking powder sprinkled over them will have the desired effect.

A lump of sugar added to cold tea used for cleaning black walnut or oak furniture will impart a rich and lasting gloss to the wood.

To prevent difficulty in removing corks from bottles, place a piece of tape across the mouth of the bottle and push the cork well in, leaving the ends of the tape hanging outside. The loose ends will enable you to remove the cork easily.

Because raw food is prepared chiefly at the sink the housewife should keep near the sink such implements as brushes, knives, colander, strainers and garbage can. Small stores of the less perishable fruits and vegetables may be kept in a bin under one of the drainboards.

A&P's SENSATIONAL new LOAF...
Grandmother's
WHOLE MILK BREAD • 24 OZ. LOAF 10¢



The newest member of the A&P bread family. A long loaf with a thick, soft, golden brown crust, ready sliced for convenience. Made with pure whole milk, containing the full amount of butter fats as prescribed by the U. S. Bureau of Standards. Grandmother's Whole Milk loaf has a delicious flavor, and is the ideal loaf for every purpose. Buy a loaf today at your nearby A&P store.

"Something Entirely Different in White Bread"

THE GREAT ATLANTIC & PACIFIC TEA COMPANY

A&P ESTABLISHED 1859 "WHERE ECONOMY RULES"

Walter Winchell ON BROADWAY

Adam and Eavesdropping in Hollywood.

Flash!—The Clark Gables are on the verge, again! . . . Antonio Moreno and Jocelyn Lee are plenty Caliente . . . Eleanor Holm, the Olympicutie is doing 4-a-day at the Los Angeles Paramount, and she isn't on the program—but Art Jarret is . . . Eleanor has broken the definite decision to C. Laemmle, Jr. . . . "Bed of Roses," the Connie Bennett flicker, brought raves from local critics for Pert Kelton . . . So Pert has been summoned back for re-takes to have her ace scenes "altered" . . . The recently reconciled Baron Von Rombergs have decided it simply won't jell. He's back without her . . . The 4 Marxmen's alleged fighter doesn't know why he won from Wally Hunt yet! He's no bargain—Zeppo could lick him.

Jack and Peg Chadbourne are fading . . . Mae Murray and Lieut. Gov. Vic Myers, of Washington, are going gay . . . Ruth Roland is soloing it to Yurrop this week—business . . . If you really adore Marie Dressler, never ask for her autograph—it's the only thing that tires her, and she isn't that strong, yet, no matter how brave she attempts to appear . . . Fred Stone's little girl, Paula, and Robert Taplinger of Columbia B'easting Co. are Crawford-Tone'ing it . . . Add nifties: Jim Tully's on H'wood: "Put a fence around it and it's Armour's packing plant!"

Aimee Semple MacPherson, the evangelist, is fading with local hallelujah screechers . . . Her groom, desperate for an attraction, put on a torso tosser, who was jerked after two performances, however . . . Countess Di Frasso and Gary Cooper, who chilled recently, are on the mend. Gary went for a diamond bracelet again last wk. . . . a real one! . . . The Jack Warners are giving each other looks, after all these years . . . The Skeets Gallaghers anticipate their second income tax exemption shortly, and the Big Crosby's event is due in a fortnight . . . Mae West's heart, Jim Timony, is suing Fawcett Publications because of a yarn which said he had a wooden shaft, which he ain't.

Orchids to Bing Crosby's version of "Someone Stole Gabriel's Horn," a hot plate . . . Ditto to Morgan, the magnificent, at the Embassy, when she canaries: "I Gotta Pass Your House" . . . Orchids to the grandest of the arrangements on "Let's Call It a Day" (Abe Lyman's) when the choral crew obligatos Gracie Barry's tenoring—a grand thing . . . Scallions to the Hollywood musical cinema producers, for not being hep to the fact that Gordon & Revel are tops in the song hit division, and for hiring the also rans . . . Scallions to those who failed pretty Jerry Rogers of the Ed Wynn show—resulting in her death leap, poor kid.

Eddie Hillman won't become reconciled to the fact that Marian Nixon has legally divorced him. He raps at her cottage door, but she is deaf . . . Merian C. Cooper, radio production monarch, just can't read a story for production without seeing a part in it for Dorothy Jordan . . . Mervyn Leroy says the Doris Warner incident has never reached the wedding gong stage, and Gloria Shea wishes they wouldn't marry her to Master Toplitsky, who, she says, is merely her pash . . . They tell you that what really happened with the Darryl Zanuck-H. Warner split is that one day at luncheon before a group, Zanuck was threatening to quit and Warner said: "Will you put that in writing?" . . . And that Zanuck simply had to—after that.

Major John Zanft, who came here to "front" for L. B. Mayer, throwing up the sponge, and returning to the New York brokerage business . . . The hottest dice-hurler in town is La Harlow . . . Joan Crawford's grand tan is acquired by hours of sunning in her back yard . . . Neighborhoodlums have found two tiny holes in the shrubbery, which is among other things Joan never knew till now! . . . Good old Hollywood, with rare "common sense" is casting Reginald Owen, that fine English actor (who specializes in smart drawing room dramas) in Westerns! . . . Talk about picture-snatchers!—L. Parker, a news hocus-focuser, and Viola Irene Cooper will sue Warner's over Cagney's "Picture-Snatcher," allegedly thefted from "Birdie Man."

Woollcott arranged Harpo Marx's four weeks in Russia—two in Moscow and a pair in Leningrad . . . The Jean Malins have deferred that divorce again . . . Add startling news items—Mary Eaton, a Ziegfeld star, will be seen in the chorus of Joan Crawford's "Dancing Lady!" . . . Bryan Foy has a flicker named "The Strange Case of Tom Mooney," with the renowned prisoner as the star! . . . But the flicker firms can't release it—bankers, you know. . . . Billy Wilkerson's car was thefted by two kids, who, attempting a getaway in haste, crashed and were killed . . . They are buzzling about the Wm. Powells (Carole Lombard) again . . . Kay Francis has 4 servants in a 5-room house.

Che-ak, imported to H'wood by MGM from iceberg land for the lead in "Eskimo," has gone completely Hollywood . . . He came here with his Eskimo frau, but they've phffft. She couldn't keep his pace . . . Not a single, solitary line from "Design for Living" is retained in the screen version that Ben Hecht made from N. Coward's hit . . . Upton Sinclair has been exiled from the campus of the Univ. of Cal. for sentiments in "Goose Step" . . . Lily Damita, weary of being called Sidney Smith's girl, is resigned to the inevitable, which means any day now . . . Connie Bennett and Gilbert Roland are making it public . . . Add definitions of love—Insomnia of the heart.

(Copyright, 1933, Daily Mirror, Inc.)

Bobs Hair and Name To Get Role

In order to win the part of a carefree girl in "Shanghai Madness," featuring Spencer Tracy, Miriam Jordan changed her name to Mimi, had her hair cut short and took on that mundane attitude typical of the modern young girl. Fox executives, who before then had thought of her only as a cold beauty of the sophisticated type, cast her immediately in the leading feminine role of the swashbuckling story.

Newcomer

Margaret M. Connell looked so [illegible] in the Chanel ads of which she was the model that Metro-Goldwyn-Mayer signed her for pictures.

'When Ladies Meet' Opens Tomorrow

"When Ladies Meet," is considered by Manager Cullen of the Penn to be sufficiently important to warrant an opening in advance of the regular day in that theater. Consequently this screen version of the successful Rachel Crothers stage comedy will have its first showing Thursday, instead of Friday, the current attraction, "The Devil's Brother," closing tonight. "When Ladies Meet" is acted by a cast including Ann Harding, Robert Montgomery, Myrna Loy, Frank Morgan and Alice Brady, the latter making her first screen appearance in eight years. It is the first talkie for this former star of silent movies.

Green's $1 Pay Check In $2 Frame

Harry Green won't get any benefit from his first week's salary check of $1 for work in "This Day and Age." He's had it framed at a cost of $2.

CINEMA

Actress New To Screen Comer

By HARRISON CARROLL

(Copyright, 1933, Daily Mirror, Inc.)

HOLLYWOOD, June 14.—Make a note to see Frances Fuller in "One Sunday Afternoon," for they're telling the world she'll be a star.

Miss Fuller

Before her first picture is completed, this wistful young actress has been named to play the lead in "Chrysalis" and after that to appear with Gary Cooper in Max Miller's harbor story, "Capt. Jericho." Miss Fuller is a discovery whom all the studio scouts overlooked. She came out here on a chance, hired an agent and eventually went over to Paramount for a routine interview. To everybody's surprise, including her own, Director Stephen Roberts snapped her up for the heroine of "One Sunday Afternoon."

There are plenty of bidders for her services now. Grover Jones and Bill McNutt specially requested Frances for their first picture, "Capt. Jericho."

* * *

As if to reproach the Marx Brothers for their wisecracks, Canvasback Cohen won his fight by a technical knockout.

In the fifth round of the succeeding match, Groucho convulsed the customers by jumping to his feet and exclaiming:

"What round is this? What fight is this? What club is this? I'm in a daze—happy days—I should be back there with my boy!"

Says Chico:

"He fought the whole fight on nerve—my nerve!"

* * *

Whatever other producers want, Clara Bow is under contract to make three more pictures for Sam Rork. One of these is at Fox. If there's any deal after that, Rork will have to make it.

* * *

Miss Bow

Come August 18 and Dick Arlen's contract will be up at Paramount. It wouldn't surprise me to see him leave there for another studio. . . Among the offers received by Constance Bennett was one from Metro-Goldwyn-Mayer. She turned it down, they'll tell you, because she figured there were too many other big stars on this lot.

Loretta Young goes to Columbia for the Frank Borzage picture, "A Man's Castle," before she leaves on her vacation.

It's hard to believe but it really happened. At the premiere of "Gold Diggers," a pretty girl went to the box-office at intermission and asked to have her seats changed or her money back. Asked why, she complained:

"I'm sitting back of Gary Cooper and I can't see a thing."

* * *

Zasu Pitts has promised in writing to make a long series of picture at Universal. This means she will not have time to continue in the series of shorts with Thelma Todd. In 1932, Zasu appeared in the remarkable total of 32 pictures. This year she has already done 16.

Miss Pitts

* * *

The smart looking woman H. B. Warner takes around these days is Mrs. Pauline Miller, Eastern socialite . . . It's a year's ticket at M-G-M for Allen Rivkin and P. J. Wolfson, writers. They clicked strongly with their treatment on the new Joan Crawford picture, "Dancing Lady" . . . It's a sight to see Maxine Lewis, of the Club Ballyhoo, coming out before one of those "I-dare-you-to-entertain-me" audiences and setting them on their ears with "Stormy Weather . . . Saw Jimmy McLarnin and another fellow stagging it at this gay spot . . . Also Phillips Holmes and a pretty brunette.

Law Girl

Fay Wray plays a lawyer in "Ann Carver's Profession," which, with another feature, "Emergency Call," will be seen in the Davis and Sheridan Square Friday.

Plays and Players

By WILLIAM J. LEWIS

"March of Time," a movie depicting theatrical history from once-upon-a-time until now, will be made with a cast topped by Alice Brady, Frank Morgan, Russell Hardie and Eddie Quillan, and directed by that versatile playwright actor, Willard Mack. Weber and Fields, Fay Templeton, DeWolf Hopper and William Collier, Sr., are some others who'll be in it.

* * *

Ruby Keeler, who was in New York, took the aerial way back to Hollywood to begin work in her next picture, "Footlight Parade" . . . "Design For Living" is promised as a road attraction for next season, without Lunt, Fontanne and Coward . . . Victor Jory returns annually to Hemet, Cal., to play Alessandro in the "Ramona" Pageant . . . At the first performance of The New York Players' Club production of "Uncle Tom's Cabin" Little Eva's ascension was spoiled by an electrician, whose "you-can't-see-her" was audible out front. . . Instead of sending flowers Gary Cooper sends pets to those he wants to remember. . . Janet Gaynor likes to entertain friends by performing on a trapeze she has in her home. . . . The favorite screen actress of Mae West is Marlene Dietrich. . . . Charles Farrell, '23, business administration, Boston College, attended the reunion of his class last week. . . Leslie Howard is to sail June 29 for London, and will make a picture in his native England before returning. . . . Louise Dresser, whose last appearance on the screen was in "State Fair," will be with Will Rogers again in "Life's Worth Living," formerly called "The Last Adam."

Mark Hellinger Will Be Found on Page Twelve.

Marie Won't Retire

HOLLYWOOD, June 14.—(AP.)—Better than verbal denial of those retirement rumors was the appearance of Marie Dressler at a studio party the other day.

She and Wallace Beery were co-hosts on the set of their new picture, and Miss Dressler, attired in her "Tugboat Annie" costume, looked her former robust self. She didn't tell about her operation, but she did declare that it had done wonders for her.

"I've done one picture since I got back," she said, "and this is my second. I'm all right. I could work a lot harder and longer than the studio lets me."

Questioned about the rumored retirement, the veteran star said:

"They'll have to throw me out of the studio, bag and baggage, before they'll get rid of me!"

The way she looked and talked at this party gave added force to those words.

The Dressler working day now is supposed to be limited to five hours or even less, but sometimes she insists on staying longer. Her passion for work is real and ardent.

Joan Bennett Studies Own Acting

Joan Bennett asked that screen tests be made of her in all the outfits she wears in "Arizona to Broadway" and in all the climatic scenes of this comedy.

Then she went into the projection room and saw them run off several times.

"When I see Joan Bennett on the screen in a test," said the actress, "she's not I, just an actress, and I criticize her as such. She probably overacts in one scene and underacts in another. I am critical of the way she wears her clothes, of the way she has her hair dressed—everything."

POOR INFIELD WORK HANDICAPS PLAY OF PIRATES

SPORT COMMENT

By James J. Long

Suhr's Error Excusable. • *Open Foils Foreigners.*
Mound Wildness Costly. *Softest Job in Boxing.*
Johnson Eleventh Pilot. *Tilden's Fears Stick.*

DEFEAT NOT SIGN OF ANOTHER SLUMP

THOUGH UNFORTUNATE SLIPS in the Pirate infield in the ninth inning caused yesterday's game to slip away after the Bucs had tied things up with a late rally, the defeat was not necessarily an indication of a returning slump. The club did better than the average outfit does against Dizzy Dean when the Cards' star hurler is in a good stride, well enough, in fact, to have won the game in spite of the ninth inning foozles if the Rovers' own pitching had been anywhere close to normal from the angle of control.

Dizzy Dean

Criticism of Gus Suhr for a wild throw in trying to make a force play at second base in the final frame is hardly fair or just. Suhr ordinarily makes that play better than any other first-sacker in the league, and under the conditions of yesterday, with the game at stake, correct baseball demands an attempt to get the head man representing the winning run. Gus deserves praise for trying to make the right play instead of criticism for a failure. Errors are part of baseball, and that was only Suhr's third slip of the season. Somebody's failure to cover third base on the next play was far more open to criticism.

And it must not be forgotten that it was Suhr, in a batting drive that has boosted his average to .306, who tied up the score with a two-run homer in the first half of the ninth. Steve Swetonic did much to lose his own game through wildness, issuing a base on balls in every inning except the fifth and seventh. Three of the Cards' four runs, including the winning one, resulted from walks.

WALTER JOHNSON is the twelfth man to manage the Cleveland club in the American League. This district produced two of the 11 previous pilots in Bill Armour, of Homestead, and Lee Fohl, who learned his early baseball on the old Junctions, of Lawrenceville, along with Noble Matthews and other leading independent stars of that time.

Jimmy McAleer was Cleveland's first manager in the American League in 1901. Armour served in 1902-03 and part of 1904, being succeeded by Napoleon Lajoie, who held the reins until 1909. Jim McGuire, George Stovall, Harry Davis and Joe Birmingham followed in the order named, before Fohl's term from 1916 to 1919, inclusive. Tris Speaker came next for six years, Jack McCallister served in 1927, and Roger Peckinpaugh held the post from 1928 until last week. Johnson has started with three straight wins, the last two by 1-to-0 scores.

A COUPLE OF queries from T. A. G., of Pitcairn: 1. Three men on bases and the infield is playing in close to the grass. Batter hits liner between second and third, and it strikes a runner, who is behind the infield. Is he out? Yes, if the ball is not touched first by a fielder.

2. Man on third base, batter hits liner between left and center; left fielder attempts to catch the ball, but it jumps out of his hands into the air and center fielder catches it; in the meantime, man on third dashes home when ball strikes left fielder's glove. Does the run count? Yes, unless there were two out before the catch, and if the runner remained on third until the ball struck the left fielder's hands.

IN CONNECTION WITH the latter query, it may not be out of place to recall how the legislation permitting such an advance came to be enacted. Tommy McCarthy, famous old-time outfielder, while playing for the Boston Nationals from 1892 to 1895, conceived a means of preventing a runner on third base from scoring on a fly to left field. Instead of catching the ball, McCarthy would juggle it and start walking in toward the infield, not completing the catch until he was in so close that the runner, forced to hold his base until the ball was legally caught, had no chance to score. To stop the trick and give the runners a fair chance to advance on a fly, it was ruled that they should be permitted to leave a base as soon as the ball is first touched by a fielder.

Lee Roy Mahaffey

LEO ROY MAHAFFEY, former Pirate, who was sent to Portland with a fat check in 1929 in exchange for Larry French, is Connie Mack's contribution to the list of greatly improved pitchers in the majors this year. The absence of George Earnshaw from the available slab squad much of the time gave Mahaffey a chance to work oftener, and his work has been gratifying.

The ex-Buc always did have plenty of smoke, but the batters used to wait for his fast one and they rode it. This year Mahaffey has been experimenting with a slow curve ball, and after losing two games to him the Senators voted it the best they had batted against.

MAHAFFEY HAS BEEN catching other batters as well as the Senators off balance and messing up their timing with the slow curve. With his fast ball and a change of pace to go along with his bender, Lee Roy is now one of Mack's dependables for mound duty.

Last year, Mahaffey won 13 games for the A's and lost the same number. So far this season he has turned in five victories and suffered two defeats, and even with a weaker club behind him he bids fair to surpass his record of 1932 and have the best year of his career.

GOLF FOLLOWERS ARE speculating as to whether the absence of foreign players from the United States Open last week was due to the depression or to the possibility that the stars of other countries have become tired of trying to lift the American title. In recent years foreign golfers have not helped their reputations by competing in this country. The case of Henry Cotton was an example. He was looming as the coming master of golf in England, but he came here to compete and his dismal failure kept him from mounting the pedestal that already had been raised for him.

WHILE MAX SCHMELING failed to go the distance against Max Baer's powerful punches, the German was sufficiently unmarked to keep clean a record held by one of his seconds, Doc Casey, of Detroit, for having the softest job in the boxing game.

For the only duty of Casey, who has been in Schmeling's corner in every one of the German's American fights, is to patch up any cuts the former champion may suffer. And so far Doc never has had to lift a hand, because Schmeling never has been cut, even slightly. Last week, as usual, Casey merely stood around, collected a fat fee, and went back to Detroit without having done a lick of work.

THOUGH HE HAS modified his views to the extent of conceding that the United States tennis team has a fighting chance to win the Davis Cup, perhaps a better chance than in any previous year since France carried away the trophy, Bill Tilden still fears defeat.

"I said before, and I say again, that Henri Cochet should account for two matches, and with Jean Borotra playing, the French ought to be able to pick up another," is the way Big Bill dopes it out. "It is true that Ellsworth Vines put Cochet away pretty neatly at Forest Hills last fall, but don't forget that that match was played on grass.

Bill Tilden

"VINES POSSIBLY MAY be Cochet's master on grass," Tilden continues, "but mark my words it's the other way around on that composition court in France. I'm not forgetting, either, that Vines beat Cochet in Paris last year, but Henri had let down. The cup already was won and he lacked the incentive to punish himself. I think Cochet fully believed he would take Vines at Forest Hills and fell a victim to his own overconfidence. And the Americans have got to get past the inter-zone final first. Those Australians are sleepers this year. You'll see, Vines is not unbeatable. Sidney Wood proved that. A soft ball is just what Vines doesn't like. It would be foolish to say that Woods beats him every time, but when he feeds our present champion a soft ball he makes a darned tight match of it. Now, when and if the Americans go to Paris, they will have to start play with a ball that already is lighter than ours as it lies in the box. That's a ball that already is lighter than ours as it lies in the box. Furthermore, Cochet is the greatest match player on the courts. With something big at stake, like the defense of the cup, he can raise his game to a dizzy brilliance. Just maybe I don't know."

DEMPSEY TURNS DOWN SHARKEY PROPOSAL

ORANGEBURG, N. Y., June 14. — (INS.) — The last time Jack Dempsey and Jack Sharkey met in a ring, Dempsey knocked out Sharkey a second after the former sailor incautiously turned his head to squawk to the referee.

Sharkey, training here for his bout with Primo Carnera, invited Dempsey to box with him today, and some camp followers with long memories predict privately that the Bostonian would attempt to slip one over on the old Man Mauler in retaliation for that evening long ago.

Dempsey, however, declined the invitation with thanks, although he will referee Sharkey's bouts with his sparring partners this afternoon before leaving tonight on an exhibition tour with Max Baer.

Dempsey revealed that an agent for Richard F. Hoyt, chairman of the Garden's board of directors, had tried to sell him a controlling interest of 160,000 shares in the Garden for approximately $8 a share. The stock closed at 4⅛ yesterday. Dempsey declared he would not be interested in joining forces with the Garden unless he could go in on a percentage basis.

B TEAMS TO MEET

The Pitt and Navy football teams will resume their series, inaugurated in 1931, meeting at Annapolis next Thanksgiving Day. The 1931 game resulted in a scoreless tie and last year the Middies won.

PIET BENCHED AFTER RUN OF 244 FRAYS

By CHARLES J. DOYLE

A remarkable chapter in Pittsburgh's baseball history was added at Forbes Field last week when Manager George Gibson benched Secondbaseman Tony Piet in the middle of a diamond clash because of Tony's loose fielding. It develops that the durable Pole had played in 244 consecutive games for the Buccos from the date he joined the Pirates in the late weeks of the 1931 campaign up to the day which saw his removal.

Tony was hastily called from the Wichita farm when Howdy Groskloss injured a leg while the Pirates were in New York late in 1931. The tow-haired sprinter swung into action the day he landed and he performed at second in 44 battles, his batting average over that trial period being .299.

PLAYED EVERY GAME

Piet took part in all of the 154 games played by the Pirates last season, although he was kept on the job over a period of almost a week when he might have been better off under a doctor's care as he suffered with a face injury. He batted .282 in this, his first full season in the National League and he led the Buccos in the important point of driving over runs. Tony had taken part in 46 contests this year and was batting true to form when his fielding slips caused his removal.

And Tony's record for durability did not begin with his advent into the big show. Anthony Francis performed in 105 Wichita conflicts ere he reached the major club. And that doesn't tell it all. Antedating his Wichita run, the big Pole reeled off 150 ball games without a break for Waco of the Texas League in 1930. Tony, therefore, was in 499 games in succession.

VETERAN'S HELP NEEDED

Fielding records for last season show Tony to have done a fine job at the keystone sack. He was charged with 26 errors, yet Billy Herman, of the Cubs, who was regarded as one of the greatest in the sport last year, slipped 38 times.

The nub of the Piet situation seems to lie in the fact that Tony needs a steady veteran alongside of him to bring out his best qualities. He looked like a great player when Thevenow worked with him. And by the same token, Arky Vaughan would be a steadier fielder were Thevenow to team with him.

SCHOOLS TO CLASH

Flemington and Forbes will meet at Schenley High field tomorrow afternoon for the Section II championship of the Pittsburgh grade schools.

Tennis Tourney Program Seals' Bill Tonight

JOHN O'LOUGHLIN BILLY O'LOUGHLIN DAVE O'LOUGHLIN

The Trained Seals of the Sports Department of the Pittsburgh Sun-Telegraph train their guns on the annual Western Pennsylvania championship tennis tournament during their weekly radio program over WCAE tonight. They'll be on for a half hour, beginning at 6:45 o'clock.

P. G. Sullivan

Billy Haseltine

Grant Siverd

J. P. Davis

Paul G. Sullivan, secretary of the Pittsburgh Tennis Association and writer for the Sun-Telegaph, will direct the program, which will include as speakers the three O'Loughlin brothers of tennis fame, John, Dave and Billy; J. Phillips Davis, president of the Pittsburgh Tennis Association; Austin Famariss, College Avenue Club star; Billy Haseltine, of Philadelphia, twice West Penn champion; Grant Siverd, veteran player and coach of the Duquesne University squad for the last decade; Sam Harbison, Allegheny Country Club player, and H. Vernon Porter, of Stanton Heights. Harry Keck, sports editor of the Sun-Telegraph, also will take part.

Goodman Given Stirring Welcome

OMAHA, June 14. — (AP.) — Sirens shrieked, bands played and thousands cheered as Johnny Goodman came home today to a champion's welcome.

From the moment he stepped from his train at the Union Station until late in the day, crowds lionized the new National Open golf champion, big men spoke his praises and ragged newsies fought to shake his hand. It was Johnny Goodman Day—by official proclamation.

A reception at the station was followed by a parade through the downtown district, and later by a more formal reception at the City Auditorium.

Art Shires' Boast Brings Loop Probe

INDIANAPOLIS, Ind., June 14. — (INS.) — A remark by Arthur (Whataman) Shires, the loquacious one, was said to have motivated the calling of a meeting of American Association baseball magnates here today to investigate charges that the Columbus Redbirds were violating the Association's salary limit agreement. President Thomas J. Hickey was to preside over the probe.

Shires was alleged to have "popped off" and declared he was receiving "big league pay for performing in the minors."

BUCS BEATEN IN NINTH BY CARDS, 4-3

ST. LOUIS, June 14.—Lack of smoothness and team-play in an infield which is supposed to be among the best in the National League will play a heavy part in the failure should the Pirates come a cropper in the present flag chase. The inferior work along the Buccaneer first line of defense was a source of deep concern to Manager George Gibson today as a result of the crackup of his club in the ninth inning of yesterday.

The fighting spirit of the Pittsburghers had again been demonstrated in a marked manner just before the blowup of the defenses. The Freebooters went into the ninth inning facing a two-run deficit and one was out before the courageous scrappers from Western Pennsylvania put over the nervy drive only to have their infield collapse in the home half. Gus Suhr drove a homer out of the park, with Fred Lindstrom aboard to effect a tie, but the messy play of the Pittsburgh infield spilled the beans. The Cardinals won, 4 to 3.

BAD, BAD TEAMPLAY

Steve Swetonic faltered in the ninth to walk Jimmy Wilson, always a troublesome performer. Durocher then bunted and both runners were safe when Suhr threw wide to second. Gus is a star on this play, but when there is a doubt the proper thing to do is to get one man: In other words, somebody in the Pirate infield should have called for a play at first base, but the Bucs are shy in this important coaching department.

Dizzy Dean then bunted and once more the infield slipped. Swetonic was [illegible] to make a play at third, but [illegible] base was uncovered and all hands were safe. Pepper Martin's fly to Lindstrom gave the Cardinals the winning run.

LAST GAME TODAY

Swetonic and Dean hooked up in a fine slab duel. Steve was very wild, although his seven bases on balls were fairly well scattered. It was unfortunate for the Bucs that most of the enemy hits followed the passes. Both clubs scored in the second inning, the home team jumping to the front in the fourth by scoring a tally. The Cards added a safety tally in the seventh and enjoyed a two-run lead until the moment of Suhr's drive.

CHESS CHAMP RESIGNS

FOKESTONE, England, June 14. — (AP.) — Dr. Alexander Alekhine, world chess champion, resigned his unfinished game from the second round of the international chess tournament to Dr. S. Tartakower, of Poland, after 75 moves. The adjourned game between A. C. Simonson, United States, and Combe, of Scotland, was recorded as drawn, the American winning the match by 3½-½.

WHITE SOX PRESS LEADERS IN AMERICAN

WYATT MISSES NO-HIT WIN IN NINTH

Associated Press.

Due in part to the fact that Whitlow Wyatt has blossomed out as an effective starting pitcher, the Chicago White Sox have regained third place in the American League and again loom as a distinct threat to the New York Yankees and Washington Senators.

Just another relief pitcher when he wore a Detroit uniform, Wyatt missed a no-hit game yesterday by the margin of one single after two were out in the ninth, beat the St. Louis Brown, 6-1, and chalked up his second victory since he came to the Sox in a trade for Vic Frasier. It was the eighth one-hit game in the majors this season.

WIN IN THIRD

The Sox put the game away in the third inning by pounding Hank McDonald from the hill with a four-run outburst. The Browns' lone run was scored in the same inning mainly because of Wyatt's wildness.

Washington hung a 10-6 defeat on Philadelphia that sent the Athletics down two notches into fifth place.

With Oral Hildebrand on the hill, Cleveland's Indians kept pace with Chicago and advanced to fourth place with a 1-0 victory over the Detroit Tigers, the second they have won by that score since Walter Johnson became manager.

The last-place Boston Red Sox neatly clipped a game off the Yankees' lead by beating the league leaders, 6 to 5. The winning runs came in the seventh when Dusty Cooke clouted a homer with one on to offset the effects of Lou Gehrig's fourteenth homer.

REDS BEST CUBS

The Cincinnati Reds brought about the only change in the National League, beating Chicago 2-1 as Paul Derringer outpitched Lon Warncke, and moving up to tie the Cubs for fourth place.

The league leading New York Giants made seven errors and still beat the Boston Braves, 6-3. The St. Louis Cardinals, in second place, edged out a 4-3 victory over Pittsburgh in a neat mound duel between Dizzy Dean and Steve Swetonic.

The Phillies assaulted Brooklyn's mound staff for 20 hits and won, 15-4.

PRO-AMATEUR MATCHES SET

The third pro-amateur tournament of the season will be played June 26 at the Uniontown Country Club, it was announced today by the Tri-State Professional Golfers' Association, through Vincent Eldred, its tournament secretary.

This will be the first full day affair of the season. In the morning there will be an 18-hole tournament confined to the professionals, while the members of the paid brigade will be paired with the amateurs in the afternoon.

The fourth tournament will be held over the links of the Butler Country Club Monday, July 10, and Walter Johnstone, professional at the club, is making extensive arrangements for the affair.

Yanks Send Pair To Wheeling Farm

WHEELING, W. Va., June 14.—(AP.)—Johnny (Bud) Hassett, all-round athlete of Manhattan College, New York, recently signed by the Yankees, will join the Wheeling team of the Mid-Atlantic League today.

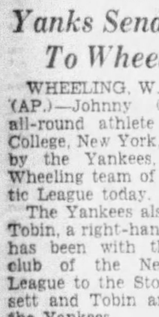
The Yankees also will send Jim Tobin, a right-handed pitcher who has been with the Binghamton club of the New York-Penna League to the Stogies. Both Hassett and Tobin are properties of the Yankees.

Westmoreland Tourney Dates Set

GREENSBURG, Pa., June 14.—The fifth annual Westmoreland County amateur golf tournament will be held at the Greensburg Country Club from June 29 to July 1.

BASEBALL COMEDY

—By NICK ALTROCK—



Nick Altrock

WASHINGTON, June 14.—Say, the way the super-power of the Phillies has collapsed, you'd think Sam Insull had had incorporporated the team. I must run over to the National League some day and find out just what happened to them.

This spring a lot of experteers figured the Phils would be right in the pennant fight—and now look at 'em. If it wasn't for the cement foundation, they'd drop out the bottom of the league.

They got some murderous hitters in Klein, Bartell, Hurst and Whitney, and their pitchers aren't at all bad, either. But still they don't go places. The only way I can figure out the mystery is that the Phils have Halitosis, B. O. or sluggish stomachs.

EXPLANATION OF RIPLEY'S CARTOON OF YESTERDAY: THE STANDARD POWER OF A HORSE—When Watt and Boulton were making observations to aid them in the indication of the power of their steam engines, they found that the strong dray horses employed by the London breweries were able to work eight hours a day, lifting 22,000 pounds, one foot high per minute. To this quantity the two inventors arbitrarily added another half, or 11,000 pounds, creating the standard horsepower unit of 33,000 foot pounds a minute. Thus the actual power of Watt's horses was in truth two-thirds of a horsepower. The record lifting power is held by a team of Iowa horses, each of which proved capable of 13½ horsepower in a minute.

TOMORROW: THE MOST INTERESTING CHURCH IN CHRISTENDOM.

FORMER CHAMP TO RETURN

By PAUL G. SULLIVAN

Mrs. Felix B. Snowdon, noted in the net realm as the former Martha Guthrie, will return to district titular action at Stanton Heights next week in the forty-fifth annual Western Pennsylvania tennis championships. Mrs. Snowdon has not sought West Penn honors since 1929, when she captured the Honus Wagner Cup the first year in which it was up for competition. The brilliant Pittsburgh Golf Club star will also engage in mixed and women's doubles, partnered with Howard Burgwin and Mrs. Harvey Childs, respectively.

West Penn men's singles entries will be received by Chairman Frank Smith, in care of the Edward A. Woods Company, Frick Building, until 5 p. m. tomorrow. Smith may be reached by telephone at Atlantic 2800. Names of aspirants to women's singles and men's, women's and mixed doubles may be filed until next Monday.

Jack Redmond and Art Glaser, undefeated P. A. A. third doubles team, this afternoon encounter Bud Leyda and a partner to be selected in last remaining fracas of the Winged Head-Shannopin P. T. A. Inter-Club League tilt, postponed from May 27.

Leechburg and Cheswick have stepped away to the lead of the new Allegheny-Kiski Valley racquet loop with impressive inaugural victories. The standing of the teams:

MISS ROBINSON STARS

DES MOINES, Ia., June 24.—Miss Lucille Robinson, of Des Moines, who won the qualifying medal and who has played 51 holes in par, yesterday led the way into the second round of match play in the women's trans-Mississippi golf tourney.

LEE RAMAGE WINS

PHILADELPHIA, June 14.—(AP.)—Lee Ramage, 176, of San Diego, Cal., punched his way to a 10-round decision over Babe Hunt, 194, Oklahoma, in the windup bout of Philadelphia's first outdoor show of the season last night.

BOBBY JONES' GOLF

By BOBBY JONES

Only Golfer Who Has Won U. S. and British Amateur and Open Championships in the Same Year.

One often hears a lofted spoon referred to facetiously as a "wooden niblick." The users of the term are not always aware that it was once quite seriously applied to a golf club.

Horace Hutchinson, writing some time in the '90s, tells us that something of the early stages in the development of golf clubs. Particularly interesting is his description of the evolution of the brassie.

In the early days, there were no irons; all clubs were of wood, even those intended to be used for short approach work. The set consisted of a tee club, an assortment of what we would call spoons, of varying lofts and lengths and a wooden putter. All of the woods were nearly one shape, with long, slender heads, differing only in the degree of loft on the face. No matter where the ball might be found, in long grass, or bunker, or, as often happened, in a sheep track or cart rut, it had to be played out with one of these long-headed wood clubs.

Bobby Jones

WOODEN NIBLICK'S START

Soon, however, the difficulty of using the clubs from unfavorable lies induced some genius to invent a niblick to make the rough work a little easier. The old niblick did not display the ample blade of the present day club of that name. It was made to use from cart ruts, sheep tracks, and other places into which the long heads of the spoons would not go, and its blade was correspondingly short. There are niblicks in the Royal and Ancient collection at St. Andrews the faces of which are little larger than a silver dollar.

After this, some one conceived the idea that a wood club made with a short head would be useful for playing out of ruts and the like which were not drastic enough to require the sacrifice entailed by the use of the niblick. Such a club was made and almost immediately became popular. Hutchinson tells us that it was first called a wooden niblick. It subsequently came to be called a brassie when a brass plate was screwed onto the bottom of it to protect it from damage when used from rough lies.

THE LOFTING IRON

Meanwhile, an additional iron club had come into use. It was called a lofting iron, and was designed especially for playing out of rough grass. Apparently, for a long time no one used this club for anything but trouble work. The story is that young Tom Morris was the first player of prominence to make general use of the iron for approaching, and that it was his success with it that was responsible for the iron superseding the "baffy," with which these short shots formerly had been played. Young Tom went a long way for those days by sometimes even approaching with his niblick.

We accept our modern clubs with scarcely a thought. But it took a long time and a lot of experience to bring them to the point where they are today. In the Royal and Ancient Golf Club there is a collection containing a specimen of almost every club known to have been made to overcome certain of the golfer's difficulties. There is a niblick with a hole in its center to let the sand through; there is an iron with ribs on its sole to keep the face square to the ball; there are countless examples of the different attempts to improve the implements of the game and to find ways of overcoming the hazards of the course with the club rather than with the skill of the player.

Golfers always have sought, and probably always will seek, the club which plays the shot for them. Of course, it is a hopeless quest, but the effort will continue to give us better clubs.

Sport Shorts

NEW ALBANY, Ind.—(AP.)—Lefty Bryan, Chattanooga, seeded No. 1 in the Hoosier event, won two singles matches in the Indiana state tennis tournament yesterday, defeating two local opponents with ease. All other seeded players in action advanced.

ASCOT, England — (AP.) — Colorado Kid, Lieut. Col. Loder's 4-year-old brown colt by Colorado from Baby Polly, today won the Royal Hunt Cup handicap from a field of 21 leading handicap horses of England. Colorado Kid won by two lengths from Maj. Lyon's Scatterdash, with Capt. Ahern's Diamantee third.

CHICAGO.—(AP.)—The Women's Western Golf Association today announced that the second renewal of international team matches with Canadian players has been canceled, due to inability of the Dominion Association to assemble a representative team. The matches were to have been held June 21, 22 and 23 over three Chicago courses.

EAST LANSING, Mich.—(AP.)—Floyd Morse, of Greenwood, Ark., has been elected captain of the 1934 Michigan State College baseball team. Morse has been a regular catcher for two years.

PHILADELPHIA — (AP.) — Big George Earnshaw's 10-day suspension is up, but whether he goes back on the active list at once, in his niche as start righthanded hurler of the Athletics depends on a heart-to-heart talk he's supposed to have today with Manager Connie Mack. Mack is expected to welcome Earnshaw back to the fold from which he banished him in New York for alleged infraction of training rules, slapping on a $500 fine as well.

KATKISH STOPS YOUNG GIZZY

By JESS CARVER

The amateur boxing bouts offered by the St. Peter's Church at the new Allegheny Stadium, North Side, last night and their attendant turnout of more than 1,500 fans did the church's charity fund a lot of good, but the same hardly can be said for the right side of Young Gizzy's jaw.

Gizzy, brother of the more famous Battling Gizzy, of professional note, was clipped on the jaw with a left hook after 53 seconds of mixing in the second round of the feature bout by Eddie Katkish, star Willow Club 126-pounder. He crashed to the canvass, rolled over and arose partially to his knees at the count of eight and then pitched forward on his face, hopelessly out. It took some 10 minutes to revive him in his corner after the count.

Amateur shows will be held in the well-arranged stadium every other Tuesday throughout the summer. Last night's summary:

115-pound class—Frankie Wingo, Willow Club, defeated Jimmy Williamson, Auff A. C., New Kensington; Gene Caraba, J. L. Thomas Club, defeated Ace Garrett, Todd A. C., Donora.

126-pound class—Eddie Katkish, Willow Club, knocked out Young Gizzy, Todd A. C., Donora, in second round; Jimmy Lugar, Linwood A. C., defeated Joe Yotz, Auff A. C.; Patsy Contillo, Willow Club, defeated Jimmy Jones, Auff A. C.

160-pound class—Farmer Bill Schwario, Monon Valley A. C., defeated Zeke Walker, Auff A. C.; Richard Armstrong, North Side A. C., defeated Tom Greene, East Liberty A. C.

Gumbert Pitches No-Run, No-Hit Win

YORK, Pa., June 14.—(AP.)—Credit for that baseball rarity—a no-hit, no-run game—belongs to Harry Gumbert, stellar right-handed hurler for the Williamsport Grays, of the New York-Pennsylvania League.

He gained the coveted distinction last night at the expense of the York White Roses and virtually won his own game by hitting a single with a man on in the seventh inning. Williamsport won, 2 to 0.

Only one of the 28 men who faced Gumbert got to first base. That was Parks, York's catcher, and he reached the initial sack because McWilliams, Williamsport's third baseman, erred on his easy roller.

WRESTLING RESULTS

At Albany—Ray Steele, 215, threw Dich Davicenzo, 220, 19:21; Abe Coleman, 202, threw Frank Spears, 220, 30 minutes.

At Wilmington, Del.—Joe Savoldi, 202, won in straight falls over Paul Boesch, 197.

At Minneapolis—Jim Londos threw Joe Cox, 30:27.

At Salem, Ore.—Gus Sonnenberg, 200, Boston, threw Ted Thye, 194, Portland, Ore., two of three falls.

At San Francisco.—Ad Santel, 195, Oakland, defeated George Hagen, 212, Brooklyn, two of three falls; Harry Krusnamp, 206, Columbus, O., won over Al Sparks, 212, Ogden, Utah, (both fell out of ring and Sparks unable to return before expiration of time limit).

At San Riego, Cal.—Ed (Strangler) Lewis, 240, Glendale, Cal., defeated Rudy Skarda, 210, Finland, 30:32 (Skarda injured by Lewis' headlock and could not continue).

CHICAGO MEETS CRAWFORDS IN TWIN BILL

SANDLOT GAMES TODAY

CITY LEAGUE

Cochrans at Dormont.

NEGRO NATIONAL LEAGUE

Chicago vs. Crawfords (two games, Cycler Park, 6:15 p. m., and Greenlee Field, 9 p. m.).

GREATER PITTSBURGH LEAGUE

Laffey Ambassadors at Frick Park. (City Section.)

Wilson at Sonora Club. (East End Section.)

Juliano at Brushton.

CHARTIERS VALLEY LEAGUE

Carnegie at Southview.

AMERICAN LEGION TOURNEY

Crafton at Wilkinsburg.
McKees Rocks at Turtle Creek.
McKeesport at Swissvale.

With first place at stake in the National Negro League, the Pittsburgh Crawfords and the Chicago Giants clash in two games this evening. The first will be played at Cycler Park, McKeesport, at 6:15, and the second game under the lights at Greenlee Field.

Chicago has been keeping Foster, its ace twirler, for this series. Foster, on the last trip here, got the decision in two games with the locals, a feat rarely accomplished against the hard-hitting Greenlee outfit.

FOSTER TO HURL

Foster finished the first game of a Saturday doubleheader and won, and then pitched the entire second game. If the locals want to stay out in front in the league race, they must take these two contests today.

Two games originally were scheduled to be played in the City League this evening, but the Homewood-Whitaker game at Homewood was called off on account of cold weather. The Cochrans invade Dormont in the other contest.

Three games are listed for this evening in the Southwestern Pennsylvania eliminations in the American Legion junior baseball tournament. Crafton meets Wilkinsburg at Wilkinsburg, McKees Rocks appears at Turtle Creek and McKeesport takes on Swissvale at Swissvale.

In the opening tussle of the tournament, played at Dormont last evening, the South Hills nine crushed Curtisville, 27 to 5. Curtisville was limited to three hits by two South Hills hurlers, Taylor and Francisco. McMillen, South Hills third baseman, collected five hits for the victors.

The Pittsburgh Crawfords battered the Dayton (O.) Schroyers down to a crushing 16-to-2 defeat at Dayton in an exhibition game. Lewis, Crawford shortstop, led his team's attack with four hits, while Josh Gibson collected a pair of home runs.

BOOKS LOSE SEMLER

The Champion Books' hurling staff took a kicking around when it was announced that Joe Semler, ace of the flinging corps, had decided to join the Wilkes-Barre Club, of the New York-Pennsylvania League.

Semler was the property of the York team of the same loop last year, but had salary differences with the club and refused to report this spring. He was released by York and then signed by Wilkes-Barre.

YOUNG TURNESA PACES STARS

NEW YORK, June 14.—(AP.)—The youngest of the Turnesa clan has come to bat with a brilliant golfing exhibition to steal the show from the entire membership of the American Ryder Cup team.

Willie Turnesa, 17-year-old Elmsford (N. Y.) High School boy, four of whose brothers are professionals, toured the 6,800-yard Metropolis Club course at White Plains in even par 71 yesterday and, with his partner, Howard Bergman, turned in the only victory a team of amateurs captained by Jess Sweetser could achieve over the Ryder Cup squad in a foursomes exhibition.

Mainly through the youngster's spectacular play, Turnesa and Bergman whipped Horton Smith and Ed Dudley, 2 and 1, but Capt. Walter Hagen's internationalists captured all four of the other matches.

Word has been received from St. Andrews that Billy Burke, belated addition to the United States team, has been declared eligible for the matches. MacDonald Smith, who cabled his entry last week, was ruled ineligible, however, as was Mark Seymour, English holder of the Scottish title, whose entry was received late. Smith is not a member of the Ryder Cup team.

Open Star

RALPH GULDAHL

St. Louis golf professional, who made a strong finish and was just nosed out by one stroke for the national open title at North Shore. Johnny Goodman, the Omaha amateur, carried off the honors. This is an International News Photograph Service picture of the runner-up.

GOLFERS REACH SEMI-FINALS

By TOM BIRKS

Jack Hoblitzel, of West Virginia, the medalist, is opposing Charley Kay, of Carnegie Tech, and Art Sekay, of Pitt, is meeting Claude McKee, another Panther star, in 18-hole semi-final round matches in the first annual Tri-State district intercollegiate golf tournament at the South Hills Country Club this afternoon.

Sekay, who led the Pitt linksmen to the team championship yesterday, defeated Francis Totten, of Duquesne, 2 and 1, in the closest and most thrilling match of the second round this morning. Out in a fine 37, Sekay found himself only 1 up, and Totten squared the match on the tenth green. After 14 holes the duel was still deadlocked, but Sekay won the fifteenth and seventeenth holes to emerge the victor. The cards:

Sekay—Out...	4 4 4 3 4 4 4 4 6—37
Totten—Out...	5 6 4 2 4 5 4 4 5—39
Sekay—In....	6 4 3 4 5 3 5 4
Totten—In....	5 4 3 5 4 4 5 5

Kay defeated Joe Totten, of Duquesne, 4 and 3; Hoblitzel won over Haverstick, of Tech, 3 and 1, and McKee defeated Lowe, of West Virginia, 4 and 3, in other matches in the second round.

Two hundred of the leading amateur golfers of the district are battling it out over the links of the Pittsburgh Field Club today in the third Pennsylvania State one-day handicap tournament.

RECORD CROWD PLAYING

Ever since early morn, Davey McKay, professional at the club, has been sending foursomes away from the initial tee, and the last of the players will be trekking toward the elevated eighteenth green along about sundown.

At the Edgewood Country Club, the first mixed two-ball foursome event of the season is being held. Toots Erath, Edgewood professional, has made arrangements to handle quite a large crowd.

OAKMONT AHEAD

Oakmont's formidable women's golf team just about has the Section I title of the women's team league clinched for another season.

Yesterday the Oakmonters defeated Butler in the Section I match at Butler, 7 to 1, to boost their lead over the second-place Allegheny team to three points. Allegheny meanwhile downed Westmoreland, 5 to 1, while Edgewood took over Stanton Heights, 6 to 1, and the Field Club downed Fox Chapel, 7 to 1.

In the Section II matches, played at Shannopin, Youghiogheny defeated Longue Vue, 5 to 3, South Hills beat Highland, 6 to 1, and St. Clair nosed out the Pittsburgh Country Club, 5 to 3.

The standing of the teams follows:

SECTION I

	Won.	Lost.	Tied.	Pts.
Oakmont	4	0	0	30
Allegheny	4	0	0	23
Field Club	2	1	1	23
Edgewood	2	1	1	18
Fox Chapel	2	2	0	15
Butler	1	3	0	13
Westmoreland	0	4	0	5
Stanton	0	4	0	2

SECTION II

	Won.	Lost.	Tied.	Pts.
Longue Vue	3	1	0	24
Shannopin	3	0	0	20
Youghiogheny	2	0	0	18
St. Clair	2	2	0	17
South Hills	1	2	0	10
Highland	0	4	0	5
Country Club	0	2	0	3

MRS. STIFEL WINS

Mrs. E. W. Stifel, of Wheeling, with a score of 95-14-81, led the first division in the Nemacolin Country Club's annual invitation tournament yesterday. In the second division, Miss Dorothea Brinker, of the Edgewood Country Club, led with 100-32-68.

Mrs. J. P. Tumpaine, of Charleroi, with a 118-39-79, took first honors among Nemacolin players. Mrs. L. W. Kelly, Clarksville, was second with 115-34-81, and Mrs. C. C. Ryan, Republic, third with 98-13-35.

Mrs. Stifel's 95 gave her medal honors for the tournament.

The annual junior championship tournament of the Western Pennsylvania Golf Association will be played over the Greensburg Country Club course, July 12, 13 and 14, according to an announcement made by George A. Ormiston, secretary of the organization.

The district qualifying round for the National public links tournament is to be staged over the Schenley course next Monday.

WARMER NIGHT WANTED FOR BAER SHOW

TONIGHT'S FIGHTS

Varias Milling vs. Johnny Pena, 10 rounds, Chicago.
Joey Greco vs. Al Gauthier, 10 rounds, New London, Conn.

By HARRY KECK
Sports Editor.

Last week everybody was squawking about the hot weather and wishing it would cool off.

This week it has been so cool that now Jules Beck, matchmaker at the North Braddock Bowl, is going around with his fingers crossed and calling for a return of the sizzling temperature.

He wants it to be well warmed up by tomorrow night, when he shows Max Baer in the Bowl, along with Jack Dempsey, promoter of the battle in which Baer knocked out Max Schmeling less than a week ago.

MAX LIKES HEAT

Jules wants it to be warm, or hot, for two reasons. The first is that the fans won't sit outdoors on a cool night any more than they will jam their way into an indoor arena on a hot night. The second is that Baer, a Californian, likes the hot weather, as he demonstrated against Schmeling, who complained that the heat robbed him of his fighting strength.

And then there's this parting shot from Beck:

"Max may be a Baer, but he's no polar bear."

The Baer-Dempsey entourage will arrive tomorrow morning about 9:30. Jack and Max will be heard over WCAE and WJAS with the Globe Trotter, Louis L. Kaufman, from the editorial rooms of the Sun-Telegraph at 12:15 p. m.

Between Rounds

Al Becker is back in fighting condition again following a layoff since last September due to a broken elbow. He would like to fight Harry Jacoby, Jack Snyder, Bill Nichy, Johnny Riske or any of the other 155-pounders. Promoters may reach him by calling Federal 0718-J.

Johnny Cozza, of Bridgeport, Conn., wants to match his Carmen Cook against any of the lightweights here.

They're arguing in Chicago about when the last bout of more than 10 rounds was fought there. In view of the fact that the new law goes into effect tonight, with the staging of a 15-rounder between Varias Milling and Johnny Pena, who have fought draws against each other at eight and 10 rounds. Some say it was Jimmy Barry's 14-round knockout of Casper Leon in 1897 and others a 20-rounder between Johnny Griffiths and Solly Smith about 35 years ago.

Seaman Watson sails back home to England next Saturday.

Teddy Movan, of McKeesport, claims he defeated Dick Ambrose in the amateur ranks, a bout omitted from the latter's record printed when he turned pro.

Jack Dalcherone, middleweight, of Springdale, is the latest addition to the stable of Bunny Buntach, of Braddock, who wants to know why none of the local lightweights will take on his Mike Barto, who challenges both Eddie and Fritzie Zivic.

The Fourth Ward Relief Association has engaged the North Braddock Bowl for a show to be held on Thursday, June 29. It will consist of local talent, with Jules Beck acting as matchmaker.

Senior Women's Track Meet July 1

The Allegheny Mountain Association A. A. U. senior women's track and field championship meet will be staged at West View Park on Saturday, July 1, with the following events on the program:

Fifty, 100 and 200-meter dashes, 400-meter relay, broad jump, high jump, baseball throw, eight-pound shotput, discus throw and javelin throw.

Entries are to be received at A. A. U. headquarters, 35 Vandergrift Building, until June 27.

Fight Results

At Philadelphia—Lee Ramage defeated Babe Hunt, 10 rounds; Lou Foster knocked out Jack McCoy, 4 rounds; Al Sabulos defeated Yonder McLaughlin, 6 rounds; Jimmy Dunn defeated Larry Wagner, 6 rounds.

At Chicago—Solly Dukelsky defeated Norman Brown, 6 rounds; George Williams defeated Owen Miller, 4 rounds; Al DeRose defeated Pete Mage, 4 rounds; Danny Delmont defeated Don Messina, 6 rounds.

At Des Moines—Lefty Louie Mays knocked out Don Pedigo, 3 rounds; Jack Ricco and Dave Nemo drew, 4 rounds.

At Newark, N. J.—Al Rossi defeated Solly Krieger, 10 rounds; Tony Fisher defeated Hans Muller, 10 rounds; Abie Bain knocked out Billy Callahan, 2 rounds; Paulie Walker knocked out Benny Levine, 9 rounds.

At New York—Petey Hayes defeated Al Roth, 6 rounds; Nick Scalba defeated Frankie Covelli, 6 rounds; Sammy Dorfman and Pete Gulotta drew, 6 rounds.

At Kansas City—Joe Banovic knocked out Cliff Kelly, 1 round.

SOUTH HILLS NINE LEADS IN SERIES

South Hills High School's baseball team, champion of Section II in the City League, has the old edge on Westinghouse, Section I ruler, as the teams look forward to the second game of the series for the league title.

The Tunnelites defeated Westinghouse in the first game of the playoff series yesterday at Westinghouse, 5 to 4, when Woodill, star Westinghouse hurler, lost his control in the eighth inning, gave three walks, which were hooked up with a single and a squeeze play to bring three runs.

VENTO HITS HOMER

In the last half of the inning the Silver Lakers staged a brave rally that netted two runs, one short of tying the count. Vento hit a home run with Dalfonso on base, but Fowle, on the slab for South Hills, steadied and saved the game.

The second game of the series will be played Friday at Olympia Park, home diamond of the Tunnelites.

New chairmen have been appointed to head the football, basketball and baseball committees of the W. P. I. A. L., according to the new list announced by the league and a new one-man committee on soccer has been appointed.

Elmer Carroll, of Wilkinsburg, has been appointed chairman of the football committee, to succeed J. G. Hulton, of Latrobe. Hulton remains on the committee, with new members being O. P. Ballentine, Har-Brac Union; J. C. Dunn, McDonald; J. C. Nicklas, Stowe Township; W. S. Bazard, Midland, and L. A. Aber, Springdale.

The basketball chairman is E. G. Groleau, of Monaca, who succeeds C. W. Cassler. New members are D. H. Conner, Homestead; R. E. Boyles, Washington; W. F. Blackburn, Monessen; W. H. Church, McKees Rocks, and W. A. Swick, Tarentum, who is a holdover.

T. M. Rutter, Munhall, will handle soccer.

BRUNK SUCCEEDS EVANS

L. F. Brunk, Crafton, succeeds W. C. Evans as chairman of the baseball committee and will have W. E. Pickett, Edgewood, and K. H. Gordon, Trinity, on his staff.

C. E. Glass remains as chairman of the social committee and will have R. W. Dimmick, Donora; J. Roy Jackson, Beaver Falls; F. C. Keback, Aspinwall; C. F. Barr, Burgettstown Union; J. D. Anderson, Kittanning, and R. E. Knarr, Carnegie, as assistants.

BLUE SUNOCO PROVES ITSELF BY COMPARISON

Sun Oil Product Sells at Price of Ordinary Gasoline—No Extravagant Claims—Blue Sunoco Motor Fuel Gives Knockless Premium Performance

Newark, N. J.—Just last week a friend happened to remark how often it seemed too easy to plan a thing on paper and yet discover in actual tests that the plan simply won't work.

"This strongly reminded me," went on K. R. Ware, local Sun Oil Company sales manager, "of our company's experience, which was entirely opposite. Six years ago our engineers discovered a method of refining motor fuel of such powerful quality it never needed the addition of foreign ingredients to make it function smoothly in the new type high-compression motor.

"A little later we put this motor fuel on the market under the now-familiar name of Blue Sunoco. Rather than make any extravagant claims we simply urged motorists to make the best test of all by trying out Blue Sunoco in their own cars.

"The response was instantly favorable," continued Mr. Ware, "and even today motorists find for themselves how effectively Blue Sunoco silences knocking and provides extra power that to a great extent eliminates gear shifting on hills or in traffic.

"Thanks to the skill of our engineers, we have always been able to keep Blue Sunoco at the price of regular gasoline, although it has always been premium-performing motor fuel."

GAS KEEPS PACE WITH AUTO INDUSTRY

Detroit, Mich.—"Improvements in gasoline have been as important as the development of the automobile itself.

"Because most gasolines look like water," continued Mr. Aston, local manager of the Sun Oil Company, "the public infers that there has been little change. In appearance, of course, this is so, but the chemical constituent and proportions are undergoing constant changes in order to give the public the very best possible fuel for modern cars.

"The gasoline of ten years ago would not work in the modern motor at all. The present motor fuel, Blue Sunoco, has driving power but does more than that. It has the ability to start quickly in winter and not overheat the motor in summer, and since high-compression motors increase the quick explosive tendencies of the fuel itself, the fuel must be developed so that it burns more slowly.

"The coloring of branded gasolines," continued Mr. Aston, "has nothing to do with the power and other qualities of the gasoline itself. Blue Sunoco obtains its color by a microscopic amount of harmless, non-poisonous dye. You will never find any colored residue left on either the intake or exhaust ports where Blue Sunoco is sold. The Sun Oil Company is keeping the qualities of Blue Sunoco uniformly high so that no matter what demands of the modern day may be, Blue Sunoco will meet every condition."

Sunoco Oil and Gas Eliminate Knocking

Toledo, O.—"Considerably more than six years ago when high compression motors were coming into vogue the Sun Oil Company was ready with Blue Sunoco Motor Fuel which would permit these highly efficient engines to operate without knocking," stated N. S. Kelly, Sun Oil Company's local branch manager. "Compressions today average higher than six years ago. The old compression ratio of 4 to 1 has been stepped up to 5½ to 1, or in some cases over 6 to 1. With such compressions the amount of clearance between the top of the piston head and the cylinder head is very, very small. So small, indeed, that if a layer of hard carbon of only 1-16 of an inch thick is formed on the piston head some knocking is apt to occur.

"It is time to think right now," says Mr. Kelly, "of hard carbon and how to drive many thousands of peaceful miles without its negative action. Hard carbon is the result of using compounded oil containing cylinder stock. There are oils made, Sunoco Mercury Made Motor Oil one of them, which are pure distilled oils, containing no cylinder stock or waxy content. Such oils will not permit the formation of hard carbon because there is no sticky, waxy substance formed on the top of the piston head to act like flypaper attracting and holding the soot which is always produced by burning gasoline.

"Any owner of a high-compression motor, if he uses nothing but Sunoco, Mercury Made 100 per cent distilled oil, and Blue Sunoco Motor Fuel, will have no trouble with hard carbon or with knocks."

No Risk of Vapor Lock

Cleveland, Ohio.—"Just as some people are different from others because they are color blind or tone deaf," says Mr. C. E. Doud, Sun Oil Company's local branch manager, "some motorists are not 'motor conscious' and these are the only people who have not been able to notice any marked improvement in the performance of their cars after using Blue Sunoco.

"The Sun Oil Company spent over two million dollars in new plant equipment for just one reason—to improve this motor fuel and to keep its pledge to motorists, to give them the greatest motor fuel value in America.

"These improvements have made it possible to produce a highly volatile motor fuel without the slightest risk of vapor lock, and with away "like a shot" acceleration.

"The elimination of vapor lock will be welcome news to any motorist who has been delayed by this annoyance. Vapor lock is caused by the vaporization, on a warm day, of a volatile motor fuel before it reaches the carburetor.

"Thanks to these two million dollar plant improvements, our Company has been able to eliminate

GAS CHANGES WITH SEASONS

In order that Blue Sunoco's performance will always be completely satisfactory, slight changes are made in its specification each season of the year.

For winter has a great effect on the operation of a gasoline motor and a fuel which is perfectory in summer may be found wanting in many ways in winter. In order to meet these changing conditions the Sun Oil Company has made a careful study of the weather reports for a period of fifty years. From these records was obtained data which enables the Company's engineers to predict the average weather for any given season with almost uncanny skill.

Consequently when winter begins to loosen its grip, Blue Sunoco is ready for the early spring; and when summer approaches there is still another change in Blue Sunoco so that it will be the perfect motor fuel for summer driving as well as on the coldest winter night.

Still this calls for a great deal of caution, for the motor fuel which is produced for, let us say, northern Pennsylvania or Maryland in the spring would be unsatisfactory for northern Michigan or Canada.

That is always Blue Sunoco is ready for each season in each part of the country so that its users will continue to be satisfied. This is only one small part of the unknown service which the Sun Oil Company gives to its customers to keep them happy. But it is a part of the service that has made motorists put their faith in Blue Sunoco. It should always be kept in mind that meticulous refining inspections always assure Blue Sunoco's high quality. Its plus power and high knockless rating never change except to be increased as refining improvements are discovered and put into operation. Sun Engineers are continually seekings ways and means of adding to Blue Sunoco's quality and this unending research work has enabled Blue Sunoco to retain the leading position it now occupies.

Romance of Promise Made and Fulfilled

Providence, R. I.—"People who say there is no romance or adventure left in modern life, certainly have not been following recent developments in the automobile field.

"First the car manufacturers challenged the ingenuity of the gasoline refiner, by bringing out the high-compression motor which positively cannot run smoothly on ordinary gasoline.

"Then," went on C. A. Sparks, district manager of Sun Oil Company, "we have the gasoline refiner answering this challenge by developing a fairly satisfactory fuel which is made by mixing foreign ingredients with ordinary gasoline.

"Now we find the unpre[dictable] Company [re]sponding not only to meet but it also the new style motor so highly flexible that gear shifting is brought down to a minimum.

"And," concluded Mr. Sparks, "if you think romance is dead, just consider the immense amount of money the Sun Oil Company spent in perfecting this motor fuel. And then see what a single promise to the public means to our Company. For, despite all this tremendous cost, we are selling this wonderful Blue Sunoco at the cost of ordinary gasoline. If the world has ever wanted the romance of a promise made and kept at a great sacrifice and a duty fulfilled, both are right here in the discovery and sales price of Blue Sunoco!"

While Touring This Summer Use Blue Sunoco

While touring you will demand even more of your motor than on the customary little trips around home. High hills, city traffic, unaccustomed traffic lights and the like, will be frequently encountered, all putting an extra demand on your motor. This is no time for experimenting with motor fuels, particularly when Blue Sunoco will be available in nearly all districts.

Whether you are touring up the Hudson or through Canada or historic New England, or along the Great Lakes or to the National Capitol you will frequently see the familiar blue and yellow diamond-

Twice Potential Energy of Nitroglycerin

Reading, Pa.—According to a statement made yesterday by Mr. Daniel H. Ellis, the Sun Oil Company's local branch manager, few people seem to be aware of the vast potential power of gasoline.

"Gasoline," he said, "is actually one of the most powerful liquids ever developed. Of course, different gasolines vary in their potential energy, but our Blue Sunoco is a striking example how powerful a gasoline can be. If you can [grasp] grasp an impression of its [power] when I tell you that a gallon of Blue Sunoco contains [enough] energy for two and one-half [times] potential energy in an equal amount of nitroglycerin, which is one of the world's most powerful explosives.

"But undoubtedly the most marvelous fact regarding gasoline is its safety. In your car this tremendous force is controlled as easily and safely as steam in a locomotive—and as silently, too, in many cases. I said 'in many cases' because there are gasolines which cause knocking when they are put to work in high compression motors. But Blue Sunoco, [which] has twice as much [anti]-nitro-content does not knock because it is correctly refined to [meet] the [high] performance [requirements] of its [high] quality. Its reasonable price have won for it a million steady customers for Blue Sunoco in a little more than two years!"

Courteous Attendants Serve at Sun Outlets

The Sun Oil Company not only gives you the best your money can buy, but insists that all station attendants and dealers constantly render courteous service to every customer.

These men will not only give you quick service, but will gladly supply road directions that are properly indexed and render many other similar helpful courtesies.

Mercury Process Used Exclusively in Sunoco Oil

Philadelphia, Pa.—Although Sunoco Mercury Made Motor Oil has only been on the market for approximately two years, it has already won a wide acceptance by motorists who [know] the importance of the [process].

For [the] preceding years or more prior to the introduction of mercury-made motor oil, all motor oils were refined by conventional methods. In many cases the finished oil manufactured by this process has been known to possess certain inherent drawbacks which left much to be desired. Having been refined in cylindrical stills holding sometimes as much as 1200 barrels of crude petroleum, and under the influence of terrifically hot fires directly beneath the stills, certain portions of these oils were often overcooked or scorched. Such overheating would naturally cause a partial breakdown of the oil before it was ready for the market. At the same time, some of these oils were known to contain certain impurities, the cause of hard carbon and crankcase sludge, which no amount of after-treatment such as boiling, filtering or centrifuging could entirely eliminate.

It was such oils which brought the Sun Oil Company to the conclusion that there must be some other method of refining an oil which would be both pure and unscorched; in other words, long-lasting and free from hard carbon and sludge-making deposits, besides doing all known [things] refining, the Company [found] over again, [and] the Mercury Process, by [which] the oil is distilled entirely by [vapor] heat. Sun Oil Company instead, thanks to [its] heat there [is] Motor Oil being [produced] is made doubly sure of the new Sunoco still causes the crude petroleum to gently down over inclined hot plates which have been brought to the right temperature by mercury vapor. Here the motor oil is distilled out of the crude petroleum in forty-six second or less. Compare this brief time to the twenty or more hours of constant boiling of crude petroleum as practiced by conventional methods, and you instantly see how completely the risk of scorching the oil has been eliminated.

In addition to manufacturing a long-lasting motor oil, the Mercury Process also wholly distills every drop of Sunoco Motor Oil, with the result that this oil is so pure it does not contain any of the hard carbon or sludge-making elements found in many oils produced by conventional methods. One absolute guarantee of Sunoco Motor Oil's purity is its clear, golden color. Grade for grade, Sunoco Motor Oils have exactly the same viscosity or "body" as dark oils made by conventional methods. Thus this dispells the idea that it is possible to judge the viscosity of an oil by its color. Of course, the Mercury Process proves beyond question that the geograph-

LOWELL THOMAS ENDS 1st YEAR AS SUNOCO NEWS VOICE

New York, N. Y.—Announcement was made today by the National Broadcasting Company that Lowell Thomas, world famous news commentator, explorer and adventurer, had completed his first year as the Sunoco News Voice of the Air on June 13 and would continue to report the day's news for an indefinite period under the Sunoco banner.

The announcement went on to say it is estimated that Mr. Thomas' popularity as a radio reporter has been materially increased during the past year due to the presence of long and tiresome advertising announcements. The brief snappy and informative advertising done by the Sun Oil Company in conjunction with each Lowell Thomas broadcast has attracted much favorable attention and many new friends for both the Sun Oil Company and Thomas.

At the present time Lowell Thomas is heard at 6:45 P. M. eastern daylight time every evening from Monday to Friday inclusive, from Stations WJZ, New York; WBZ, Boston, WBZA, Springfield; WBAL, Baltimore; WHAM, Rochester; KDKA, Pittsburgh; WGAR, Cleveland; WJR, Detroit; WLW, Cincinnati, WSYR, Syracuse, and CACT, Toronto.

Diamond Sign Now Guide to Motorists

A few years ago the familiar blue and yellow diamond-shaped Sunoco sign with the red arrow was totally unknown.

Today, wherever it stands beside the highway it is recognized by over a million motorists as the symbol of excellence in motor fuels.

Motorists have learned that they can buy with absolute confidence wherever they see this sign. Blue Sunoco's quality is so carefully watched with frequent inspections that it never varies except to be gradually improved as further improvements in its production are discovered and put in use.

The Sun Oil Company is never satisfied with the quality of Blue Sunoco though it now ranks with the finest of all motor fuels. Research laboratories are continually working on ways and means of further increasing the quality of Blue Sunoco motor fuel so that it will be of even better quality, giving higher knockless rating and still more power while continuing to sell at regular gas price.

The Company so keenly feels its obligation in making this splendid motor fuel even better that its seldom makes public announcement of any improvement, feeling that each step forward is so much achieved as a duty fulfilled.

Blue Sunoco Sells at Regular Gas Price

Wilmington, Del.—"If there is any class of people that is irritating it is the pessimists who continually go around saying something or other can't be done.

"Right in my own business," states W. J. Roope, branch manager of Sun Oil Company, "is an excellent example of what I mean. About six years ago my company introduced Blue Sunoco—a really high-grade premium-performing motor fuel, and announced it would be sold at the price of [regular] gas. Mr. [Blue] Sunoco was a success from the start. [People] refined so that here was a superior fuel, but regular gasoline, that it sold at regular [gas] price. That it gave high-power [performance] and reduced gasoline [consumption] minimum. 'All right for Florida, 'show us.' So, [when] than ordinary gasoline, people bought a trial [can] Blue Sunoco to be shown. —and today [they] others that [have] can be even [better] sell at regular [gas] price.

"This record of selling the finest gas price, Mr. Crosby, "has been made possible by two outstanding achievements: first by discovering an exclusive [process] petroleum [by] refining crude

"Nation's Business" Discloses Amazing Gas Taxes

Motorists all over the country are talking about the amazing disclosures regarding gasoline taxation recently made in a magazine article in Nation's Business.

This article, entitled "A Squawk From the Petroleum Goose," opens by quoting a member of Congress as saying that "The science of taxation is the science of getting the most feathers with the least squawking of the goose," and then goes on to show how the petroleum industry and the motorists of this country are paying exorbitant taxes each year, taxes that are out of proportion with those paid by other industries and consumers.

The writer states that a conservative estimate of $1,731,000,000 is collected from the petroleum industry and its customers annually, an amount to nine hundred and [fifty] million dollars a year, the equivalent of the administrative expense of forty of the forty-eight States. The article next calls attention to the fact that all States now have a gasoline tax: seventeen as high as four cents a gallon; nine, five cents; one, five and one-half cents; four, six cents, and two at the exorbitant tax of seven cents. The writer then points out that the national tax of one cent a gallon, plus other local taxes, [and] the [costs] of American [fleets] with the prospect [of] an average tax of [two] cents a gallon for their gasoline.

These taxes, the writer states, have resulted in tax-dodging, "bootlegging" of gasoline, corruption of public officials and a demoralization of the business which threatens new and fertile fields for the gangster and racketeer. Some extent of the immensity of this taxation can be found in the statement that the petroleum industry and its customers pay in taxes four times as much as is earned in profits.

Every motorist should know this amazing disclosure. Where his gasoline dollars go, and should see for himself what a great part of the tax burden he pays every time he uses his car either for business or pleasure. If you cannot obtain a copy of this article locally, it may be procured by writing the Sun Oil Company, 1608 Walnut street, Philadelphia, Pennsylvania.

Quality Wins Over Price

Oneida, N. Y.—One of the busiest spots in existing business conditions is [owned] by Mr. [Bill] Herman, [Mr.] G. D. [Herman] Sons, [Inc.], distributors [of] Sunoco Motor [Fuel] (products) [are] growing [in] demand [for] quality.

"For quite a while," he explained, [there] was a decided trend for merchandise which put price before [quality]. In other words, people would [buy] cheap,' but now that they have found that they got just what they paid for, this buying condition is reversing itself and today's demand is for quality first, with price second.

"You see this on every side; even our own business shows it! Blue Sunoco Motor Fuel, as you know, has always sold at regular gas price, and during the entire depression its sales kept on growing due to the fact that it delivered a premium performance at no extra cost.

"Of course, for a while there was an epidemic of decidedly cheap gasolines and they probably affected our business to some slight extent. But when people learned that some of these gasolines were not all that might be expected, there came an about face that brought us hundreds of new customers. When the depression was at its worst last winter, Blue Sunoco sales were at their best and we kept on climbing.

"[Now] it seems to me to believe that people were learning that [cheap] more important [than] when it is [to] why the [people] have [turned] they want, yet [get] ice.

"[The] achievement of [Sunoco] at regular [gas] Mr. Crosby, [is] possible by two [achievements]: first [by] completing an [entirely] refining crude [petroleum] [entirely] by [a] pre-

Qualities Lauded by Auto Salesman

Buffalo, N. Y.—"Yesterday I had a very interesting talk with an automobile salesman, and during the course of our conversation he paid a very deserving compliment to my own business of oil and gasoline refining.

"This man said," continued Mr. M. H. Robinson, branch manager of Sun Oil Company, "that few people realize what an important part a motor fuel like Blue Sunoco has played in selling automobiles. The new-style high-compression motor," went on Mr. Robinson, "is very sensitive to carbon, and only the knockless rating of premium-performing fuel like Blue Sunoco has made the modern motor as satisfactory as it is.

"In addition," explained Mr. Robinson, "Blue Sunoco's quick pick-up in congested traffic and its plus power on hills also seems to have been responsible for convincing any number of drivers of the increased satisfaction to be found in driving an up-to-date car.

"Still another feature of Blue Sunoco," concluded Mr. Robinson

WHY THERE IS ONLY ONE GRADE OF BLUE SUNOCO

Washington, D. C.—The local branch office of the Sun Oil Company reports that motorists of this district are greatly interested in the fact that the company has only one grade of motor fuel and motor oil, also, that several residents have asked many questions about this unique situation.

[Mr.] M. P. S. Cowan, manager of the [local] office, has written as follows: "Briefly, the fact that we have only one grade of motor fuel, Blue Sunoco, is based on the company policy, which is much different from that of the average company.

"You see," he continued, "most refiners charge an extra price for their highest and finest grade of gasoline, then they also market a regular priced gasoline and, finally, some of them have a cut-price gas as well. Well, to make a long story short, the Sun Oil Company, [after] six or seven years of discovering that through extra skill in refining we could make a more uniform, knockless motor fuel, Blue Sunoco, and also found that by concentrating all our equipment, time and effort on this premium-performing motor fuel, we could sell it at regular gas price. In other words, we could sell our finest product at no extra cost. Of course, this made any second-grade gasoline unnecessary, and naturally we did not care to lower our reputation by marketing any cut-price product.

"Consequently, our one and only motor fuel, premium in performance, remains regular in price, due to the great savings effected by our elimination of duplication. Just think what a great savings this is and you can readily see why our highest grade sells at the price of ordinary grades. In place of two or three grades, we have one. In place of hauling two or three grades, we have to haul only one. And in place of having several purchases to sell two or three grades, we sell only one.

That's why Blue Sunoco can be sold at regular gas price!"

New Sunoco Maps of Interest to All Motorists

An entirely new and different type of map is now being made available to all motorists by the Sun Oil Company. These maps are not only splendid highway guides, but also list virtually all places of scenic and historic interest in the States in which Sunoco products are sold. Maps covering New England States, New York and New Jersey are now available and will be followed by [maps] of other States as soon as they can be completed.

"I was [simply] amazed," writes [one] motorist, "to learn of many beautiful and historical interesting spots there were near my home as shown by my Sunoco map."

"Like most motorists. I have previously thought I had seen about everything worth visiting within a 100-mile radius of my home, but after one glance at my new map I found that we still had plenty of worth-while spots to visit.

"What particularly [impressed] me," he continued, "was the completeness of your Sunoco map. It is not only an excellent [motor] guide, [but] short [histories] descriptions of places of interest makes [it] the most complete map I have had in my car. From remarks [made] by my friends, who have also obtained a copy of this map, I feel sure it will be in wide demand. It is, without question, wholly unique and belongs in every car or map collection. In addition, it is certainly convincing evidence of the desire of the Sun Oil Company to serve motorists to the best of their ability. Thank you very much for contributing so generously to my family's enjoyment of our car!"

As stated above, maps for the New England States, New York and New Jersey are now available, while maps for other sections are being rushed to completion. All of these new maps, when available, can be obtained without charge by applying at any Blue Sunoco service station or dealer's place of business.

Durability Not Only Essential Quality For Motor Oil

Hartford, Conn.—Many motorists, when asked their opinion of the most necessary quality of a motor oil, reply "long service," and yet, according to Mr. D. R. Judson, of the Dwight R. Judson Co., local Sun Oil distributors, this is only half the motor oil story.

"There is no question that durability is an essential motor oil factor," he explained, "but a skilled motor mechanic will tell you that there is a more important feature; no hard carbon. And peculiarly enough the combination of these two features in one motor oil is seldom found. Most motor oils, if they have long mileage, probably form hard carbon or crankcase sludge, while those oils which do not form hard carbon or sludge usually have low mileage.

"It was the combination of these features that led the Sun Oil Company to design and patent the Mercury Process of refining motor oils. As a result the New Sunoco 'Mercury Made' motor oil is not only exceptionally durable, but also does not form hard carbon or sludge.

"The absolute need for a carbon-clean motor," he continued, "is best understood when I tell you that a layer of hard carbon no thicker than a thin dime will frequently cause knocking and loss of power in high-compression motors, and practically every motor now made is of the high-compression type. Hard carbon also fouls spark plugs and, in general, is not only an annoyance, but an expensive nuisance, as proved by the bills received by many motorists from garages and repair shops for burning out or removing hard carbon. Sunoco 'Mercury Made' motor oil not only eliminates this expense, but always gives a well-lubricated, smooth-running motor at all temperatures and is also amazingly durable."

BLUE SUNOCO NOW CALLED "The PASS-word of the Road"

Jackson, Mich.—"Whoever thought of the idea of calling Blue Sunoco 'The PASS-word of the Road' certainly coined a most descriptive phrase," says Mr. Frank Derrickson, manager of the local branch of the Sun Oil Company.

"It would be hard to estimate the number of local motorists," he continued, "who have [commented] on this unique expression and have gone on to tell us that in their cars Blue Sunoco lives up to this slogan. In every instance it seems that Blue Sunoco has always been able to give these motorists the reserve power they need to pass other cars on the road. From all I have heard and seen, Blue Sunoco certainly is 'The PASS-word of the Road!'"

Colored Blue for Your Protection

Rochester, N. Y.—"Motorists who can look back over the last fifteen or twenty years have frequently asked me if Blue Sunoco were not the first motor fuel to adopt a distinctive color, and are very much surprised when I say 'no,'" says Mr. S. D. Waters, the Sun Oil Company's local branch manager.

"The first time this subject was introduced in my presence, it aroused my curiosity, with the result that I investigated the matter and was very much interested to learn that gasoline was given different colors as far back as the World War, when the aviation grade of gas shipped overseas was given a distinguishing color to prevent its being confused with ordinary gasoline intended for the army trucks and ambulances.

"I understand that when the subject of coloring Sunoco was first discussed by the Sun Oil Company, several different colors were given serious consideration, but when it was learned that the Company could obtain a certain harmless blue dye which left the motor fuel clear and sparkling, this color was immediately adopted due to the fact that it permitted the motor fuel to be so transparent that any impurities could be instantly detected both by the Company and its customers. In fact, even today this particular dye would turn green in anything but the purest white motor fuel.

"Of course, Blue Sunoco was colored blue to help our customers to instantly identify it and to pre-

(Advertisement)

Ideal for Modern Motors

Dayton, O.—"Last week I was talking to a group of our service station managers and was very much interested and amused to find almost every one of them agreed that hardly a day went by without one or more customers asking how we were able to sell Blue Sunoco at the price of regular gasoline," remarked H. H. Moore, local branch manager of the Sun Oil Company.

"Of course, the secret isn't a secret, after all—just a difference in our refining methods, which enables us to produce a premium-performing motor fuel without needing to add the more or less customary outside ingredients to put it in the real knockless class.

STOCK MARKET PRICE LOSSES EXTENDED

NEW YORK, June 14.—(AP.)—The stock market jumped about in a highly erratic manner today as traders and investors backed their interpretations of domestic and foreign events with buying or selling orders.

Yesterday's late reaction lapped over into the early part of the session, being augmented considerably by "stop-loss" instructions a point or two under the previous close. A host of these advance selling orders were touched off before some support arrived for the favorites. There were intermittent rallies and declines with losses generally ranging from fractions to around two or more points. Commodities also were nervous, corn, wheat and cotton being subjected to profit taking. The American dollar continued its recovery in foreign exchange markets.

The fact that United States government securities and highest grade corporation bonds have maintained a steady to firm position in the fact of inflation talk has tended to puzzle the banking community as well as commission houses. Fixed interest-bearing investments seemingly have paid little or no attention to the external depreciation of the dollar.

Among reasons for the strength of these low-yield investments, some financial observers point out, is the open market campaign of the Federal Reserve System and the belief of conservative banking elements that currency expansion will never be utilized to any great extent and that credit will be broadened only to where prices can generally be returned to normal.

Various economic experts, in studying the present improvement in industry, see insurance as a sound barometer of business. Recent reports of the life companies disclose that sales in this field, although showing a decline in May of about 15 per cent under the same month last year, are making a favorable comparison with 1932. The May decline was much the smallest percentage loss this year and compares with 23 per cent in April and 35 per cent in January. It was recalled that the improvement occurred despite the declining trend in policy loans.

WHEAT CLOSES NERVOUS, OFF

CHICAGO, June 14.—Wheat values tumbled about 2 cents a bushel late today, owing largely to reports of Argentine opposition to acreage reduction moves at the World Economic Conference.

Pessimism as to the conference outcome was expressed by many traders. Weakness of the stock market and a sharp decline in sterling were contributing bearish factors.

Wheat closed nervous, 1 to 1½ cents under yesterday's finish; corn, ½ to 1⅛ cents down, oats ⅜ to ¾ cent off, and provisions at 12 to 20 cents decline.

The following quotations on the Chicago Board of Trade are reported by A. E. Masten & Co.:

NEW INSURANCE SHOWS GAIN

NEW YORK, June 14.—(AP.)—New life insurance written in May exceeded the total for any previous month this year, the Association of Life Insurance Presidents reported today. Although production was 15 per cent under a year ago, the decrease was the smallest thus far in 1933.

The report, covering new business of 43 American companies having 81 per cent of the total volume handled by legal reserve corporations, was $645,320,000, as against $628,778,000 in April and $759,353,000 in May of last year. The decrease from 1932 in new ordinary life was 11.2 per cent; in industrial insurance, 14.7 per cent, and in group insurance, 54.3 per cent.

Scrap Men Seeking 'Fair Trade' Code

CLEVELAND, June 14.—(AP.)—A "code of fair competition" for the scrap iron industry will be drafted at the annual convention of the Institute of Scrap Iron and Steel, Benjamin Schwartz, director-general of the organization, has announced.

The proposed code was discussed at a meeting of the Cleveland chapter of the institute, and Schwartz said it would be given final form at the institute's convention in Chicago during the week of July 3.

Rubber Consumption Best in Four Years

NEW YORK, June 14.—Consumption of crude rubber in the United States during May amounted to 44,580 tons, the highest monthly total since May, 1929, and comparing with 26,226 tons in April and 30,957 in May, 1932, according to the Rubber Manufacturers' Association.

With imports amounting to 27,556 tons for the month, stocks of rubber on hand in this country at the end of May were 364,459 tons, as against 382,167 on April 30.

QUARTERLY INCOME SHARES

Avoid Economic Waste

DISTRIBUTED BY A NATIONAL GROUP OF INVESTMENT HOUSES AND BANKS

Dividend Notices

THE BELL TELEPHONE COMPANY OF PENNSYLVANIA

Thirty-eighth Dividend
Six and One-Half Per Cent
Cumulative Preferred Stock

The thirty-eighth quarterly dividend of one dollar and sixty-two and one-half cents per share will be paid on Saturday, July 15, 1933, to stockholders of record at the close of business Tuesday, June 20, 1933.

C. L. RITCHIE,
Treasurer.

OFFICE OF THE WESTINGHOUSE AIR BRAKE COMPANY
Pittsburgh, Pa., June 13, 1933.

Dividend—The board of directors has this day declared a quarterly dividend of twenty-five cents ($.25) per share on the capital stock of this company, payable July 31, 1933, to stockholders of record at the close business on June 30, 1933.

S. C. M'CONAHEY,
Treasurer.

STEEL OUTPUT INCREASES

NEW YORK, June 14.—(AP.)—A general wage advance by the steel industry "seems a certainty," said the Iron Aage trade review today, although it explained that the effect of industrial control legislation was "entirely conjectural" and that the steel producers were marking time for the present.

The publication reported output of steel ingots at 47 per cent of capacity against 44 per cent a week ago.

Producers are deferring action on prices for forward delivery until pending final enactment of the industrial recovery bill, and reluctance of the manufacturers to take forward business has worked against speculative buying. The review cotinued:

"Although control legislation may have speeded up buying and demand remains unbalanced with little support coming from railroads, construction or the oil industry, there is no gainsaying that steel consumption is still increasing.

"June sales of automobiles are moving contrary to the usual seasonal trend, and retail deliveries this month may set a new high mark for the year."

Forbes

Should Open Closed Banks More Quickly

—By B. C. FORBES—

TOO MANY still are victims of closed and partially opened banks.

Not enough diligence is being exercised by governmental authorities in making funds available to needy depositors. Since the first spectacular reopenings, relative little has been done.

Mr. Forbes

Depositors can and do feel aggrieved, aggrieved at Washington, aggrieved at bankers. They are being unwarrantedly punished for having been patriotic. Remember that we all were exhorted not to withdraw money from banks and hoard it, by the President of the United States, the Secretary of the Treasury, state Governors, everybody high in authority.

Citizens who did not obey have their money and can laugh at those who did obey, those who left their money in institutions now closed.

The least Washington can do by way of atonement is to do everything possible to mitigate the crime committed against victimized depositors. Banks that are to be reopened should be reopened without one day's avoidable delay. The authorities should make it possible for depositors in banks doomed not to reopen to obtain part of their funds forthwith.

It is not fitting that patriotism induced by pleas from the heads of the United States government should be unnecessarily punished and that those who refused to heed the authorities be placed at undue advantage.

"DON'T FALL FOR the speculation going on in raw rubber."

That is the advise urged by America's leading rubber company presidents after digging into all the facts.

Crude rubber has shot up from 2.81 to 6.13 yesterday, an advance of no less than 188 per cent. One rubber president tells me:

"A lot of lambs who are speculating in rubber are being fattened for a killing, exactly as other lambs were slaughtered in 1929 on the stock exchanges."

He gives the following as "the real facts":

1. The present price of crude rubber is wholly unwarranted.

2. Rubber manufacturers are covered in practically every case with enough rubber at low prices to last one to two years.

3. The buying is being done almost solely by speculators.

4. With rubber selling at over six cents spot, producers will speed up production.

6. Manufacturers are fearful at this moment that when the avalanche of orders is filed, and dealers stock up, then factories will have to return to a very short workweek.

7. Some manufacturers are unloading rubber at twice what it cost them.

8. Constant talk about impending restriction of production has no solid foundation.

It would invite incalculable consequences were rubber and other things forced to dizzy, untenable heights by speculators, because there is no telling what would happen were another economic collapse to afflict this country.

WILL WAGE readjustments upwards be accomplished as smoothly as was the readjustment downwards?

(Copyright, 1933, B. C. Forbes.)

COTTON PRICES RULE STEADY

NEW YORK, June 14.—Cotton futures opened steady, 3/8 lower under relatively lower Liverpool cables, commission house and southern selling. July 9.18; October 9.44; December 9.61; January 9.68; March 9.85; May 10.00.

Initial offerings were taken by covering or trade buying attributed partly to price fixing. The demand was not active but it was sufficient to steady prices and the market worked up from 9.18 to 9.30 for July and 9.59 to 9.68 for December. Active months ruled about net unchanged to 4 points higher at the end of the first half hour.

Selling became more active after publication of the weekly weather report, which was interpreted as reflecting favorable crop progress. Prices eased below the opening quotations under offerings which included some reselling or liquidation by early buyers and the decline was promoted by the easier wheat and stock markets. July sold off to 9.16 cents and December to 9.57 cents, making net declines of about 10 to 12 points, but the market at midday was steady at rallies of 3 or 4 points from the lowest.

LIVERPOOL, June 14—Cotton receipts, 14,000 bales, including 1,700 American. Spot in better demand, improved business done; prices unchanged; Quotations in pence: American strict good middling, 6.99; good middling, 6.69; strict middling, 6.39; middling, 6.24; strict low middling, 6.09; low middling, 5.89; strict good ordinary, 5.69; good ordinary, 5.39. Futures closed quiet and steady. July, 5.97; October, 5.96; December, 5.99; January, 6.00; March, 6.04; May, 6.07.

Exchange Suspends Continental Motors

NEW YORK, June 14.—The following statement was issued by Richard Whitney, president of the New York Stock Exchange:

"The stock of Continental Motors was suspended from dealings on the Exchange this morning pending investigation of the circumstances surrounding the recent distribution of treasury stock of the company."

NEW YORK CURB MARKET

NEW YORK, June 14.—(AP.)—Following is the list of transactions on the New York Curb Exchange, givin gall stocks and bonds traded (00 omitted in sales column of stock list; 000 omitted in sales column of bond list):

MORE COTTON CONSUMED

WASHINGTON, June 14.—(AP.)—Cotton consumed during May was reported today by the Census Bureau to have totaled 620,909 bales, exclusive of linters, compared with 470,685 during April this year and 332,372 during May last year.

Cotton on hand May 31 was held as follows:

In consuming establishments, 1,394,607 bales, compared with 1,367,956 on April 30 this year, and 1,463,126 on May 31 last year.

In public storage and at compresses, 7,320,977 bales, compared with 8,151,547 on April 30 this year and 7,614,500 on May 31 last year.

Imports for May totaled 8,648 bales, compared with 7,337 during April this year and 22,664 during May last year.

Exports for May totaled 591,647 bales compared with 436,450 during April this year and 500,871 during May last year.

Cotton spindles active during May numbered 24,571,498, compared with 23,416,680 during April this year and 21,633,036 during May last year.

Liverpool Wheat Market.

LIVERPOOL, June 14.—The market was due ½d lower. Opened ⅛d lower to ⅛d higher, and at 1:20 p. m. was unchanged to ⅛d off.

POWER OUTPUT TAKES SPURT

NEW YORK, June 14.—(AP.)—Electric power output last week rose 7.4 per cent over the same period last year, the largest gain since 1929. The report also marked the sixth consecutive week of gain over last year.

The week's production, according to the Edison Electric Institute, amounted to 1,541,713,000 kilowatt hours against 1,461,488,000 in the previous week and 1,435,471,000 in the like 1932 period.

In exceeding by a considerable margin the output of the previous week and the corresponding week last year, production was carried to the highest level since the week before Chsistmas last year.

The most striking gains in production were in the central industrial region, which was 10 per cent above the 1932 week, and New England with an improvement of 14.5 per cent.

FELT JIG-SAW PICTURE

Whoever has not yet fallen victim to the jig-saw puzzle may be lured to it by this gay felt puzzle; whoever has already been caught by its fascination, will be doubly pleased with this picture of colorful felt, for the puzzle when solved is a decorative picture that can be framed. Here is an opportunity for the family to join in the help—and what jig-saw fan isn't all attention with every variety of jig-saw puzzle? When the picture is all put together the felt pieces are pasted on cardboard, the picture is framed, and a most attractive decoration is ready to be hung in living-room or bedroom. The pattern includes a transfer pattern of the parts of the picture, grouped according to color; an actual size chart of the finished picture (but what jig-saw fan would need it?) and directions for stamping the pieces and making the picture. This pattern, No 462, cost ten cents. In a separate package, we offer seven colors of felt, each piece sufficient for the piece of that color needed in the picture. Attractive, harmonious colors have been selected, which when combined in the picture, make a color scheme that is most attractive. The package of felt costs ten cents. Felt and pattern together, 20c.

Send your order to Pittsburgh Sun-Telegraph, Needlecraft Department, 82 Eighth Avenue, New York City.

Postmaster Named In Somerset County

WASHINGTON, June 14.—(AP.)—The Postoffice Department has appointed John F. Rubal, postmaster at Miller Run, Somerset County. He succeeds William H. McCracken.

OBITUARY

Kasberger Funeral.

Funeral services for John S. Kasberger, 39, former Pittsburgher, who died Sunday in Chicago, will be held in St. Xavier's Church at 9 a. m. tomorrow, where solemn requiem mass will be celebrated. Other services will be held at the home of a sister, Mrs. E. C. Flanagan, of 3524 Brighton road, North Side.

Mr. Kasberger was a graduate of Mercersburg Academy and the University of Michigan.

Besides his widow he leaves two sons, John and Thomas Kasberger; a daughter, Mary K. Kasberger, and four sisters, Mrs. Flanagan, Mrs. J. R. Gavin and Miss Mary D. Kasberger, of Pittsburgh, and Mrs. W. I. Simpson, of Philadelphia.

Addison Storrs Lewis.

Addison Storrs Lewis, oldest living member of Phi Delta Theta fraternity and member of a family prominent in the Presbyterian church, died at his home in Yellow Springs, O., according to word received here.

He was a graduate of Miami University, Oxford, O., and Lafayette College, and formerly was employed by the Baltimore and Ohio and Pennsylvania railroads. He leaves his widow, Margarette McLean Lewis; a daughter, Mrs. Nelson Clark, of Pittsburgh; a sister, Miss Harriette Lewis, for years a Presbyterian missionary at Canton, China, and a nephew, Dr. A. B. Lewis, curator of Field Museum, Chicago.

Gauerman Funeral.

Funeral services for Frank A. Gauerman were held today at his home, 204 Reifert street, Knoxville. He died Sunday in the Veterans Hospital, Chillicothe, O.

Besides his widow he leaves his mother, Mrs. Josephine R. Gauerman; a sister, Mrs. Newell K. Campbell, and a brother, Karl H. Gauerman, all of Pittsburgh.

Death Notices 1

ALBERTSON—Tuesday, June 13, at 7:15 p. m., WILLIAM R. ALBERTSON. Funeral from the family residence, 4 Second street, Aspinwall, Friday, June 16, at 8:30 a. m., with requiem high mass at St. Scholastica's Church at 9 o'clock.

Contract Bridge How to Play How to Win

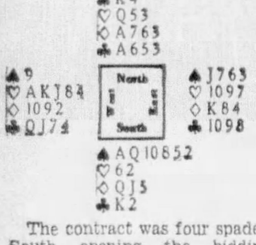
By Josephine Culbertson

Playing a Hunch

It is the mark of a good Bridge player that early in the play of the hand he prepares for any possible eventuality. As far as possible, he safeguards himself against the element of unfavorable distribution. Most of the time these precautions are unnecessary, and the poor player who goes at things hit or miss achieves the same result as the man who guards himself against the unexpected. But about one time in three unusual distribution comes along, and in this case the careful player who has foreseen possible contingencies reaps a reward which the careless player never does.

Take as an example the hand below, played in a Rubber game in Savannah, Ga., in which the holder of the South hand was Mr. F. W. Clarke, Jr.

West, Dealer.
Both sides vulnerable.



The contract was four spades, South opening the bidding Fourth Hand because of the long and rebiddable suit, although the hand was a minimum in honor-tricks.

West opened with the King of hearts, and followed with the Ace, thinking that his partner's play of the 7 on the first lead must indicate a relatively short suit and, by inference, at least one more heart in the hand of Declarer. After cashing his two heart tricks, West shifted to a diamond, and East was permitted to win the trick with the King. At this point it was apparent to South that he could win all the remaining tricks without any trouble provided the trumps broke 3-2. From the cards that South could see, the odds appeared to favor this distribution, but South saw no reason why he should not protect himself against a possible 4-1 distribution with East holding four spades. If West held four to the Knave, then no play could make the hand.

East returned the club Ten, which South won with the King. The next lead was a club, which was won with the Ace in Dummy. South now led the Queen of hearts and ruffed with a small trump, thus taking the first step toward the insurance of the contract. He followed with the Ace of spades and a low spade to the King in Dummy, which disclosed the fact that East held the protected King of trumps. A small club was led from Dummy and ruffed in the closed hand, and then the Queen of diamonds was cashed. The third round of diamonds was overtaken with the Ace, and the twelfth and thirteenth tricks won with the Queen and Ten of spades.

The hand is a splendid example of planning the play. Mr. Clarke actually started the preparation for the coup situation without knowledge of the trump distribution in the hands of his opponents. Had he waited until the second lead of trumps disclosed that fact to him, he would have lacked the entry cards in Dummy necessary to the successful execution of the coup.

Today's Question

You hold:

♠ — ♡ A Q 10 4 ◇ A K 10 3 2 ♣ K J 10 6

You are vulnerable and Second Hand. The Dealer, not vulnerable, has bid four spades. What do you bid?

Answer: Four notrump. This is a perfect example of the use of the new Forcing bid under the Approach-Forcing System. Partner must bid his best suit. The hand is obviously strong enough to stand either five clubs, five diamonds or five hearts. A Double in this situation may be left in for a penalty, which probably will not be sufficient to counteract the game which you and your partner probably have. The four-notrump bid is absolutely Forcing.

★★★★★ 5 STAR CAST!

How long must a neglected wife endure the hurts of a husband whose business takes him into the company of other women! Souls are laid bare in this picture! It was terrific success on the Broadway stage because it thrillingly told a story that comes close to many homes! Husbands, wives, sweethearts will find in its romantic tale many things that they have pondered about!

Savage Paradise

By MARGARET MATCHES

AUDACIOUS GIRL REVEALS SECRETS OF SOUTHERN SEAS

(Continued from Yesterday.)

CHAPTER XXV.

But the smuggling of plumes by Jane Dale amused me most. If it hadn't been for her Aunt Henrietta she would never have got the feathers off the ship. And one of them was a blue paradise. Jane herself didn't have much imagination, but paradise plumes will develop cupidity in the most honest souls. Anyhow, Jane was going down south on furlough, and she succumbed to the desire to smuggle her sunset, scarlet, and precious blue feather into Sydney. When the time approached for disembarking and running the gantlet of customs, she began to weaken.

Anyway, Aunt Henrietta came aboard to greet her niece, who had married and gone to live in outlandish places. After embracing her, Jane showed her a parcel that she didn't know what to do with. She couldn't even think of a safe way to dispose of it. Aunt Henrietta, looking at it thoughtfully for a moment, said briskly: "Nonsense, child, there's nothing to worry about. Just give them to me." They were in the privacy of Jane's cabin at the time. Without batting an eye, Aunt Henrietta lifted up her skirt and somewhere in the folds of a heavy silk petticoat she firmly concealed three contraband paradise pelts. Majestically the old lady swept ashore into the midst of the enemy. Woe to the customs officer who started hunting paradise plumes among Aunt Henrietta's petticoats. She's dead now, God rest her soul! I hope she hasn't had to pay for the deception.

NOT MANY ANIMALS

It seems strange that there are so few animals in New Guinea. Knowing little about it, I had expected to find wild life akin to Africa's. And certainly monkeys.

There are no monkeys of any description. Nor are there any indigenous large animals. There are wallaby rats, like tiny kangaroos; little round-eyed kapul, or possums, which the natives skin and eat; great pukhpukhs (alligators); strange red-and-white marsupial possums; small flying possums, or squirrels, wingless but with a web of fur from forepaw to hind legs, which climb up and fly down; and the great predatory flying fox, which the natives call blackbokis. This is an enormous bat, sometimes with a wing-spread of four to five feet; everywhere at night you can hear the flapping of their wings. They will cling to ripe papaws, on which they chiefly live. And there are also dread vampire bats.

There are a few poisonous snakes in New Guinea, particularly on the mainland, but no one ever seems to regard them as a menace. There are also pythons, 20 or more feet long.

The sea is more deadly than the land. There are sharks, great sea-pike with double rows of teeth that can snap off a leg or arm, devil fish, and clams that sometimes weigh a ton. The natives seem to have no fear in the water; I have seen them swimming unconcernedly with an ominous fin circling horribly close; and the kanakas merely made much hilarious noise and splashing, and came to no harm.

WAIT FOR SCHOONER

But while there are no large and fierce animals out there, there is the little, striped insect of evil—the anopheles mosquito, carrier of malaria. It can, and does, spread misery.

* * *

Jim was excited about the coming of the Nuloa. For many weeks he had been biding his time, waiting for some way to transport his horses and supplies up to Marienberg. He was tired of the enforced idleness; he wanted to get back into the hinterland; he loved the jungle, loved the battle against swift-running rivers and primordial bush, loved the ever-present sense of danger. He expected great things of this trip into the hinterland; he and Brearly were to recruit natives as carriers for the gold fields. At Edie Creek and the Bulolo Valley they were paying 20 pounds a head for strong boys. They were paying that high price because native carriers were almost impossible to get up there, what with the wretched miasmic climate, fear of the hostile neighboring tribes that resented invasion, and the hardships connected with toiling, shoulder-laden, up to the gold country.

I was excited, too, about the expected schooner. I had confided to Jim my consuming ambition to enter the Sepik River. He agreed that it would be a great adventure for me, though he allowed he doubted if I could ship on the Nuloa for the voyage she was supposed to be undertaking. But he promised to do what he could to help me.

ANXIOUS FOR VOYAGE

I wanted to go with the Nuloa more than I've ever wanted to do anything. I had lived for months on the islands; I knew what they offered of happiness and desolation; now I wanted something else. I wanted to wander lazily and aimlessly for weeks through the Pacific, touching upon sun-splashed atolls, harboring at night in still lagoons, lying under a million bright stars. Who hasn't achingly wanted, at some time in his life, to idle aboard a schooner through tropic seas? Jim didn't seem to be as impressed with my idyl as I was. He said briefly: "A schooner's a hell of a life." And later he warned: "The monsoons will be blowing soon; that's no time to be at sea." The threat of a monsoon aroused my enthusiasm. I didn't know about monsoons then.

One morning we heard the kanaka shout of "Sail-o!" Through the islands the Nuloa sailed slowly, beautifully.

Late that afternoon Capt. Alys stopped by Meg's bungalow for tea. He was in a genial mood, just mellow. He told us that Burns Philp had brought the Nuloa up from Fiji, where she had been making inter-island voyages for 18 years, and that he was now to take her out on an experimental cruise up the New Guinea coast, through the Admiraltys and out among the northern islands of the archipelago as far as the Anchorites, just under the equator.

CAPTAIN DIFFICULT

The Nuloa's cruise was undetermined as to length and destination; her skipper was simply out to discover what he could about the vaguely charted waters and northern atolls of the archipelago. He had cargoes, however, for two plantations along the New Guinea coast and for the mission station at Marienberg, up the Sepik River.

I said to him: "Capt. Alys, take me as a passenger. You just don't know how good I'll be."

Having poured himself another beer, he said: "It's no good having a woman aboard a schooner on a trip like this. Women are in the way. They always make trouble." When Capt. Alys had something to drink he was down on women.

I said: "I won't make any trouble. I'll be as quiet as a mouse if you'll let me go along. I've come all the way to New Guinea for a schooner trip like this."

Jim put in: "She won't give you any trouble, Alys. Take her along." Capt. Alys was fond of Jim.

Capt. Alys said: "Do you realize what you're getting into? I don't know where I'm going, or how long we'll be gone. We may be gone several weeks or we may be gone for months. If you get tired of it, there's nothing you can do about it—and we don't want any complaining or whining!"

I said, also with some heat: "But I won't whine, or get tired of it. I know what I want to do!"

When he had gone, Jim reassured me: "Don't worry. He'll take you."

WISH GRANTED

The next day Capt. Ayls said: "Do you still want to go with us?" I replied: "You bet!" And he said: "We'll be sailing day after tomorrow at 6 a. m." I replied: "Aye, aye, sir."

I went to the B. P. store to make arrangements. Ordinary travel by schooner is a pound a day; that is the universal rate among the islands. It is also the rate for island steamer travel. But under the circumstances, since no one could know how long we should be gone, they charged me 12 shillings a day—about $3. I didn't care what it cost, so long as my letter of credit held out.

"Ho! Ho!" thought I, "here is an adventure!" The accomplishment of what I most wanted to do! We were heading for a mysterious river and reef-fanged, little-known seas. The Nuloa, of course, carried no wireless. If disaster overtook us there would be little chance of rescue, for only rarely did small schooners frequent the waters of the northern atolls, and more rarely still in the monsoon season. Our food would be such tinned goods as the schooner carried, relieved by what we ourselves could procure from sea or island. Our water supply would be dependent on rain, caught in galvanized tanks. Furthermore, the northwest monsoon would shortly be upon us, for it was October, Maskee! It sounded wonderful!

In my mind's vivid picture I had neglected to include cockroaches that overran the schooner, and millions of copra bugs, and dangling white worms that eventually grew up to be copra bugs. If I had, I might not have gone. I airily dismissed ghosts of black-water fever and malaria that stalk one constantly in New Guinea. I even hoped for a monsoon.

JUNIOR PATROL PLEDGE

I promise to help children less fortunate than I am.
I promise to do my best to make my parents proud of me.
I promise to watch carefully when crossing streets and to aid other children in keeping out of danger,
I promise to study hard and do errands willingly.
I promise to be a 100% Junior Patrol member.

Signed .....
Date of Birth.....Address.....
School .....

Address this pledge to the JUNIOR PATROL, Sun-Telegraph, Pittsburgh, Pa. Upon its receipt you will be registered as a member of the JUNIOR PATROL and will be forwarded a membership card and an official emblem.

PICTORIAL EDUCATION

EMOTIONS, MUSCLES AND NERVES (Science)

During pleasant emotions, blood is sent to the digestive tract. Its muscles are innervated, saliva and gastric juice secreted and the vital tone increased throughout the body. During unpleasant emotions, impulses from the sympathetic nervous system reduce the glandular activities of the digestive tract, cut down saliva and send blood to the skeletal muscles for the preserving responses. The result is heightened activities of the brain and sense organs, alertness, increased blood circulation, quicker respiration, oxidation and removal of wastes. Emotions also activate the muscles of bodily motion and facial expression and are followed by exhaustion and fatigue. (Moore: Dynamic Psychology). (Caldwell, Skinner and Tietz: Biological Foundation of Education).

MANUFACTURE OF SOAP, GLYCERIN AS BY-PRODUCT, AND NITROGLYCERIN

(Chemistry)

By boiling fat (a mixture of olein, palmitin and stearin) with hydroxide (Na or K), soap is obtained. This is the salt of the oleic, palmitic and stearic acids. The reaction between stearin and sodium hydroxide (saponification): $C_3H_5(C_{18}H_{35}O_2)_3$ (stearin) + $3NaOH = C_3H_5(OH)_3$ (glycerine + $3NaC_{18}H_{35}O_2$ (sodium stearate). Melted fat is boiled with lye in a big kettle by means of steam coils and stirred by forcing live steam through it. The reaction takes two to five days. The soap is "salted out" by adding salt and heating. The soap rises to the top of the "spent lye" and is run into the "mixer," where perfume, borax, etc., are added, then poured into molds, cut and pressed into cakes. The glycerine is separated by distillation from the "spent lye." This is a colorless oily liquid having a sweet taste. Nitric acid reacts with glycerin forming a nitrate, known as nitroglycerin, which is very explosive. Dynamine consists of nitroglycerine absorbed in wood pulp together with some oxidizing agent and is not so easily exploded as pure nitroglycerin; one reason why dynamite is more largely used because it can be shipped with safety. (McPherson and Henderson: Study of Chemistry).

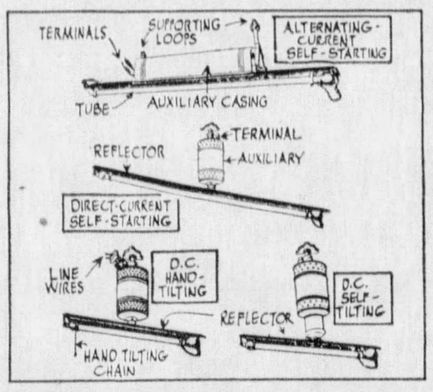
MERCURY VAPOR LAMPS



These lamps were invented by Peter Cooper-Hewitt and each consists of a light-giving part and an arc-starting mechanism. The former is a vacuum tube with a mercury-filled bulb (— electrode) at one end and an iron cup at the other (+ electrode). The arc-starting mechanism (auxiliary) is an electric (or hand) tilting device that causes mercury to flow between the electrodes, connecting and interrupting the current, or a high-voltage producer which is cut out when the arc is started (the produced mercury vapor maintaining the arc). The lower picture shows the tube removed from the lamp. Only d. c. can produce a mercury arc, but by employing an auto-transformer and 2 + electrodes, a. c. can be used. (Croft: Electric Illumination). (Science).

Courtesy of General Electric Vapor Lamp Co.

COLDS REDUCED BY MERCURY VAPOR LAMPS IN A FACTORY

The mercury arc light is bluish-green, contains no red, is easy on the eye and can be used with advantage where it is unnecessary to distinguish color values (photography, industrial lighting). As it is very rich in short waves (ultra violet) it can render great service in medical and chemical application. Through the use of special glass or quartz (SiO_2) tubes the beneficial effect of ultra violet radiation can be enjoyed by people indoors. Mercury arc lamps can be used for sterilizing water and for irradiating foods, a process by which the vitamin content is greatly increased. (Science).

Adding Insult to Injury

Bugs Baer

Distance Hound Hears a Bark

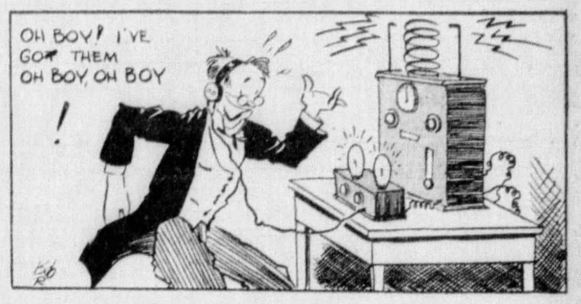
Scientist with a six-tube ear claims to have heard radio gadgets from Sagiturus or one of those planets outside the Kellogg Pact.

He may be right for there is a first time for everything. But all the chaff you gather on your cylinders is not wheat. Plenty of musical disturbance is merely the direct and alternating overflow from your electrical refrigerator.

Every time a trolley car hippity-hops past our door we get radio entertainment never heard before on land or sea. It sounds like it might come from Saturn or Mars. But the repair man is honest about it and never charges us that mileage.

If you have a dentist in your building who uses an X-ray machine we guarantee your radio will register the queerest gobbles and chirps you ever heard. The X-ray throws all the laughing gears out of joint and gives you a commercial program that sounds like something growling from the dark end of a mountain cave.

The scientist is a man who can explain everything so clearly he almost understands it himself. This one says he got Class A postal service from Sagiturus, but fails to file corroboration dur-



ing the usual 30 days of grace. We first want to see the signatures of three reliable Sagiturians. For, it happens, we know the language. We studied it off the chest of a tattooed man in Ringlings' circus.

We have a master aerial in our shack. About 500 radios all tune in on one string. The system hooks up with the electric lights, the automatic washing machines, the fireless cookers, the radiators and the cellar pumps. The effect is marvelous. It's a perpetual sonata in a million keys. You can well befuddle yourself that you are listening to Sagiturus, Mauch Chunk or Medicine Hat.

The steel construction of modern buildings is also conducive to stray and impromptu entertainment. It attracts everything including static, capillary tremors of the ninth avenue elevated and gypsy moths.

If we ever move to the suburbs where they say there is no interference we certainly are going to be lonely. But they tell us the thunderstorms and the bullfrogs will fill in the doldrums while waiting for the station announcements from good old Sagiturus.

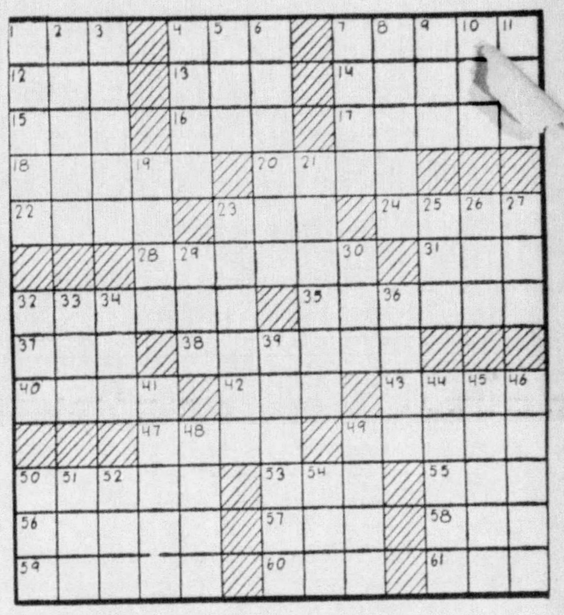
Today's Crossword Puzzle



HORIZONTAL

1—Flat-bottomed boat.
4—Large extinct bird of New Zealand.
7—Edible seed of certain pines of Western United States.
12—Note of Guido scale.
13—Auditory organ.
14—Make amends.
15—River in Switzerland.
16—Greek letter.
17—Pressure or force.
18—Placed upright.
20—A cleansing.
22—Relate.
23—Assistance.
24—Yell.
28—Tract of land surrounded by water.
31—Beam.
32—Rebound.
35—Small mammal of Madagascar.
37—Ancient wine vessel.
38—Advertising sheet.
40—Silent.
42—Golf term.
43—Transaction.
47—Blast of wind.
49—Fortification work with two parapets.
50—Marks.
53—Greek letter.
55—Nucleated egg cells.
56—Thick soup.
57—S-shaped worm.
58—Soak, as flax.
59—Aids.
60—Dine.
61—Before.

Herewith is the solution to yesterday's puzzle:

No Bi-Partisan Machine

The News That Democratic Leaders Have Been Ordered to Sever Ties with Republicans Is Welcome.

James A. Farley, Democratic National Chairman, is reported on good authority to have required local Democratic leaders applying for Federal jobs to pledge themselves to sever political alliances with Republicans. This is welcome news.

David L. Lawrence, the Democratic County Chairman, who has been appointed as collector of internal revenue, and James Houlahen, a former county commissioner, who has been named collector of the port, were among those from whom the pledge was required.

This was especially fitting, because Lawrence was Republican Boss James J. Coyne's candidate for county commissioner in the election of 1931, while Houlahen was an ally of the late Republican County Chairman Joseph G. Armstrong.

The people of Allegheny County will have a better chance for a square deal without a bi-partisan machine.

New Scandals

Irregularities in City Treasurer's Office Show Importance of Good Appointments.

An audit of the City Treasurer's office reveals that during Roy D. Schooley's administration city deposits amounting to $2,400,000 were at one time in the Pennsylvania Trust Company, notwithstanding that the law limits the deposits to $1,000,000.

It is also disclosed that instead of being protected with approved bonds, only $220,000 of such securities were put up.

It is revealed that defalcations exceeding the indemnity bonds were committed by employes in the delinquent tax office, and that tax receipts were issued in exchange for worthless checks.

There is so strong a suspicion that the situation calls for criminal prosecutions that it hardly seems necessary to suggest that District Attorney Andrew T. Park give the new disclosures his personal attention.

One lesson to be derived from the mess is that greater consideration must be given by the people of Pittsburgh to the question of the appointments likely to be made by candidates for Mayor. The City Treasurer is appointed by the Mayor.

U. S. 'Racket' Inquiry

The Evil That Is to Be Investigated Affects Almost Every Community

By unanimous action, the United States Senate has ordered a nation-wide investigation into all phases of racketeering, and appropriated $10,000 to defray the expenses of this much-needed proceeding.

The inquiry was authorized by adoption of the Copeland resolution, which the New York Senator introduced while the Hearst newspapers were directing public attention to the magnitude and menace of racketeering evils in this country.

The commerce committee's sub-committee to which the investigation has been entrusted—composed of Senator Copeland as chairman, with Senators Murphy, of Iowa, and Vandenberg, of Michigan, as colleagues—may be expected to pursue their task zealously and thoroughly. All of them are fully cognizant of the disgraceful prevalence to which racketeering has grown in American industrial and social life.

As the Hearst newspapers have shown, the racketeer infests almost every community.

Almost every household pays tribute to his lawlessness and his rapacity, in the form of higher prices for many necessaries of life.

Workingmen and businessmen alike have been the immediate victims of his greed and violence.

The very courts of justice have not been immune from his conspiracies and his intimidation of witnesses. Bail bond rackets have flourished in partnership with other nefarious rackets which the courts are presumed to punish.

Crimes of violence have multiplied, and all too often have gone scatheless under the regime of the racketeer. Extortion, kidnaping, bribery, arson and murder have been the racketeer's daily weapons, and among his constant sources of gain.

A lethargic or uninformed public has supposed, of course, that local law could or should deal adequately with the racketeer.

Unfortunately, however, in far too many communities, a corrupt alliance with politics has sheltered the racketeer from the law.

"Little shots" have sometimes been caught and jailed.

The "big shots" have put themselves above the local laws.

Federal action has long been needed to expose this unholy union and to lead the way toward remedial measures.

The Senate's inquiry promises to be the first step in such federal action—and may the inquiry be made as searching and relentless as the racketeering evil demands.

This country has got to be purged of racketeering in all its forms, and there must be no let-up until that work is completed.

Parole Failures

Supervision Is Warranted by the Number of Prisoners Released on Probation Who Return to Prison.

Until November 1, 1930, prisoners released from Pennsylvania prisons on parole were furnished with report blanks which they were expected to fill in and return every two months. But there was no other checking of their conduct, and the system was so loose that cases were found in which men actually serving new terms in prison succeeded in having favorable parole reports mailed to the institutions from which they had been released.

On November 1, 1930, a new system of personal supervision of paroled prisoners was put in effect. We now have in a report by Louis W. Kolakoski, field agent of the Pennsylvania Board of Pardons, a study of the way in which it has worked. The verdict must be that the change has been for the better.

Professional criminals do not like to be under personal supervision while on parole. The case is cited of a forger who declined a parole, saying he would rather stay in prison than have parole agents trailing him.

Under the new system 83.4 per cent of the paroled prisoners have either completed the parole period or are still under supervision and in good standing. The remaining 16.6 per cent have failed to make good, and most of them have been returned to prison.

The number of failures is sufficiently large to justify personal supervision of all paroled prisoners.

'Legalized Larceny'

(Copyright, 1933.)

"Legalized Larceny"—the phrase was Calvin Coolidge's. Discussing iniquitous taxation, he said:

"The collection of ANY TAXES ... which do not beyond reasonable doubt contribute to the public welfare, is only a species of LEGALIZED LARCENY."

Events have proved that the Federal Income Tax DOES NOT "contribute to the public welfare."

What this country needs is a Manufacturers' Sales Tax, which WILL finance the Government and ABOLISH the larcenous income tax.

Marry-Go-Round

By HELEN ROWLAND

Why Paralyze Bridegrooms?

All the book shops have suddenly broken out into a violent rash of volumes on marriage. How to bear it, how to face it, how to get through it, how to make the best of it!

* * *

You'd fancy, from all these lugubrious warnings, that marriage were the electric chair—or at the least, the throne of England. It's enough to paralyze any timid young lover and drive him to eternal misogyny! And almost enough to make a girl want to take the veil, in preference to the wedding vows.

* * *

Funny—but a man can go to Congress and help make the laws affecting thousands of people without the slightest equipment for his job, except a dinner coat and a hair-trim. But a trip to the altar is more serious and hazardous. Booh!

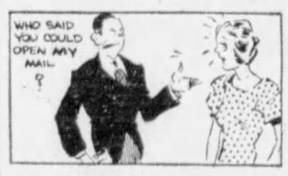
As a matter of fact, the problem of marriage is just the problem of knowing how to live with another HUMAN BEING, and there is no "special course" which can prepare you for it. All you need is a knowledge of human psychology.

* * *

All that is required to live happily with ANY human being, whether of your own sex or the opposite sex, is honest mutual regard, frank and complete understanding and a lot of common or garden fairness and consideration. It's as simple—and as complicated—as THAT!

* * *

When you marry, you are not elected anybody's "keeper," and you have no more right to invade a husband's or a wife's privacy than you have that of a roommate or a business partner. Nor to censor each other's diet, habits and preferences, unless they make you personally awfully uncomfortable. Nor to open his mail or pry into his secret thoughts.



If a man's habits or a woman's ways get on your nerves before marriage, you are double-crossing yourself and the other party to marry him—or her. Marriage is no reform school!! And you would not DREAM of sharing an apartment with a chum whose ways bored or annoyed you, just in order to reform him!

* * *

Marriage is a partnership into which you enter in order to POOL your interests, your income (or incomes), your work, aims ambitions, hopes and most of your pastimes. If you don't like to do the same things, have not the same aims and interests and don't enjoy life in the same way, you are foolhardy to rush into a life-contract, merely on the strength of a wild infatuation. You are just going to sea in a canoe!

* * *

Perhaps the marriage-service should be changed to read simply "I love this man (or woman), promise to be absolutely on the level with him (or her) and to be REASONABLE in all things." Just a square proposition. The trouble with the wedding-vows, now, is that they are too extravagant. Nobody takes them seriously or ever remembers them!

* * *

But don't let them scare you! Marriage is NOT the electric chair! It's neither an ORDEAL nor an ideal—just a square deal!

NEW YORK DAY BY DAY

By O. O. McIntyre

NEW YORK, June 14.—Looking about furtively first, and feeling pretty much the simp, I ducked into one of Broadway's depression free-shows last evening. It is a muscular colly-wobbles which winds up with degage exhibitionists hawking exercisers, makeman pills and sundry invigorators.

One hears that Valentino crumpled on a dance floor and later on an operating table cried: "I'll give a million to live!" Argument is advanced he would be with us today had he cleansed his system with a juju held aloft. Admission is gratis, but the privileged must be attentive to the flapdoodle.

A restless listener turned to look back at the street. The voice of a speaker rasped: "He won't give me what I give him—courtesy. And he came in free." When someone swooned to the floor and there was the murmur, "A plant!" the wrath of the speaker at the implication was beautiful to behold.

I found myself a sudden target for a shot of perhaps deserved venom. After lingering awhile I turned to go. Pointing, the speaker yowled: "I suppose that big shot is going to a $50,000 conference!" Then in snarling grin: "He has nothing or he would not be here!" I slunk out blazing!

* * *

Among fading figures on the Broadway horizon, with the departure of Jimmy Walker into exile is Hector Fuller, once scroll writer and orator to the city. Although a talented former dramatic critic of Indianapolis, he was the personification of the popular concept of an English actor with stick, spatterdashes and rolling voice. Engrossing New York's scrolls of welcome—at $300 per scroll—to visiting notables, he gave beau geste to receptions at City Hall. Often, too, he spread culture lobster bazaars by reciting to select circles Shakespeare and Swinburne ad infinitum, his favorite being "Faustine."

* * *

Don Skene, Rialto wit, upon being informed a certain unpopular baseball writer had injured his heel sliding to a base, observed: "If he hurt his heel, I'll bet he aches all over." It was Skene, too, fleeing from a horrible first night, who was collared by an officer in headlong dash to inquire his haste. "Arrested for resisting an opening," he murmured.

* * *

About the most scholarly critic to visit New York is H. T. Parker, of Boston. So polished and erudite is his prose it is a Back Bay tradition he writes his reviews first in Latin, afterwards translating them into English for publication.

* * *

I have just completed an experiment in sprinkling the dogs in an areaway. Billy, the Emeritus, did not take to it. Baring his fangs he tore into the stinging stream, but the Sealyham rolled and barked joyously and at times stood still and turned himself in leisurely to and fro to get the best effects from the cool spray. I'm beginning to believe he has a lucid interval now and then.

Few actresses can tremble so delightfully on an abyss of sin without making the plunge as Peggy Wood. I had never seen Miss Wood on the stage until recently. It was a refreshing experience. She brings back the charm of a girlhood now almost mythological. She needs no fresh acolyte to hymn her naivete—having been highly bespoke by critics on both sides the Atlantic for this especial charm—but the stage has been so afflicted with hard-bitten creatures, inhaling cigarettes ankle deep and shouting shady amours in ginny husk, I cannot forego a lusty cheer.

* * *

I wonder how a modern revival of "Sis Hopkins" with, say Peggy Wood, Lillian Gish or some other tremulously starry-eyed slip in that remembered, to me at least, role of Rose Melville, would fare in the scorching curl of modern sophistication. This was meaty theatricals at the cross-roads and there was one poignant moment when "Sis" was saying farewell to Ridey—don't interrupt I'll lose the thread—bound for the city when I always blubbered right out loud. Year after year! It was the same choke causing that little achey constriction when I read of distracted parents broadcasting kidnapers: "Please be good to our child!"

* * *

In those days I had a notion that some day I'd pack up the telescope, leave the only girl and light a shuck for the big city myself. And, by gum, I did!

LISTEN, WORLD

By Elsie Robinson

Men "in stir" (the penitentiary) have coined a brief but terrible phrase—"STIR-SIMPLE."

It is not easy to tell you what STIR-SIMPLE means, unless you have seen prisoners in that condition, or have been caught yourself in the mental and spiritual stagnation which produces that condition.

Men shrink and curse and batter themselves to bloody rags against steel walls when they are first imprisoned. But presently they become still—horribly still. The fire dies out of their eyes and their blood. In its place comes a creeping death—day dreams that drug them—apathy and lassitude that slowly tighten about them, closer and colder than cell bars.

Gradually indifference to reality becomes an actual stupor. They move through their days like drugged animals.

So they become STIR-SIMPLE—to all purposes idiots; many actually insane.

A hideous picture? Yes; but you don't have to go to the Pen to find it.

MEN AND WOMEN GO STIR-SIMPLE OUTSIDE PRISON WALLS AS WELL AS INSIDE.

And those who go stir-simple are not only in the ranks of the sick and the old and the desperately discouraged. They are quite as often found in charming bungalows and modern offices, in school rooms and pulpits, hospitals and laboratories.

ANY HUMAN BEING WHO HAS NO EXISTENCE BEYOND HIS OWN PERSONAL LIFE AND PRIVATE PROBLEMS, GOES STIR-SIMPLE.

You've seen it happen scores of times.

Happy, eager young brides turning into sour, stupid matrons who can talk of nothing but their husbands' cussedness and their babies' blessedness—who might as well be living in 1833 for all they know of anything outside their homes.

Then they complain because their husbands leave them, because the neighbors ignore them, because their children eventually treat them with barely veiled contempt!

Ambitious, upstanding young men, putting everything they have into their jobs during the first few years—then going stale. Plugging along in the same old rut day after day. Diddering, drowsing over their radios every night. No interest in politics. Don't give a hoot what happens to the country.

Stir-simple. That is what they've all become, shut into the tight, stagnant cells of their own petty affairs.

Then they wonder why the Other Fellow gets all the breaks; complain bitterly that they've "never had a chance."

There's a dreadful chapter in Victor Nelson's book, "PRISON DAYS AND NIGHTS," on this stupor which saps the life from brains and souls. Victor Nelson has served time himself; knows what he is talking about when he describes the deadliest of all prison dangers.

WHY DO MEN GET THAT WAY? PARTLY BECAUSE PRISON CONDITIONS FORCE IT ON THEM; BUT EVEN MORE BECAUSE THEY WISH IT ON THEMSELVES.

"Prison stupor," says he, "is an escape mechanism like drugs or liquor—an unconscious fleeing from life. It is based wholly upon an inability to face the brutal actualities of prison life. As Tannenbaum points out, the prisoner is so tired of the dullness and misery of Today that he spends most of his time in remembered Yesterdays or imagined Tomorrows."

The Stir-Simple men and women outside the prison walls—they also are victims of environment; BUT, TO A FAR GREATER EXTENT, VICTIMS OF THEIR OWN DESIRE.

For they also hate to face reality with its shocks and conflicts, and try to run away from today into a world of hazy resolutions, lazy dreams, dazy self-pity.

What's the cure? Often there's none—for the stir-simple soul doesn't want to be cured. He prefers his shadowy dream world to any open thoroughfare. Yet he can save or cure himself if he will. Tom Mooney, after 17 years in San Quentin, is more alive, more current, than the vast majority of "free" men. How did he escape going stir-simple? Some one asked him—wondered if he played chess like other prisoners.

"No," Mooney declared, "I have more important things to occupy my mind. Some prisoners have their whole lives bound up in the result of a game of dominoes or checks. But I have studied, read, meditated, kept in touch with social changes throughout the world."

"That's what has kept me from getting stir-simple."

What, if anything, is keeping YOU from going stir-simple?

(Copyright, 1933, King Features Synd., Inc.)

OUR RHYMING OPTIMIST

By Aline Michaelis

Come Down, O, Lawd!

Come down, O Lawd; come down, O, Lawd,
An' shine befo' mah face;
Doan' let de Debbil cotch me when
I'se almos' tho' de race!

De cypress tree would grab mah hair,
De swamp am long an' wide;
Come down, O, Lawd; come down, O, Lawd,
An' trabble by mah side!

I'se got to win Jerusalem;
I'se got to git dar soon;
O, Lawd, doan' mek me walk alone
Whar clouds shets out de moon!

De swamp am full ob slimy snakes
De moon is scared to look;
Come down, O, Lawd, come down an' keep
Yo' promise in de Book!

Doan' let de Debbil hide beyon'
Dat bigges' cypress tree;
Come down, O, Lawd; come down an' shine
De dark away frum me!

Text for Today

And the world passeth away, and the lust thereof: but he that doeth the will of God abideth for ever.—I. John, ii:17.

(Today's text is suggested by the Rev. David G. Whitmarsh, pastor, Sheraden Presbyterian Church.)

The Human Side of the News

The Weird Tale of the Palatine—Seized by Mutineers and Wrecked Off Block Island—Ghost Ship Still Seen

By EDWIN C. HILL

ROMANCE has not departed from the sea. Not even with the long-ago disappearance of the Yankee clippers, the great old square-riggers that spread their vast, white wings and went soaring 'round the Horn and out to the China coast, returning not with "ivory, apes and peacocks," but with tea almost worth its weight in gold.

And even now, with sail almost a memory, the old sea has its secrets of strange happenings back through the sweep of time. Even no wit can turn out a tale that has power to reach the heart and stir the blood.

From Block Island, in Long Island Sound, bleak Block Island, comes a weird tale of the old, old sailing days, when "white canvas hummed, slatted and stood out like white ivory against the sky." Natives of that wind-swept isle, just nine miles south of the Rhode Island coast, isle of a sinister past, have seen, or think they have seen in the darkness of the night, a ghost—not the ghost of a man, but of a ship. The wraith of the tragic Palatine.

Whatever they saw or did not see, as they strained their eyes through the dark, out over the tumbling ocean, there is a strange story behind it all. Many years ago, according to tradition, men lived on Block Island and made a living by causing the wreck of sailing ships. They set up false lights and lured ships upon the rocks and looted them after they crashed.

* * *

Cruel Treatment Of Passengers

IT WAS in 1752 that a ship named Palatine started from Holland for Philadelphia. She was crowded with immigrants. It was in the winter and the North Atlantic was in one of her most savage tempers. Gales drove the Palatine far to the north of her true course. Mutiny broke out among the crew. The rebellious seamen murdered their captain and took charge of the ship. With the water and food in their control they sold these necessaries of life to the terrified and helpless immigrants. They demanded $10 for a biscuit and $5 for a single cup of water. And when the unhappy passengers had spent all their money they were left to starve to death and the dead were thrown overboard.

Eventually the mutineers, with all of the money and the valuables of the dead and of the survivors in their hands, took to the boats and abandoned the Palatine to the fury of the storms. It was in Christmas week that the ship went ashore on the northern tip of Block Island. The Block Island wreckers swarmed aboard the stranded vessel, bent on robbing it. But they were kind to the miserable, half starved immigrants. They took them off the ship and into their homes.

But there was one of the immigrants who had been driven quite mad by the horrors of their experience. She refused to leave the ship and fought like a wild thing in her shrieking madness. Leaving her aboard, the wreckers towed the ship toward a sheltered cove where they hoped to strip her at their leisure. But another gale sprang up, and rather than run the risk of their prize being torn away from them by the storm and perhaps falling into other hands, the Block Islanders set her afire. Wrapped in a mantle of flame, the Palatine drifted out to sea. The wreckers and immigrants, standing on the shore, watched the burning ship drifting away from them, while back across the water came the unearthly screams of the mad woman left aboard to burn to death.

* * *

Doomed to Sail The Seas Forever

AND so, as the years passed, the tradition arose and settled into fixed belief that the Palatine, like the Flying Dutchman, was doomed to sail the seas forever. Hundreds have claimed to have seen the apparition, and the "Palatine Light" is a well-known phenomenon along the New England coast. There is, apparently, some kind of light, strange, mysterious, inexplicable, which is seen far out at sea at certain times. One resident of Block Island asserts that the light from the blazing ghost ship is strong enough to illuminate his room at night.

The poet Whittier heard the tale and put it into a poem, "The Palatine" . . . "Still on many a moonless night, from Kingston Head and from Montauk Light, the specter kindles and burns in sight" . . . And there are people living this day on Block Island who will tell you, with their hand on the Book, that they have gazed seaward in the blackness of the night, startled by a bright radiance at sea, and have watched, with straining eyes, while the Palatine, blazing from truck to keelson, swept along the horizon, while the screams of the mad woman came down the wind to chill the marrow in their bones.

TRAGIC COURAGE

By Winifred Black

What would you do if a perfect stranger walked up to you this morning and offered you a check for $5,000?

Not five hundred dollars, mind you, or fifty dollars, take notice of that—but five thousand!—and the man grinning from ear to ear with sheer delight.

The first thing you would do would be to look around for a policeman, isn't that true—honestly now, isn't it?

Afraid of the smiling stranger, that's what you'd be—and then when you were through shivering and looking behind you and watching to see that the generous stranger didn't pull out a gun or something and put it to your head while you were looking at the check—how long would it take you to make some excuse and get the bank on the telephone and find out just what balance there was to the mysterious stranger's credit?

And if the credit was good and the signature was all right—then what would you do?

I know of a very poor old woman in very bad health who had this very thing happen to her just two days ago in this very city, where I live and work and dream and hope. And what do you think she did—the lonesome old woman who is waiting for the dark angel to hold out a helping hand to her and bid her pain and her sorrow and her loneliness cease for ever?

She said to the kindly stranger: "Yes, I am poor and I am ill and I am old, but I shall not live very long now and there are others who need this money more than I do now. Give it to them!"

This is the way of it.

A certain newspaper published the story of the lonely old woman in a series of articles dealing with the strange need of the strange times.

People who read the articles sent in money to the newspaper and the paper put three hundred dollars in the bank for the poor old woman.

And two or three days ago a quiet, little man, plainly dressed, walked into the office of the newspaper and asked where he could find the little 80-year-old German woman who's husband came to this country 25 years ago to brew some good beer for America?

"I used to be a brewer in the old country," said the quiet little man, "and I believe this woman's dead husband came from my town in Bavaria. "Just for old times sake I want to help out his widow."

But when the quiet little man tried to give the lonesome old woman $5,000 to keep her in comfort for her few remaining years—she said no, and asked him to look around for someone who really needed the money.

She had $300 now, she said, and that would take care of her all right.

How do you feel about that story?

It is absolutely true, every word of it, and then you and I dare to pretend to believe that honesty and generous love of humanity has gone out of the world.

I wish somebody would write a song about these two people—sort of an old-fashioned ballad like the ones your grandmother used to sing when she sat out on the porch and watched the moon rise over the hills.

I believe it would be a relief to hear it instead of these everlasting moon and spoon and June affairs—don't you?

(Copyright, 1933, King Features Synd., Inc.)

WHAT DO YOU KNOW?

By S. H. Connolly

Match correctly:

1. "But if it be a sin to covet honor
   I am the most offending soul alive." "Julius Caesar"
2. "Foul deeds will rise
   Though all the earth o'erwhelm them,
   to men's eyes." "Henry V."
3. "See what a rent the envious Casca made." "The Tempest"
4. "You are the cruell'st she alive
   If you will lead these graces to the grave
   And leave the world no copy." "Hamlet"
5. "He that dies pays all debts." "Twelfth Night"

Fill each blank:

6. King ——, of England, was executed in 1649.
7. Both John Adams and Thomas Jefferson died in the year ——.
8. A mugwump is an —— in politics.
9. The Republic of Andorra is located in the valley of the ——.
10. An Apostolic Delegate is the representative of the ——.
11. Newport News is in ——.
12. The man that sat under a sword hung by a hair was ——.
13. A siesta is a —— taken during the warm hours of the day.
14. A —— is one who draws maps.
15. Celibacy is the state of being ——.

Answers to today's test:

1. "Henry V." 2. "Hamlet." 3. "Julius Caesar." 4. "Twelfth Night." 5. "The Tempest." 6. Charles I. 7. 1826. 8. Independent. 9. Pyrennes between France and Spain. 10. Pope. 11. Virginia. 12. Damocles. 13. Nap. 14. Cartographer. 15. Unmarried.

(Copyright, 1933, King Features Syndicate, Inc.)
